

(3) A description of the existing airspace capacity. Describe how anticipated new operations would affect the surrounding airspace and air traffic flow patterns in the metropolitan area in or near the airport. Include a discussion of whether operations at this airport create airspace conflicts that may cause congestion or whether air traffic works into the flow of other air traffic in the area.

(4) A description of the airport's five-year ACIP, including a discussion of major projects, their priorities, projected schedule for project accomplishment, and estimated costs. The ACIP must specifically identify the safety, capacity, and conversion-related projects, associated costs, and projected five-year schedule of project construction, including those requested for consideration for MAP funding.

(5) A description of those projects that are consistent with the role of the airport and effectively contribute to the joint-use or conversion of the airfield to a civil airport. The projects can be related to various improvement categories depending on what is needed to convert from military to civil airport use, to meet required civil airport standards, and/or to provide capacity to the airport and/or airport system. The projects selected (e.g., safety-related, conversion-related, and/or capacity-related), must be identified and fully explained based on the airport's planned use. Those projects that may be eligible under MAP, if needed for conversion- or capacity-related purposes, must be clearly indicated, and include the following information:

Airside

- Modification of airport or military airfield for safety purposes, including airport pavement modifications (e.g., widening), marking, lighting, strengthening, drainage or modifying other structures or features in the airport environs to meet civil standards for airport imaginary surfaces as described in 14 CFR part 77.

- Construction of facilities or support facilities such as passenger terminal gates, aprons for passenger terminals, taxiways to new terminal facilities, aircraft parking, and cargo facilities to accommodate civil use.

- Modification of airport or military utilities (electrical distribution systems, communications lines, water, sewer, storm drainage) to meet civil standards. Also, modifications that allow utilities on the civil airport to operate independently, where other portions of the base are conveyed to entities other than the airport sponsor or retained by the Government.

- Purchase, rehabilitation, or modification of airport and airport support facilities and equipment, including snow removal, aircraft rescue, fire fighting buildings and equipment, airport security, lighting vaults, and reconfiguration or relocation of eligible buildings for more efficient civil airport operations.

- Modification of airport or military airfield fuel systems and fuel farms to accommodate civil aviation use.

- Acquisition of additional land for runway protection zones, other approach protection, or airport development.

- Cargo facility requirements.

- Modifications, which will permit the airfield to accommodate general aviation users.

Landside

- Construction of surface parking areas and access roads to accommodate automobiles in the airport terminal and air cargo areas and provide an adequate level of access to the airport.

- Construction or relocation of access roads to provide efficient and convenient movement of vehicular traffic to, on, and from the airport, including access to passenger, air cargo, fixed base operations, and aircraft maintenance areas.

- Modification or construction of facilities such as passenger terminals, surface automobile parking lots, hangars, air cargo terminal buildings, and access roads to cargo facilities to accommodate civil use.

(6) An evaluation of the ability of surface transportation facilities (road, rail, high-speed rail, maritime) to provide intermodal connections.

(7) A description of the type and level of aviation and community interest in the civil use of a current or former military airport.

(8) One copy of the FAA-approved ALP for each copy of the application. The ALP or supporting information should clearly show capacity and conversion-related projects. Other information such as project costs, schedule, project justification, other maps and drawings showing the project locations, and any other supporting documentation that would make the application easier to understand should also be included. You may also provide photos, which would further describe the airport, projects, and otherwise clarify certain aspects of this application. These maps and ALPs should be cross-referenced with the project costs and project descriptions.

Redesignation of Airports Previously Designated and Applying for up to an Additional Five Years in the Program

Airports applying for redesignation to the Military Airport Program must submit the same information required by new candidate airports applying for a new designation. On the SF 424, Application for Federal Assistance, prescribed by the Office of Management and Budget Circular A-102, airports must indicate their application is for redesignation to the MAP. In addition to the above information, they must explain:

(1) Why a redesignation and additional MAP-eligible project funding is needed to accomplish the conversion to meet the civil role of the airport and the preferred time period for redesignation not to exceed five years;

(2) Why funding of eligible work under other categories of AIP or other sources of funding would not accomplish the development needs of the airport; and

(3) Why, based on the previously funded MAP projects, the projects and/or funding level were insufficient to accomplish the airport conversion needs and development goals.

This notice is issued pursuant to Title 49 U.S.C. 47118.

Issued at Washington, DC, on December 7, 2007.

Wayne Herbeck,

Deputy Director, Office of Airport Planning and Programming.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

[FTA Docket No. FTA-2007-0027]

Notice of Request for a New Collection

AGENCY: Federal Transit Administration, DOT.

ACTION: Notice of request for comments.

