

requirements in 49 CFR part 661. This document replaces text that was discussed in the preamble but omitted from the final rule with regard to final assembly requirements for rolling stock.

DATES: The effective date of this publication is October 22, 2007.

FOR FURTHER INFORMATION CONTACT: Richard Wong, Office of the Chief Counsel, Federal Transit Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590, (202) 366-4011 or Richard.Wong@dot.gov.

SUPPLEMENTARY INFORMATION: An inadvertent error occurred in the drafting of the final rule. In the Second Notice of Proposed Rulemaking (SNPRM) (71 FR 69412, Nov. 30, 2006), FTA proposed a new Appendix D to part 661 to amend the final assembly requirements for rolling stock. In the preamble to the final rule (72 FR 53688, Sept. 20, 2007), FTA announced that it was withdrawing the proposed language in the SNPRM and would instead continue to implement the terms of the March 18, 1997, Dear Colleague letter, with a few minor additions to reflect industry practices that have taken effect after the 1997 Dear Colleague letter was issued. In the process of drafting the final rule, text that was discussed in the preamble was not included in the final rule.

Accordingly, this document will correct that omission by removing the erroneous text in the September 20, 2007, final rule and replacing it with the correct text.

PART 661—BUY AMERICA REQUIREMENTS

■ In rule FR Doc E7-18355 published on September 20, 2007 (72 FR 53688) make the following corrections:

§ 661.11 [corrected]

■ 1. Beginning on page 53697, in the third column, in Appendix D to § 661.11, paragraphs (a) and (b) are corrected to read as follows:

Appendix D to § 661.11—Minimum Requirements for Final Assembly

(a) Rail Cars: In the case of the manufacture of a new rail car, final assembly would typically include, as a minimum, the following operations: installation and interconnection of propulsion control equipment, propulsion cooling equipment, brake equipment, energy sources for auxiliaries and controls, heating and air conditioning, communications equipment, motors, wheels and axles, suspensions and frames; the inspection and verification of all installation and interconnection work; and the in-plant testing of the stationary product to verify all functions.

(b) Buses: In the case of a new bus, final assembly would typically include, at a minimum, the installation and interconnection of the engine, transmission, axles, including the cooling and braking systems; the installation and interconnection of the heating and air conditioning equipment; the installation of pneumatic and electrical systems, door systems, passenger seats, passenger grab rails, destination signs, wheelchair lifts; and road testing, final inspection, repairs and preparation of the vehicles for delivery.

[Docket No.060525140-6221-02]

RIN 0648-XC83

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper-Grouper Fishery of the South Atlantic Region; Closure

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS closes the commercial fishery for golden tilefish in the exclusive economic zone (EEZ) in the South Atlantic. This closure is necessary to protect the golden tilefish resource.

DATES: The closure is effective 12 noon, local time, October 3, 2007, through December 31, 2007.

FOR FURTHER INFORMATION CONTACT: Susan Gerhart, 727-824-5305, fax: 727-824-5308, e-mail: Susan.Gerhart@noaa.gov.

SUPPLEMENTARY INFORMATION: The snapper-grouper fishery is managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The FMP was prepared by the South Atlantic Fishery Management Council (Council) and is implemented under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

The commercial fishery for South Atlantic golden tilefish is managed

under a commercial quota of 295,000 lb (133,810 kg), as specified in 50 CFR 622.42(e)(2), for the current fishing year, January 1 through December 31, 2007.

Under 50 CFR 622.43(a), NMFS is required to close the golden tilefish commercial fishery when its quota has been reached, or is projected to be reached, by filing a notification at the Office of the **Federal Register**. NMFS has determined the commercial quota of 295,000 lb (133,810 kg) for golden tilefish in the South Atlantic will be reached by October 3, 2007.

Accordingly, the commercial fishery for South Atlantic golden tilefish is closed effective 12 noon, local time, October 3, 2007, through December 31, 2007, the end of the fishing year. The operator of a vessel with a valid commercial vessel permit for South Atlantic snapper-grouper having golden tilefish aboard must have landed and bartered, traded, or sold such golden tilefish prior to 12 noon, local time, October 3, 2007.

