Electronic Access: The NMFS Strategic Plan for Fisheries Research (2007) may be viewed in its entirety online at <http://www.st.nmfs.noaa.gov/index.html>.

FOR FURTHER INFORMATION CONTACT:

Mark Chandler at 301-713-2367 ext. 152.

SUPPLEMENTARY INFORMATION: Section 404 of the Magnuson-Stevens Act requires the Secretary of Commerce to post triennially in the **Federal Register** the availability of a five-year strategic plan for fisheries research. The Magnuson-Stevens Act also requires that the plan address four major areas of research: (1) research to support fishery conservation and management; (2) conservation engineering research; (3) research on the fisheries; and (4) information management research. The Magnuson-Stevens Act also requires that the plan contain a limited number of priority objectives for each of these research areas. Additionally, this plan incorporates input provided during the public comment period on the draft version announced in the **Federal Register**: January 24, 2007 (72 FR 3111).

The Strategic Plan for Fisheries Research (2007) is based upon and entirely consistent with NMFS' "New Priorities for the 21st Century: National Marine Fisheries Service Strategic Plan Updated for FY 2005—FY 2010" located on the internet at <http://www.nmfs.noaa.gov/mb/strategic/>. The objectives found under the "Major Fishery Research Goals and Objectives" section of the Strategic Plan for Fisheries Research can be linked with those in the agency's comprehensive plan that covers all aspects of NMFS' activities.

The scope of the 2007 document is solely fisheries research to support the Magnuson-Stevens Act. It does not include the regulatory and enforcement components of NMFS' mission. NMFS currently conducts a comprehensive program of fisheries research and

involves industry and others interested in planning and implementing its fisheries objectives.

Dated: October 12, 2007.

Steven A. Murawski

Director of Scientific Programs and Chief Science Advisor, National Marine Fisheries Service.

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Iraq - Logistics Support for C-130E Aircraft

The Government of Iraq has requested a possible sale of logistics support for (3) C-130E aircraft to include supply and maintenance support, flares, electronic warfare support, software upgrades, pyrotechnics, spare and repair parts, support equipment, publications and documentation, personnel training and training equipment, fuel and fueling services, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$172 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraqi government and serves the interests of the Iraqi people and the U.S., as well as offering hope for a more stable and peaceful Middle East.

The Government of Iraq needs the contractor technical support, maintenance, and logistical services to maintain the operational capabilities of its C-130E aircraft, previously procured from the United States. These C-130E aircraft will be used to provide airlift support. Additionally, this sale offers the U.S. the opportunity to facilitate the political transition currently underway and build additional links to the Iraqi military.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

There will be a competition between the contractors in joint negotiations for Contractor Engineering Technical Services. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale may require the assignment of up to four representatives to support Contractor Engineering Technical Services in Iraq for two years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

BILLING CODE 5001-06-C

DEPARTMENT OF DEFENSE

Department of the Navy

Notice of Intent To Prepare a Supplemental Environmental Impact Statement to the Final Environmental Impact Statement and Notice of Request for Public Scoping Comments

AGENCY: Department of the Navy, DoD.

ACTION: Notice.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969, and the regulations implemented by the Council on Environmental Quality (40 CFR parts 1500 through 1508), the Department of the Navy (DON) announces its intent to prepare a Supplemental Environmental Impact Statement (SEIS). This SEIS supplements the Navy's 1999 Final Environmental Impact Statement (FEIS), "Developing Home Port Facilities for Three NIMITZ-Class Aircraft Carriers in Support of the U.S. Pacific Fleet," as authorized by the Record of Decision (ROD) dated January 28, 2000 and

published in the **Federal Register** on February 8, 2000 (65 FR 6181). The limited purpose of this SEIS is to supplement the traffic analysis contained in the 1999 FEIS, to assess potential new information, validate impacts to traffic and to analyze the effectiveness of existing traffic mitigation measures implemented per the 2000 ROD when three CVNs home ported at Naval Air Station North Island (NASNI), California are simultaneously in port.

Completion of the SEIS is necessary under 40 CFR 1502.9 to assess potential new information and to validate impacts
