DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

National Estuarine Research Reserve System

AGENCY: Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

ACTION: Notice of Approval and Availability of the Revised Management Plan for the Wells (Maine) National Estuarine Research Reserve.

SUMMARY: Notice is hereby given that the Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce has approved the revised management plan, which includes an expansion of the boundary of the reserve, for the Wells National Estuarine Research Reserve.

The Wells Reserve was designated in February 1984 pursuant to Section 315 of the Coastal Zone Management Act of 1972, as amended, 16 U.S.C. 1461. The reserve has been operating under a management plan approved in 1996. Pursuant to 15 CFR 921.33(c), a state must revise their management plan every five years. The submission of this plan fulfills this requirement and sets a course for successful implementation of the goals and objectives of the reserve.

Since the last management plan, the Wells Reserve acquired two key parcels of land, changed its boundary, constructed needed facilities, and implemented several system-wide programs. It acquired the 27-acre Alheim property and the 2½-acre Lord parcel, and changed its boundary to include 359 acres of the watershed areas of the Reserve. The Reserve built the Maine Coastal Ecology Center, new interpretive exhibits, the Alheim Commons dormitory, and the Forest Learning Shelter, and equipped and opened the Coastal Resource Library. This new management plan serves as the primary guidance document for the operation of the Wells Reserve's core and system-wide programs in research and monitoring, education and coastal training, and resource management and stewardship. The plan provides guidance on the acquisition of land to be added to the Reserve and on the construction and renovation of buildings and exhibits that support reserve programs. It also guides the

Reserve in important related programs, such as volunteerism and outreach to communities to encourage stewardship of coastal resources in southern Maine.

The Wells Reserve is a public/private partnership whose administrative oversight is vested in the Reserve Management Authority (RMA). This independent state agency was established in 1990 to support and promote the interests of the Wells Reserve. The RMA has a Board of Directors composed of representatives having a property, management, or program interest in the Wells Reserve. The RMA members represent the Maine Department of conservation, the U.S. Fish and Wildlife Service, the Town of Wells, the Laudholm Trust, the Maine State Planning Office, and the National Oceanic and Atmospheric Administration.

Department of the Air Force

Air Force Special Operations Command Assets Beddown, Cannon Air Force Base, NM

AGENCY: Department of the Air Force, DOD.

ACTION: Record of Decision.

SUMMARY: On August 20, 2007, the United States Air Force signed the Record of Decision (ROD) for the Air Force Special Operations Command Assets Beddown at Cannon Air Force Base (AFB), New Mexico. The ROD states the Air Force decision to implement the Preferred Alternative (East West Airfield Alternative at Cannon AFB, the Two Target Alternative at Melrose Air Force Range, and the use of Cannon scheduled airspace).

The decision was based on matters discussed in the Final Environmental Impact Statement (EIS), inputs from the public and regulatory agencies, and other relevant factors. The Final EIS was made available on July 20, 2007 in the **Federal Register** (Volume 72, Number 139, Page 39808) with a wait period ending August 20, 2007. The ROD documents only the decision of the Air Force with respect to the proposed Air Force actions analyzed in the Final EIS.

Revised Notice of Intent To Prepare an Environmental Impact Statement/ Overseas Environmental Impact Statement for the Virginia Capes Range Complex and Notice of Request for Public Scoping Comments

AGENCY: Department of the Navy, DoD.

ACTION: Notice.

SUMMARY: This notice is to inform the public that the Department of the Navy is expanding the Virginia Capes (VACAPES) Range Complex Environmental Impact Statement/ Overseas Environmental Impact Statement (EIS/OEIS) area of consideration and to invite the public to provide comments for consideration during preparation of the EIS/OEIS. Since the December 2006 EIS/OEIS scoping notice [FR 71143], potential shallow water inert mine warfare training areas have been identified in the southern portion of the Chesapeake Bay, south of latitude 37° 25'N. The proposed training areas would consist of instrumented shapes placed temporarily for training purposes. Each of the two proposed training areas would be approximately one by four square nautical miles in area. Training in these mine warfare areas would not involve use of active sonar. Arrangement could vary periodically and location within the proposed training areas would vary depending on operational requirements; however shipping lanes will be avoided. Divers will be required to perform periodic maintenance and replacement of the instrumented shapes.

Scoping comments previously submitted following publication of the December 2006 Notice of Intent to Prepare an EIS/OEIS for the VACAPES Range Complex are still valid and need not be resubmitted. The Navy encourages additional comments or concerns on the expanded area of consideration. VACAPES Range Complex requirements, additional EIS/OEIS information, proposed action background, alternatives, environmental considerations, and public participation inputs can be found at <http://www.vacapessrangecomplexeis.com>. More detailed information regarding this notice of intent can be found on the project Web site.
