

Alternative 4, the NPS preferred alternative, was developed with the aid of a process called "Choosing By Advantages" in which the planning team identifies and compares the relative advantages of each alternative according to a set of factors. This process also establishes the relationship between the advantages and costs of each alternative. This information is used to combine the best attributes of the preliminary alternatives into the preferred alternative giving the NPS the greatest overall benefit for the most reasonable cost.

Alternative 4 would provide visitor services at the visitor center, the Gambrill Mill, and the stone house on the Thomas Farm. In addition, exhibits would be provided at the secondary house on the Best Farm and at the Worthington House. Parking at each location would be developed. There would be no alternative transportation system. Visitors would access the site via personal automobile. The maintenance facility would remain in its current structure. An existing trail from the Gambrill Mill would be extended to the site of Wallace's headquarters, a major feature of the battlefield currently not open to visitors. Administration offices would be in the rehabilitated Thomas House. Safer access to the 14th New Jersey Monument and a designated commemorative zone for possible new monuments would be developed. Instead of a deck across I-270 connecting the Worthington and Thomas farmsteads, a small pedestrian deck would be created to allow visitors to cross between the two sites.

Dated: August 13, 2007.

Joseph M. Lawler,

Regional Director, National Capital Region.

BILLING CODE 4312-57-P

DEPARTMENT OF THE INTERIOR

National Park Service

National Mall & Memorial Parks; Notice of Intent To Prepare an Environmental Impact Statement and Plan for the National Mall

AGENCY: Department of the Interior, National Park Service.

ACTION: Notice of intent to prepare an Environmental Impact Statement and Plan for the National Mall.

SUMMARY: In accordance with section 102(2)(C) of the National Environmental Policy Act of 1969, the National Park Service (NPS) will be preparing an

Environmental Impact Statement and Plan for the National Mall to develop a long term vision plan for the use and management of the National Mall, which has been defined by Congress as a "substantially completed work of civic art," and for Pennsylvania Avenue National Historic Park. In the January 16, 2007 **Federal Register** (72 FR 1763), the NPS announced it was developing this plan. The NPS was already holding public meetings and engaging with other government agencies. The NPS has since determined it will proceed to producing an Environmental Impact Statement as part of the planning process.

DATES: Information related to public involvement opportunities will be provided at the following park Web site: <http://www.nps.gov/nationalmallplan>.

FOR FURTHER INFORMATION CONTACT: Project Executive Susan Spain, who may be contacted at National Mall & Memorial Parks, 900 Ohio Drive, SW., Washington, DC 20024, by telephone at (202) 245-4692, or by e-mail at susan_spain@nps.gov.

SUPPLEMENTARY INFORMATION: The planning effort will include compliance with Section 106 of the National Historic Preservation Act and other laws and requirements. The National Mall Plan will differ from an NPS General Management Plan in that it will cover a longer-term time frame and is not a plan for the entirety of the National Mall & Memorial Parks. National Mall & Memorial Parks includes many national park units throughout the Nation's Capital and this plan will address only the National Mall, which is comprised of West Potomac Park, the Washington Monument and the Mall, and the related Pennsylvania Avenue National Historic Park. A map of the study area is available at <http://www.nps.gov/nationalmallplan>. In cooperation with the agencies with jurisdiction over properties adjoining the National Mall, attention will also be given to cumulative impacts outside its boundaries that affect the integrity of the National Mall.

The Environmental Impact Statement and Plan for the National Mall will address visitor use issues such as civic space, events management, national celebrations, education, programs and recreation; and will identify types, locations, and character of needed visitor facilities and services, which could include food service, seating, lighting, restrooms, recreation, signage (orientation/way finding/education), and crowd management. The Environmental Impact Statement and Plan for the National Mall could also

identify desired site improvements, such as floral displays, water features, and other embellishments that are not commemorative in nature. Additional issues may be defined or added throughout planning.

Public involvement and civic engagement will continue to be key components in the preparation of the Environmental Impact Statement and Plan for the National Mall. As a result of the decision to conduct an Environmental Impact Statement, there will be public scoping meetings and opportunities on a range of alternatives and other topics, concurrent with publication of several reports and newsletters addressing public comment and a draft range of alternatives. The thousands of comments already received by the NPS are also being considered in this process along with the information provided by cooperating agencies and others.

Dated: August 16, 2007.

Joseph M. Lawler,

Regional Director, National Capital Region.

BILLING CODE 4312-39-P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2007-0020]

Standard on Manlifts; Extension of the Office of Management and Budget's (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comment.

SUMMARY: OSHA solicits public comment concerning its proposal to extend OMB approval of the information collection requirements specified in its Standard on Manlifts (29 CFR 1910.68(e)).

DATES: Comments must be submitted (postmarked, sent, or received) by November 5, 2007.

ADDRESSES:

Electronically: You may submit comments and attachments electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Facsimile: If your comments, including attachments, are not longer than 10 pages, you may fax them to the OSHA Docket Office at (202) 693-1648.

Mail, hand delivery, express mail, messenger, or courier service: When using this method, you must submit three copies of your comments and attachments to the OSHA Docket Office, OSHA Docket No. OSHA–2007–0020, U.S. Department of Labor, Occupational Safety and Health Administration, Room N–2625, 200 Constitution Avenue, NW., Washington, DC 20210. Deliveries (hand, express mail, messenger, and courier service) are accepted during the Department of Labor's and Docket Office's normal business hours, 8:15 a.m. to 4:45 p.m., EST.

