

you are interested in receiving an EA for review and/or comment, please return the Mailing List Return Mailer form (appendix 2). If you do not return the Return Mailer, you will be taken off the mailing list. All individuals who provide written comments will remain on our environmental mailing list for this project.

Additional Information

Additional information about the project is available from the Commission's Office of External Affairs, at 1-866-208-FERC or on the FERC Internet Web site (<http://www.ferc.gov>) using the "eLibrary" link. Click on the eLibrary link, then on "General Search" and enter the docket number excluding the last three digits in the Docket Number field. Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to the documents. Go to www.ferc.gov/esubscribenow.htm. Any public meetings or site visits scheduled for this proposed project will be posted on the Commission's calendar located at <http://www.ferc.gov/EventCalendar/EventsList.aspx> along with other related information.

Finally, NWP has established an Internet Web site for this project at <http://www.coloradohubconnection.com/>. The Web site includes a project overview, status, and answers to frequently asked questions. You can also request additional information by calling NWP at 1-877-547-5304.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER08-731-000; Docket Nos. ER08-632-000, ER08-632-001]

DC Energy Texas, LLC; DC Energy California, LLC; Notice of Issuance of Order

April 22, 2008.

DC Energy Texas, LLC (DC Texas) and DC Energy California, LLC (DC California) filed applications for market-based rate authority, with accompanying rate schedules. The proposed market-based rate schedules provide for the sale of energy, capacity and ancillary services at market-based rates. DC Texas and DC California also requested waivers of various Commission regulations. In particular, DC Texas and DC California requested that the Commission grant blanket approval under 18 CFR Part 34 of all future issuances of securities and assumptions of liability by DC Texas and DC California.

On April 22, 2008, pursuant to delegated authority, the Director, Division of Tariffs and Market Development-West, granted the request for blanket approval under Part 34 (Director's Order). The Director's Order also stated that the Commission would publish a separate notice in the **Federal Register** establishing a period of time for the filing of protests. Accordingly, any person desiring to be heard concerning the blanket approvals of issuances of securities or assumptions of liability by DC Texas and DC California, should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. 18 CFR 385.211, 385.214 (2007). The Commission encourages the electronic submission of protests using the FERC Online link at <http://www.ferc.gov>.

Notice is hereby given that the deadline for filing protests is May 22, 2008.

Absent a request to be heard in opposition to such blanket approvals by the deadline above, DC Texas and DC California are authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of DC Texas and DC California, compatible with the public

interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approvals of DC Texas' and DC California's issuance of securities or assumptions of liability.

Copies of the full text of the Director's Order are available from the Commission's Public Reference Room, 888 First Street, NE., Washington, DC 20426. The Order may also be viewed on the Commission's Web site at <http://www.ferc.gov>, using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document.

Comments, protests, and interventions may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a) (1) (iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP08-149-000]

Columbia Gulf Transmission Company; Notice of Request Under Blanket Authorization

April 21, 2008.

Take notice that on April 15, 2008, Columbia Gulf Transmission Company (Columbia Gulf), 5151 San Felipe, Suite 2500, Houston, Texas 77056, filed in Docket No. CP08-149-00, a prior notice request pursuant to sections 157.205, 157.208, and 157.212 of the Federal Energy Regulatory Commission's regulations under the Natural Gas Act for authorization to construct and operate a new point of receipt to receive revaporized liquefied natural gas (LNG) from Kinder Morgan Louisiana Pipeline LLC (KMPLP), located in Evangeline Parish, Louisiana, all as more fully set forth in the application, which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call

toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Specifically, Columbia Gulf proposes to design and construct three 20-inch side taps and various appurtenant facilities on its existing Line Nos. 100, 200, and 300, including electronic flow measurement and telemetry, overpressure protection equipment, and approximately 300 feet of interconnecting pipeline of varying size. Columbia Gulf estimates the cost of construction to be \$980,000, with all costs associated with the facilities to be reimbursed by KMLP. Columbia Gulf states that the new point of interconnection will provide Columbia Gulf with the ability to receive up to 1,500 MMcf/d of revaporized LNG from KMLP into Columbia Gulf's natural gas pipeline system. Columbia Gulf asserts that the addition of this interconnect will have no significant impact of Columbia Gulf's peak day or annual deliveries.

