BILLING CODE 4310-40-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[AZ-320-1610-DQ-091A]

Notice of Availability of Proposed Resource Management Plan and Final Environmental Impact Statement for the Yuma Field Office

AGENCY: Bureau of Land Management, Department of the Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969 and the Federal Land Policy and Management Act of 1976, the Bureau of Land Management (BLM) has prepared a Proposed Resource Management Plan/Final Environmental Impact Statement (PRMP/FEIS) for the Yuma Field Office.

DATES: BLM Planning Regulations (43 CFR 1610.5-2) state that any person who participated in the planning process, and has an interest that may be adversely affected, may protest the BLM's Proposed RMP. The protest must be filed within 30 days of the date that the Environmental Protection Agency publishes its notice of availability in the **Federal Register**. Instructions for filing of protests are described in the Dear Reader letter of the Yuma Field Office PRMP/FEIS and included in the **SUPPLEMENTARY INFORMATION** section of this notice.

ADDRESSES: Copies of the Yuma Field Office PRMP/FEIS have been sent to affected Federal, state, and local government agencies and to interested parties. Copies of the proposed Plan/Final EIS are available for public inspection at Yuma Field Office, 2555 Gila Ridge Road, Yuma, Arizona 85365. Interested persons may also review the proposed plan/Final EIS on the Internet at http://www.blm.gov/az/LUP/yuma/yuma_plan.htm.

FOR FURTHER INFORMATION CONTACT:

David Daniels, Bureau of Land Management, 2555 Gila Ridge Road, Yuma, Arizona 85365 or 928-317-3200.

SUPPLEMENTARY INFORMATION: The planning area encompasses more than 1.3 million acres of BLM-administered lands. The PRMP/FEIS includes strategies for protecting and preserving the biological, cultural, recreational, geological, educational, scientific, and scenic values that balance multiple uses of the BLM-administered lands throughout the Yuma Field Office planning area. Four primary issues were raised and addressed through this planning process: (1) Determining appropriate management of transportation and public access regarding off-highway use, proliferation of routes, and vehicle restrictions and/or limitations, (2) determining appropriate provisions for recreational demand and use that are compatible with natural, biological, and cultural resources on BLM-administered lands, (3) the need to manage and protect fish and wildlife habitat including threatened and endangered species including the southwestern willow flycatcher, Yuma clapper rail, razor back sucker, Mojave desert tortoise, and Sonoran pronghorn and (4) the management of BLM-administered public lands with wilderness characteristics.

The Proposed Plan attempts to accomplish the above through coordination with the Bureau of Reclamation, U.S. Fish and Wildlife Service, Arizona Department of Transportation, Arizona State Land Department, Arizona Game and Fish Department, California Department of Fish and Game, the BLM, and other land-managing agencies within the boundaries of the planning areas. The range of alternatives in this PRMP/FEIS evaluates planning decisions brought forward from current BLM planning documents; the *Yuma District Resource Management Plan* (1987), the *Lower Gila South Resource Management Plan* (1988), and the *Lower Gila North Management Framework Plan* (1983).

The Proposed Plan identifies two existing Areas of Critical Environmental Concern (ACECs): Big Marias ACEC (4,500 acres) and Gila River Cultural ACEC (3,700 acres). The Proposed Plan identifies one potential ACEC: Dripping Springs ACEC (11,700 acres). The Proposed Plan also identifies the expansion of the Gila River Cultural ACEC (28,500 acres), which would officially be renamed the Sears Point Cultural ACEC.

The following types of resource use limitations would generally apply to these ACECs: (1) Allowable uses would be limited to those which are compatible with the natural or cultural resources for which the area is designated, (2) recreation facilities would be limited to projects that protect ACEC values; (3) travel would be permitted only on designated open and signed routes. For detailed information see Chapter 2 of the Proposed Plan, Description of Alternatives, Special Designations Management.

Comments on the Draft RMP/Draft EIS received from the public and internal BLM review were incorporated into the Proposed Plan. Public comments resulted in eliminating Backcountry Byways, eliminating new OHV open areas and the addition of clarifying text, but did not significantly change proposed land use decisions.

As noted above, instructions for filing a protest with the Director of the BLM regarding the Proposed Plan/Final EIS may be found at 43 CFR 1610.5. E-mail and faxed protests will not be accepted as valid protests unless the protesting party also provides the original letter by either regular or overnight mail postmarked by the close of the protest period. Under these conditions, the BLM will consider the e-mail or faxed protest as an advance copy and it will receive full consideration. If you wish to provide the BLM with such advance notification, please direct faxed protests to the attention of the BLM protest coordinator at 202-452-5112, and e-mails to Brenda_Hudgens-Williams@blm.gov.

All protests, including the follow-up letter (if e-mailing or faxing) must be in writing and mailed to the following address: Regular Mail: Director (210), Attention: Brenda Williams, P.O. Box 66538, Washington, DC 20035. Overnight Mail: Director (210), Attention: Brenda Williams, 1620 L Street, NW., Suite 1075, Washington, DC 20036.

Before including your phone number, e-mail address, or other personal identifying information in your protest, you should be aware that your entire protest—including your personal identifying information—may be made publicly available at any time. While you can ask us in your protest to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: December 11, 2007.

Helen M. Hankins,

Arizona Associate State Director.