Instructions: All submissions must include the Agency name and OSHA docket number for the ICR (OSHA–2007–0020). All comments, including any personal information you provide, are placed in the public docket without change, and may be made available online at <http://www.regulations.gov>. For further information on submitting comments see the “Public Participation” heading in the section of this notice titled “Supplementary Information.”

Docket: To read or download comments or other material in the docket, go to <http://www.regulations.gov> or the OSHA Docket Office at the address above. All documents in the docket (including this **Federal Register** notice) are listed in the <http://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. You may also contact Theda Kenney at the address below to obtain a copy of the ICR.

FOR FURTHER INFORMATION CONTACT:

Theda Kenney or Todd Owen, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor, Room N–3609, 200 Constitution Avenue, NW., Washington, DC 20210; telephone (202) 693–2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time

and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The Standard specifies two paperwork requirements. The following sections describe who uses the information collected under each requirement as well as how they use it. The purpose of the requirements is to reduce employees' risk of death or serious injury by ensuring that manlifts are in safe operating condition.

Periodic Inspections and Records (paragraph (e)). This provision requires that each manlift be inspected at least once every 30 days. The manlift inspection is to cover at least the following items: Steps; step fastenings; rails; rail supports and fastenings; rollers and slides; belt and belt tension; handholds and fastenings; floor landings; guardrails; lubrication; limit switches; warning signs and lights; illumination; drive pulley; bottom (boot) pulley and clearance; pulley supports; motor; driving mechanism; brake; electrical switches; vibration and misalignment; and any “skip” on the up or down run when mounting a step (indicating worn gears). A certification record of the inspection must be made upon completion of the inspection. The record must contain the date of the inspection, the signature of the person who performed the inspection, and the serial number or other identifier of the inspected manlift.

Disclosure of Inspection Certification Records. Employers are to maintain the certification record and make it available to OSHA compliance officers. This record provides assurance to employers, employees, and compliance officers that manlifts were inspected as required by the Standard. The inspections are made to keep equipment in safe operating condition, thereby preventing manlift failure while carrying employees to elevated worksites. These records also provide the most efficient means for the compliance officers to determine that an

employer is complying with the Standard.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Standard on Manlifts (29 CFR 1910.68(e)). The Agency is requesting to retain its current burden hour total of 37,801 associated with this Standard. The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: Standard on Manlifts (29 CFR 1910.68(e)).

OMB Number: 1218–0226.

Affected Public: Business or other for-profit.

Number of Respondents: 3,000.

Frequency: On occasion; Monthly.

Average Time Per Response: Varies from 2 minutes (.03 hour) for an employer to disclose the inspection certification record to 1 hour to inspect a manlift.

Estimated Total Burden Hours: 37,801.

Estimated Cost (Operation and Maintenance): \$0.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (FAX); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA–2007–0020). You may supplement electronic

submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled "Addresses"). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and date of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download through this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available through the Web site, and for assistance in using the Internet to locate docket submissions.

V. Authority and Signature

Edwin G. Foulke, Jr., Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*) and Secretary of Labor's Order No. 5-2002 (67 FR 65008).

Signed at Washington, DC, on August 21, 2007.

Edwin G. Foulke, Jr.,

Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510-26-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-461]

Amergen Energy Company, LLC; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of AmerGen Energy Company, LLC (the licensee) to withdraw its November 16, 2006, application for proposed amendment to Facility Operating License No. NPF-62 for the Clinton Power Station, Unit No. 1, located in DeWitt County, Illinois.

The proposed amendment would have revised the facility technical specifications (TSs) pertaining to TS 3.6.5.1, "Drywell," surveillance requirement, 3.6.5.1.3, to delay the performance of the next drywell bypass leakage rate test from the current requirement of November 23, 2008, to prior to startup from the Clinton Unit 1, refueling outage 12 (C1R12), projected for January 2010; and TS 5.5.13, "Primary Containment Leakage Rate Testing Program," to delay the performance of the next primary containment Type A integrated leak rate test from the current requirement of no later than November 23, 2008, to prior to startup from the C1R12 refueling outage.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on January 30, 2007 (72 FR 4306). However, by letter dated April 30, 2007, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated November 16, 2006, and the licensee's letter dated April 30, 2007, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737 or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 28th day of August, 2007.

For the Nuclear Regulatory Commission.

Stephen P. Sands,

Project Manager, Plant Licensing Branch III-2, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[DOCKET NOS. 50-272 AND 50-311]

PSEG Nuclear LLC; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of PSEG Nuclear LLC (the licensee) to withdraw its application dated August 4, 2006, as supplemented by letter dated March 8, 2007, for proposed amendment to Facility Operating License Nos. 50-272 and 50-311 for the Salem Nuclear Generating Station, Unit Nos. 1 and 2, located in Salem County, New Jersey.

The proposed amendment would have revised Technical Specification 3/4.9.3, "Decay Time," to allow the movement of irradiated fuel in the reactor pressure vessel to commence at 24 hours after shutdown or at the decay time calculated using the licensee's spent fuel pool integrated decay heat management program, whichever is later. The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on December 19, 2006 (71 FR 75999). However, by letter dated August 13, 2007, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated August 4, 2006, as supplemented by letter dated March 8, 2007, and the licensee's letter dated August 13, 2007, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/reading-rm.html>.
