DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

April 7, 2008.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

Rural Housing Service

Title: 7 CFR Part 1901-E, Civil Rights Compliance Requirements.

OMB Control Number: 0575-0018.

Summary of Collection: Rural Development (RD) is required to provide Federal financial assistance through its farmer, housing, and community and business programs on an equal opportunity basis. The laws implemented in 7 CFR 1901-E, require the recipients of Rural Development's Federal financial assistance to collect various types of information by race, color, and national origin.

Need and Use of the Information: RD will use the information to monitor a recipient's compliance with the civil rights laws, and to determine whether or not service and benefits are being provided to beneficiaries on an equal opportunity basis. This information is made available to USDA officials, officials of other Federal agencies and to Congress for reporting purposes. Without the required information, RD and its recipient will lack the necessary documentation to demonstrate that their programs are being administered in a nondiscriminatory manner and in full compliance with the civil rights laws.

Description of Respondents: Individuals or households; not-for-profit institutions; business or other for-profit; farms; State, Local or Tribal Government.

Number of Respondents: 20,200.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 560,651.

Charlene Parker,

Departmental Information Collection Clearance Officer.

SUPPLEMENTARY INFORMATION:

Title: Emergency Management Response System.

OMB Number: 0579-0071.

Type of Request: Revision and extension of approval of an information collection.

Abstract: The Animal and Plant Health Inspection Service (APHIS), among other things, administers regulations intended to prevent foreign diseases of livestock or poultry from being introduced into the United States, conducts surveillance for the early detection of such foreign animal diseases, and conducts eradication programs if such foreign diseases are detected.

Through our automated Emergency Management Response System (EMRS), APHIS helps manage and investigate potential incidents of foreign animal diseases in the United States.

When a potential foreign animal disease incident is reported, APHIS dispatches a foreign animal disease veterinary diagnostician to the site to conduct an investigation. The diagnostician obtains vital epidemiologic data by conducting field investigations, including sample collection, and by interviewing the owner or manager of the premises being investigated. These important data, submitted electronically by the diagnostician into EMRS, include such items as the number of sick or dead animals on the premises, the results of necropsy examinations, vaccination information on the animals in the flock or herd, biosecurity practices at the site, whether any animals were recently moved out of the herd or flock, whether any new animals were recently introduced into the herd or flock, and detailed geographic data concerning premises location.

The previous title of this collection was "Foreign Animal Disease/Emerging Disease Investigation (FAD/EDI) Database." After development and implementation of an automated system to collect animal disease related data, the collection title was changed to "Emergency Management Response

System." The Web-based system allows epidemiological and diagnostic data to be documented and transmitted more efficiently. VS form 12-27, which was used by diagnosticians to record data prior to EMRS implementation, is now obsolete.

We are asking the Office of Management (OMB) to approve our use of these information collection activities for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1 hour per response.

Respondents: Owners/managers of premises.

Estimated annual number of respondents: 660.

Estimated annual number of responses per respondent: 4.

Estimated annual number of responses: 2,640.

Estimated total annual burden on respondents: 2,640 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 7th day of April 2008.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