BILLING CODE 4310-32-P

DEPARTMENT OF THE INTERIOR

Minerals Management Service

Gulf of Mexico (GOM), Outer Continental Shelf (OCS), Central Planning Area (CPA) and Western Planning Area (WPA), Oil and Gas Lease Sales for Years 2009–2012

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of Availability (NOA) of the Draft Supplemental Environmental Impact Statement (SEIS) and Public Hearings.

SUMMARY: The MMS has prepared a draft SEIS on oil and gas lease sales tentatively scheduled in 2009–2012 in the CPA and WPA offshore the States of Texas, Louisiana, Mississippi, and Alabama. As mandated in the Gulf of Mexico Energy Security Act of 2006 (GOMESA) (Pub. L. 109–432, December 20, 2006), the MMS shall offer, as soon as practicable, approximately 5.8 million acres located in the southeastern part of the CPA (“181 South Area”). The CPA Sale 208 (March 2009) will be the first sale to include the “181 South Area.” The draft SEIS analyzed the potential environmental effects of oil and natural gas leasing, exploration, development, and production in the “181 South Area” and newly available information.

Authority: This NOA and notice of public hearings is published pursuant to the regulations (40 CFR 1503) implementing the provisions of the National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 4321 *et seq.* (1988)).

SUPPLEMENTARY INFORMATION: As mandated in GOMESA, the MMS shall offer the “181 South Area” for oil and gas leasing pursuant to the OCS Lands Act (43 U.S.C. 1331 *et seq.*). In March 2009, proposed Lease Sale 208 would be the first CPA sale to offer the “181 South Area.” The draft SEIS supplements the *Gulf of Mexico OCS Oil and Gas Lease Sales: 2007–2012; Western Planning Area Sales 204, 207, 210, 215, and 218; Central Planning Area Sales 205, 206, 208, 213, 216, and 222, Final Environmental Impact Statement (OCS EIS/EA MMS 2007–018, Multisale EIS)*. The Multisale EIS did not analyze the “181 South Area”, therefore the MMS has prepared the draft SEIS to address the addition of the

“181 South Area” to the proposed CPA sale area. Also an extensive search was conducted for new information published since completion of the Multisale EIS, including various Internet sources, scientific journals, and interviews with personnel from academic institutions, and Federal, State, and local agencies.

Based on new information and the expanded CPA sale area, the MMS has reexamined potential impacts of routine activities and accidental events associated with the proposed CPA and WPA lease sales, and a proposed lease sale’s incremental contribution to the cumulative impacts on environmental and socioeconomic resources. Like the Multisale EIS, the resource estimates and scenario information for the SEIS analyses are presented as a range that would encompass the resources and activities estimated for any of the seven proposed lease sales. At the completion of the SEIS process, a decision will be made for proposed CPA Sale 208 (2009) and WPA Sale 210 (2009).

Draft SEIS Availability: To obtain a single, printed or CD-ROM copy of the draft SEIS, you may contact the Minerals Management Service, Gulf of Mexico OCS Region, Public Information Office (Mail Stop 5034), 1201 Elmwood Park Boulevard, Room 114, New Orleans, Louisiana 70123–2394 (1–800–200–GULF). An electronic copy of the draft EIS is available at the MMS’s Internet Web site at <http://www.gomr.mms.gov/homepg/regulate/environ/nepa/nepaprocess.html>. Several libraries along the Gulf Coast have been sent copies of the draft SEIS. To find out which libraries, and their locations, have copies of the draft SEIS for review, you may contact the MMS’s Public Information Office or visit the MMS Internet Web site at <http://www.gomr.mms.gov/homepg/regulate/environ/libraries.html>.

Public Hearings: The MMS will hold public hearings to receive comments on the draft SEIS. The public hearings are scheduled as follows:

- Tuesday, May 13, 2008, Larose Civic Center, 307 East 5th Street, Larose, Louisiana, 6 p.m.
- Wednesday, May 14, 2008, Louisiana State University, Center for Energy Studies, 1077 Energy, Coast and Environment Building, Baton Rouge, Louisiana, 1 p.m.
- Thursday, May 15, 2008, Renaissance Riverview Plaza Hotel, 64 South Water Street, Mobile, Alabama, 6 p.m.

If you wish to testify at a hearing, you may register one hour prior to the meeting. Each hearing will briefly recess when all speakers have had an

opportunity to testify. If there are no additional speakers, the hearing will adjourn immediately after the recess. Written statements submitted at a hearing will be considered part of the hearing record. If you are unable to attend the hearings, you may submit written statements.

Comments: Federal, State, and local government agencies and other interested parties are requested to send their written comments on the draft SEIS in one of the following two ways:

1. In written form enclosed in an envelope labeled “Comments on the Supplemental Multisale EIS” and mailed (or hand carried) to the Regional Supervisor, Leasing and Environment (Mail Stop 5410), Minerals Management Service, Gulf of Mexico OCS Region, 1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123–2394.

2. Electronically to the MMS e-mail address: environment@mms.gov.

Comments should be submitted no later than 60 days from the publication of this NOA.

FOR FURTHER INFORMATION CONTACT: For more information on the draft SEIS or the public hearings, you may contact Dennis Chew, Minerals Management Service, Gulf of Mexico OCS Region, 1201 Elmwood Park Boulevard (Mail Stop 5412), New Orleans, Louisiana 70123–2394, or by e-mail at environment@mms.gov. You may also contact Mr. Chew by telephone at (504) 736–2793.

Dated: March 14, 2008.

Chris C. Oynes,

Associate Director for Offshore Minerals Management.
