Background

TSO-C 135 is being revised to remove an installation criterion that is not appropriate at the article level. (Appendix 1 Para. 3.2.2.2., the last sentence.) The revision also adds Appendix 2 to the proposed TSO-C135a's MPS for transport airplane wheel and brake assemblies with electrically actuated brakes. The aforementioned MPS defines the standards for wheel and brake assemblies to be used on airplanes certified under 14 CFR part 25. These standards were defined by the FAA, adopted in SAE Aerospace Standard (AS) 5663, Minimum Performance Requirements for Transport Airplane Wheel and Brake Assemblies Using Electric Power Actuation dated January 2007. Note that compliance with this specification is not considered approval for installation on any transport airplane.

How To Obtain Copies

You can view or download the proposed TSO from its online location at: <http://www.airweb.faa.gov/rgl>. At this Web page, select "Technical Standard Orders." At the TSO page, select "Proposed TSOs." For a paper copy, contact the person listed in **FOR FURTHER INFORMATION CONTACT** paragraph.