During the closure, the appropriate bag limits specified in 50 CFR 622.39(d)(1) and the applicable possession limits specified in 50 CFR 622.39(d)(2) apply to all harvest or possession of golden tilefish in or from the South Atlantic EEZ, and the sale or purchase of golden tilefish taken from the EEZ is prohibited. The prohibition on sale or purchase does not apply to sale or purchase of golden tilefish that were harvested, landed ashore, and sold prior to 12 noon, local time, October 3, 2007, and were held in cold storage by a dealer or processor.

Classification

This action responds to the best available information recently obtained from the fisheries. The Assistant Administrator for Fisheries, NOAA, finds that the need to immediately implement this action to close the fishery constitutes good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth in 5 U.S.C. 553(b)(3)(B), as such procedures would be unnecessary and contrary to the public interest. Such procedures would be unnecessary because the rule itself already has been subject to notice and comment, and all that remains is to notify the public of the closure.

NMFS also finds good cause that the implementation of this action cannot be delayed for 30 days. There is a need to implement this measure in a timely fashion to prevent an overrun of the commercial quota of South Atlantic golden tilefish, given the capacity of the fishing fleet to harvest the quota quickly. Any delay in implementing this action would be contrary to the

Magnuson-Stevens Act and the FMP. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is waived.

This action is taken under 50 CFR 622.43(a) and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 24, 2007.

Alan D. Risenhoover,

*Director, Office of Sustainable Fisheries,
National Marine Fisheries Service.*

RIN 0648-XC91

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 630 in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; modification of a closure.

SUMMARY: NMFS is opening directed fishing for pollock in Statistical Area 630 in the Gulf of Alaska (GOA). This action is necessary to fully use the C season allowance of the 2007 total allowable catch (TAC) of pollock in Statistical Area 630 in the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), September 25, 2007, through 1200 hrs, A.l.t., December 31, 2007. Comments must be received at the following address no later than 4:30 p.m., A.l.t., October 10, 2007.

ADDRESSES: Send comments to Sue Salvesson, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region, NMFS, Attn:

Ellen Sebastian. Comments may be submitted by:

- Mail to: P.O. Box 21668, Juneau, AK 99802;

- Hand delivery to the Federal Building, 709 West 9th Street, Room 420A, Juneau, Alaska;

- FAX to 907-586-7557;
- E-mail to inseason-fakr@noaa.gov and include in the subject line of the e-mail the document identifier: g63plkr05.fo.wpd (E-mail comments, with or without attachments, are limited to 5 megabytes).

FOR FURTHER INFORMATION CONTACT:

Jennifer Hogan, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

NMFS prohibited directed fishing for pollock in Statistical Area 630 in the GOA under § 679.20(d)(1)(iii) on August 28, 2007 (72 FR 48946, August 27, 2007). NMFS reopened the pollock fishery in Statistical Area 630 in the GOA for 72 hours on September 15, 2007 (72 FR 53169, September 18, 2007). NMFS reopened the pollock fishery in Statistical Area 630 in the GOA for 48 hours on September 21, 2007. NMFS prohibited directed fishing for pollock on September 23, 2007.

NMFS has determined that as of September 24, 2007 approximately 1,590 mt remain in the C season allowance of the 2007 pollock directed fishing allowance in Statistical Area 630 in the GOA. Therefore, in accordance with § 679.25(a)(1)(i), (a)(2)(i)(C) and (a)(2)(iii)(D), and to fully utilize the C season allowance of the 2007 TAC of pollock in Statistical Area 630 in the GOA, NMFS is terminating the previous closure and is reopening directed

fishing for pollock in Statistical Area 630 in the GOA.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the opening of pollock in Statistical Area 630 in the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of September 24, 2007.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Without this inseason adjustment, NMFS could not allow the fishery for pollock in Statistical Area 630 in the GOA to be harvested in an expedient manner and in accordance with the regulatory schedule. Under § 679.25(c)(2), interested persons are invited to submit written comments on this action (see **ADDRESSES**) until October 10, 2007.

This action is required by § 679.25 and § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 25, 2007.

James P. Burgess,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
