

Cash-Deposit Requirements

As provided by section 751(a)(1) of the Tariff Act of 1930, as amended, and as stipulated in the Agreement with regard to the settlement of the second administrative review, the cash-deposit rate for all shipments of Canadian wire rod produced and exported by Mittal entered, or withdrawn from warehouse, for consumption on or after May 21, 2008, 2008, shall be 3.86% *ad valorem*. The deposit requirements shall remain in effect until further notice.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Tariff Act of 1930, as amended.

Dated: May 15, 2008.

David M. Spooner,

Assistant Secretary for Import Administration.

[Docket Number: 080513661-8662-01]

The Draft Report of the NOAA Science Advisory Board Working Group To Examine Advisory Options for Improving Communications Among NOAA's Partners

AGENCY: Office of Oceanic and Atmospheric Research (OAR), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice of availability and request for public comment.

SUMMARY: NOAA Research (OAR) publishes this notice on behalf of the NOAA Science Advisory Board (SAB) to announce the availability for public comment of the draft report of the SAB Working Group to Examine Advisory Options for Improving Communications among NOAA's Partners (here called the Partnerships Working Group).

DATES: Comments on this preliminary report must be received by 5 p.m. EDT June 20, 2008.

ADDRESSES: The Draft Report of the Working Group will be available on the NOAA Science Advisory Board Web site at <http://www.sab.noaa.gov/Reports/>.

The public is encouraged to submit comments electronically to noaa.sab.comments2@noaa.gov. For individuals who do not have access to the Internet, comments may be submitted in writing to: NOAA Science Advisory Board (SAB) c/o Dr. Cynthia

Decker, 1315 East-West Highway-R/SAB, Silver Spring, Maryland 20910.

FOR FURTHER INFORMATION CONTACT: Dr. Cynthia Decker, Executive Director, Science Advisory Board, NOAA, 1315 East-West Highway-R/SAB, Silver Spring, Maryland 20910. (Phone: 301-734-1156, Fax: 301-734-1459, E-mail: Cynthia.Decker@noaa.gov) during normal business hours of 9 a.m. to 5 p.m. Eastern Time, Monday through Friday, or visit the NOAA SAB Web site at <http://www.sab.noaa.gov>.

SUPPLEMENTARY INFORMATION: The preliminary report of the Partnerships Working Group has been drafted pursuant to the request initiated by the NOAA Science Advisory Board and approved by the Under Secretary of Commerce for Oceans and Atmosphere, to examine advisory options for improving communications among the various public, private, and academic entities engaged in environmental information matters. The Terms of Reference for the Working Group can be found on the SAB Web site at http://www.sab.noaa.gov/Working_Groups/current/partnerships/PWG_terms.pdf.

This report was prepared in response to the charge to the working group to examine advisory options including: Expanded use of existing NOAA Federal Advisory Committee Act (FACA) committees and/or the National Research Council; changing the structure and/or re-chartering the existing NOAA FACA committees, including the SAB, into new FACA committees or some combinations of approaches. With input from the appropriate offices in NOAA and the Department of Commerce, the PWG members debated the various options available, ranging from ad hoc meetings at various venues on an irregular basis to establishment of a formal federal advisory committee to NOAA. The group considered the strengths and weaknesses of all these options but agreed that NOAA should create a formal and clear mechanism to ensure that a wide variety of external stakeholders can provide advice and receive feedback from the agency. The PWG recommended that NOAA use a combination of approaches, starting with establishment of a Working Group under the Science Advisory Board to immediately address concerns from the external weather community, assess the success of this approach after 1-2 years, and consider at that time whether to establish a separate federal advisory committee with a mandate for the broader environmental services enterprise. The terms of reference for the proposed standing Working Group

are included in the appendix of the report.

The Working Group will consider public comments on the draft report and incorporate them, as appropriate, in the final report to be delivered to the SAB.

The SAB is chartered under the Federal Advisory Committee Act and is the only Federal Advisory Committee with the responsibility to advise the Under Secretary on long- and short-term strategies for research, education, and application of science to resource management and environmental assessment and prediction.

The SAB welcomes all comments on the content of the preliminary report. We also request comments on any inconsistencies perceived within the report, and possible omissions of important topics or issues. This draft report is being issued for comment only and is not intended for interim use. For any shortcoming noted within the preliminary report, please propose specific remedies. Suggested changes will be incorporated where appropriate, and a final report will be posted on the SAB Web site.

Please follow these instructions for preparing and submitting comments. Using the format guidance described below will facilitate the processing of comments and assure that all comments are appropriately considered. Overview comments should be provided first and should be numbered. Comments that are specific to particular pages, paragraphs or lines of the section should follow any overview comments and should identify the page and line numbers to which they apply. Please number each page of your comments.

Dated: May 14, 2008.