Any questions regarding the application should be directed to Fredric J. George, Lead Counsel, Columbia Gulf Transmission Company, P. O. Box 1273, Charleston, West Virginia 25325-1273 at (304) 357-2359 or fax (304) 357-3206.

Any person or the Commission's Staff may, within 60 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and, pursuant to section 157.205 of the Commission's Regulations under the Natural Gas Act (NGA) (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the NGA.

The Commission strongly encourages electronic filings of comments, protests, and interventions via the internet in lieu of paper. See 18 CFR 385.2001(a) (1) (iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

GENERAL SERVICES ADMINISTRATION

DEPARTMENT OF ENERGY

National Nuclear Security Administration

[PBS-N04]

Finding of No Significant Impact; Modernization of Facilities and Infrastructure for the Non-Nuclear Production Activities Conducted at the National Nuclear Security Administration's Kansas City Plant Environmental Assessment (DOE/EA- 1592)

AGENCY: General Services Administration and National Nuclear Security Administration, Department of Energy.

ACTION: Finding of No Significant Impact.

SUMMARY: The General Services Administration (GSA) and the Department of Energy/National Nuclear Security Administration (NNSA) issue this Finding of No Significant Impact (FONSI) on their proposal to relocate certain non-nuclear component production and procurement activities to a smaller, more efficient and flexible facility. This FONSI is based on the General Services Administration/National Nuclear Security Administration "Modernization of Facilities and Infrastructure for the Non-Nuclear Production Activities Conducted at the National Nuclear Security Administration's Kansas City Plant Environmental Assessment" (EA), DOE/EA-1592, April 21, 2008. The EA was prepared pursuant to the National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. §§ 4321 *et seq.*), regulations implementing NEPA issued by the Council on Environmental Quality (40 C.F.R. Parts 1500-1508), and the NEPA implementing procedures of GSA (ADM 1095.1F) and the Department of Energy (10 C.F.R. Part 1021).

The selected alternative is for GSA to procure the construction of a new facility at the intersection of Botts Road and Missouri Highway 150 in Kansas City, Missouri. GSA would lease the facility on NNSA's behalf, and NNSA would move its operations from the Bannister Federal Complex to the new facility, and conduct production and procurement operations for electrical and mechanical non-nuclear components there (the phrase "electrical and mechanical" non-nuclear components, as used in the EA and this FONSI, also includes electronics,

electromechanical parts, and engineered materials such as plastics, ceramics, glass, polymers and foams). The NNSA's Kansas City Plant (KCP) performs these activities for NNSA, Department of Energy (DOE) programs, and other federal agencies ("work for others").

FOR FURTHER INFORMATION CONTACT:

Further information, including an electronic copy of the EA, FONSI, Mitigation Action Plan, and other supporting NEPA documents, will be made available on the following Web site: <http://www.gsa.gov/kansascityplant>. The EA and FONSI will also be made available at: <http://eh.doe.gov/nepa>.

Requests for copies of the EA and FONSI may be sent to: Carlos Salazar, General Services Administration, 1500 East Bannister Road, Room 2191 (6PTA), Kansas City, MO 64131. Requests for copies of the EA and FONSI may also be made by calling (816) 823-2305 or via e-mail to NNSA—KC@gsa.gov.

SUPPLEMENTARY INFORMATION: The GSA and NNSA issued a Notice of Intent (NOI) on May 1, 2007 in the **Federal Register** (Vol. 72, No 83, page 23822) informing the public of the proposed action and inviting public comments on the scope of the EA. The NOI also stated that a public scoping meeting would be held in Kansas City, on May 23, 2007. A total of 97 people signed in at the public meeting. Fourteen written comments were submitted and 24 speakers provided comments that were transcribed for the record. Everyone who requested to speak was provided the opportunity to do so. Additional public comments were received by mail and email during the scoping period, which ended on May 30, 2007. Approximately 500 people provided comments during the public scoping process. All comments were considered during the preparation of the draft EA. A copy of the transcript from the scoping meeting is available on the GSA website by following the "NEPA library" link (www.gsa.gov/kansascityplant).

On December 10, 2007, the GSA and NNSA issued a Notice of Availability (NOA) of the draft EA in the **Federal Register** (Vol. 72, No 236, page 69690) informing the public that the draft EA was available for review and comment. The NOA stated that the deadline for submission of public comments was January 14, 2008. An electronic copy of the draft EA and other supporting documents were posted on the GSA website. An electronic copy of the draft EA was also posted on the DOE website.