SUMMARY: The Federal Transit Administration invites public comments about our intention to request the Office of Management and Budget's (OMB) to approve a new collection: 49 U.S.C. 5317, New Freedom Program. The information to be collected will be used to accumulate mass transportation financial and operating information using a uniform system of accounts and records. The **Federal Register** Notice with a 60-day comment period soliciting comments was published on October 2, 2007.

DATES: Comments must be submitted before January 16, 2008. A comment to

OMB is most effective if OMB receives it within 30 days of publication.

FOR FURTHER INFORMATION CONTACT:

LaStar Matthews, Office of Administration, Office of Management Planning, (202) 366-2295.

SUPPLEMENTARY INFORMATION:

Title: 49 U.S.C. Section 5317, New Freedom Program (*OMB Number: 2132-NEW*).

Abstract: Title 49 U.S.C. Section 5317 authorizes the Secretary of Transportation to make grants to states and designated recipients in urbanized areas of 200,000 persons or greater to reduce barriers to transportation services and expand the transportation mobility options available to people with disabilities beyond the requirements of the Americans with Disabilities Act (ADA) of 1990. Grant recipients are required to make information available to the public and to publish a program of projects which identifies the subrecipients and projects for which the State or designated recipient is applying for financial assistance. FTA uses the information to determine eligibility for funding and to monitor the grantees' progress in implementing and completing project activities. FTA collects performance information from designated recipients in rural areas, small urbanized areas and other direct recipients for small urbanized areas annually and collects performance information from designated recipients in large urbanized areas on a quarterly basis. The information submitted ensures FTA's compliance with applicable federal laws and OMB Circular A-102.

Estimated Total Annual Burden: 122,374 hours.

ADDRESSES: All written comments must refer to the docket number that appears at the top of this document and be submitted to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW., Washington, DC 20503, *Attention:* FTA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued: December 10, 2007.

Ann Linnertz,

Associate Administrator for Administration.

BILLING CODE 4910-57-P

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

[FTA Docket No. FTA-2007-0028]

Agency Information Collection Activity Under OMB Review

AGENCY: Federal Transit Administration, DOT.

ACTION: Notice of request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for approval. The **Federal Register** Notice with a 60-day comment period soliciting comments was published on October 1, 2007. No comments were received in response to that notice.

DATES: Comments must be submitted before January 16, 2008. A comment to OMB is most effective if OMB receives it within 30 days of publication.

FOR FURTHER INFORMATION CONTACT:

LaStar Matthews, Office of Administration, Office of Management Planning, (202) 366-2295 or e-mail: *LaStar.Matthews@dot.gov*.

SUPPLEMENTARY INFORMATION:

Title: 49 CFR Part 611 Major Capital Investment Projects (*OMB Number: 2132-0561*).

Abstract: On August 10, 2005, the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA-LU) was enacted. Sections 3011(d)(5) and 3011(e)(6) of SAFETEA-LU require FTA to issue regulations on the manner in which candidate projects for capital investment grants and loans for new fixed guideway systems and extensions to existing systems ("New Starts," "Small Starts," respectively) will be evaluated and rated for purposes of the FTA Capital Investment Grants and Loans program for New and Small Starts under 49 U.S.C. 5309. The Advanced Notice of Proposed Rulemaking (ANPRM) for this regulation was issued on January 30, 2006, (71 FR 22841). The Notice of Proposed Rulemaking (NPRM) was issued on August 3, 2007, (72 FR 43328).

FTA has a longstanding requirement to evaluate proposed projects against a

prescribed set of statutory criteria. The Surface Transportation and Uniform Relocation Assistance Act of 1987 (STURAA) established in law a set of criteria that proposed projects had to meet in order to be eligible for federal funding. The requirement for summary project ratings has been in place since 1998. Thus, the requirements for project evaluation and data collection for New Starts projects are not new, nor have they changed extensively since their inception. One addition included in SAFETEA-LU is the Small Starts program. The Small Starts program enables projects with a lesser total capital cost and smaller requested share of New Starts funds to progress through a simplified and streamlined project evaluation and data collection process. In general, though, the information used by FTA for New and Small Starts project evaluation and rating purposes should arise as a part of the normal planning process.

FTA has been collecting project evaluation information from project sponsors under the existing OMB approval for this program (OMB No. 2132-0561). However, due to modifications in project evaluation criteria for the New Starts program and the addition of the Small Starts program, it became apparent that some information required under this proposed rule might be beyond the scope of ordinary planning activities.

The proposed rule creates additional requirements for before-and-after data collection for purposes of Government Performance and Results Act reporting as a condition of obtaining a Full Funding Grant Agreement (FFGA) or a Project Construction Grant Agreement (PCGA).

Estimated Total Annual Burden: 38,760 hours.

ADDRESSES: All written comments must refer to the docket number that appears at the top of this document and be submitted to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW., Washington, DC 20503, *Attention:* FTA Desk Officer.

Comments Are Invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of
