

State participating in the project should submit the project in their State plan indicating which State is taking the coordinating role and the percent of the budget covered by each State.

Each State department of agriculture that submits an application that is reviewed and approved by AMS is to receive \$100,000 to enhance the competitiveness of specialty crops. In addition, AMS will allocate the remainder of the grant funds based on the proportion of the value of specialty crop production in the state in relation to the national value of specialty crop production using the latest available (2006 National Agricultural Statistics Service (NASS) cash receipt data for the 50 States and the Commonwealth of Puerto Rico, 2002 Census of Agriculture for Guam, the U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands, and 2003 Census of Agriculture for American Samoa) specialty crop production data in all states whose applications are accepted.

The amount of the base grant plus value of production available to each State department of agriculture shall be:

- (1) Alabama—\$125,779.00
- (2) Alaska—\$101,521.00
- (3) American Samoa—\$103,471.00

- (55) Wisconsin—\$161,035.00
- (56) Wyoming—\$101,755.00

Funds not obligated will be allocated pro rata to the remaining States which applied during the specified grant application period to be solely expended on projects previously approved in their State plan. In such event, a revised application shall be submitted, by a date before the end of the fiscal year, September 30, 2008, determined by AMS, showing how the additional funds will be utilized to enhance the competitiveness of specialty crops.

Applicants submitting hard copy applications should submit one copy of the application package. The SF-424 must be signed (with an original signature) by an official who has authority to apply for Federal assistance. Hard copy applications should be sent only via express mail to AMS at the address noted at the beginning of this notice because USPS mail sent to Washington DC headquarters is sanitized, resulting in possible delays, loss, and physical damage to enclosures. AMS will send an e-mail confirmation when applications arrive at the AMS office.

Applicants who submit hard copy applications are also encouraged to submit electronic versions of their application directly to AMS via e-mail addressed to schlockgrants@usda.gov in one of the following formats: Word (*.doc); or Adobe Acrobat (*.pdf). Alternatively, a standard 3.5 " HD diskette or a CD may be enclosed with the hard copy application.

Applicants also have the option of submitting SCBGP-FB applications electronically through the central Federal grants Web site, <http://www.grants.gov> instead of mailing hard copy documents. Applicants considering the electronic application option are strongly urged to familiarize themselves with the Federal grants Web site and begin the application process well before the application deadline.

SCBGP-FB is listed in the "Catalog of Federal Domestic Assistance" under number 10.170 and subject agencies must adhere to Title VI of the Civil Rights Act of 1964, which bars discrimination in all federally assisted programs.

Schreier, Assistant Director, Preclearance Programs, PPQ, APHIS, 4700 River Road Unit 60, Riverdale, MD 20737; (301) 734-8259. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION:

Title: Importation of Clementines From Spain.

OMB Number: 0579-0203.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests, including fruit flies, into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in "Subpart-Fruits and Vegetables" (7 CFR 319.56 through 319.56-47).

Under these regulations, clementines from Spain are subject to certain conditions before entering the United States to ensure that exotic plant pests, such as the Mediterranean fruit fly, are not introduced into the United States. The regulations require the use of information collection activities including a trust fund agreement, grower registration and agreement, a Mediterranean fruit fly management program, fruit fly trapping and control activities, recordkeeping, a phytosanitary certificate, and box labeling.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper

performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.0008904 hours per response.

Respondents: National plant health officials of Spain, and growers and shippers of clementines.

Estimated annual number of respondents: 4,508.

Estimated annual number of responses per respondent: 3,469.3234.

Estimated annual number of responses: 15,639,710.

Estimated total annual burden on respondents: 13,927 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 24th day of July 2008.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