Mark E. Brown,

Chief Financial Officer, Office of Oceanic and Atmospheric Research, National Oceanic and Atmospheric Administration.

RIN 0648-XH98

Endangered and Threatened Species; Initiation of a 5-Year Review of the Endangered U.S. Distinct Population Segment (DPS) of Smalltooth Sawfish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of initiation of a 5-year review; request for information.

SUMMARY: We, the National Marine Fisheries Service (NMFS), announce a 5-year review of the U.S. DPS of Smalltooth Sawfish (*Pristis pectinata*) under the Endangered Species Act of 1973 (ESA). A 5-year review is a periodic process conducted to ensure that the listing classification of a species is accurate. A 5-year review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any such information on the smalltooth sawfish that has become available since its original listing as an endangered species on April 1, 2003. Based on the results of this 5-year review, we will make the requisite findings under the ESA.

DATES: To allow us adequate time to conduct this review, we must receive your information no later than July 21, 2008. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: Please submit information to Shelley Norton, National Marine Fisheries Service, 263 13th Avenue South, St. Petersburg, FL 33701. Information received in response to this notice and review will be available for public inspection, by appointment, during normal business hours, at the above address. Information may also be submitted by e-mail to: shelley.norton@noaa.gov. Include in the subject line of the e-mail the following identifier: Smalltooth sawfish information for 5-year review. Information may also be submitted via facsimile (fax) to 727-824-5309.

FOR FURTHER INFORMATION CONTACT: Shelley Norton at the above address, or at 727-824-5312.

SUPPLEMENTARY INFORMATION: Under the ESA, a list of endangered and threatened wildlife and plant species must be maintained. The list is published at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2)(A) of the ESA requires that we conduct a review of listed species at least once every five years. On the basis of such reviews under section 4(c)(2)(B), we determine whether or not any species should be removed from the List (delisted), or reclassified from endangered to threatened or from threatened to endangered. Delisting a species must be supported by the best scientific and commercial data available and only considered if such data substantiates that the species is neither endangered nor threatened for one or more of the following reasons: (1) the

species is considered extinct; (2) the species is considered to be recovered; and/or (3) the original data available when the species was listed, or the interpretation of such data, were in error. Any change in Federal classification would require a separate rulemaking process. The regulations in 50 CFR 424.21 require that we publish a notice in the Federal Register announcing those species currently under active review. This notice announces our active review of the smalltooth sawfish, currently listed as endangered.

Public Solicitation of New Information

To ensure that the 5-year review is complete and based on the best available scientific and commercial data available, we are soliciting new information from the public, concerned governmental agencies, Tribes, the scientific community, industry, environmental entities, and any other interested parties concerning the status of the smalltooth sawfish.

The 5-year review considers the best scientific and commercial data available and all new information that has become available since the listing determination or most recent status review. Categories of requested information include: (A) species biology including, but not limited to, population trends, distribution, abundance, demographics, and genetics; (B) habitat conditions including, but not limited to, amount, distribution, and suitability; (C) conservation measures that have been implemented that benefit the species; (D) status and trends of threats; and (E) other new information, data, or corrections including, but not limited to, taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

If you wish to provide information for this 5-year review, you may submit your information and materials to Shelley Norton (see **ADDRESSES** section). Our practice is to make submissions of information, including names and home addresses of respondents, available for public review during regular business hours. Respondents may request that we withhold a respondent's identity as allowable by law. If you wish us to withhold your name or address, you must state this request prominently at the beginning of your submission. We will not, however, consider anonymous submissions. To the extent consistent with applicable law, we will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of

organizations or businesses, available for public inspection in their entirety. Information and materials received will be available for public inspection, by appointment, during normal business hours (see **ADDRESSES** section).

Authority: 16 U.S.C. 1531 et seq.

Dated: May 16, 2008.

Angela Somma,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper and Grouper Off the Southern Atlantic States

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of an application for an exempted fishing permit; request for comments.

SUMMARY: NMFS announces the receipt of an application for an exempted fishing permit (EFP) from the Gulf and South Atlantic Fisheries Foundation, Inc.. If granted, the EFP would authorize the applicants, with certain conditions, to collect limited numbers of undersized and out-of-season snapper and grouper in South Atlantic Federal waters. This study is intended to characterize catch and discard mortality within the South Atlantic commercial hook and line snapper-grouper fishery.

DATES: Comments must be received no later than 5 p.m., eastern time, on June 20, 2008.

ADDRESSES: You may submit comments on the application by any of the following methods:

- E-mail: Steve.Branstetter@noaa.gov. Include in the subject line of the e-mail comment the following document identifier: "FND_EFP".
- Mail: Steve Branstetter, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.
- Fax: 727-824-5308.

The application and related documents are available for review upon written request to any of the above addresses.

FOR FURTHER INFORMATION CONTACT: Steve Branstetter, 727-824-5305; fax:
