SUPPLEMENTARY INFORMATION:

Title: 30 CFR Parts 202, 206, and 207, Indian Oil and Gas Valuation.

OMB Control Number: 1010-0103.

Bureau Form Number: Forms MMS-4109, MMS-4110, MMS-4295, MMS-4410, and MMS-4411.

Abstract: The Secretary of the U.S. Department of the Interior (Secretary) is responsible for matters relevant to mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). Under the Mineral Leasing Act (30 U.S.C. 1923), the Indian Mineral Development Act of 1982 (25 U.S.C. 2103), and the Outer Continental Shelf Lands Act (43 U.S.C. 1353), the Secretary is responsible for (1) Managing the production of minerals from Federal and Indian lands and the OCS; (2) collecting royalties and other mineral revenues from lessees who produce minerals; and (3) distributing the funds collected in accordance with applicable laws. The Secretary also has a trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. The MMS performs the minerals revenue management functions and assists the Secretary in carrying out the Department's trust responsibility for Indian lands. Applicable laws pertaining to mineral royalties are located on our Web site at http://www.mrm.mms.gov/Laws_R_D/PublicLawsAMR.htm.

Regulations at 30 CFR part 202, subparts C and J, pertain to royalties; part 206, subparts B and E, govern the valuation of oil and gas produced from leases on Indian lands; and part 207 pertains to recordkeeping. Indian tribes and individual Indian mineral owners receive all royalties generated from their lands. Determining product valuation is essential to ensure that Indian tribes and individual Indian mineral owners receive payment on the full value of the minerals removed from their lands. Failure to collect the data described in this information collection could result in the undervaluation of leased minerals on Indian lands. All data reported is subject to subsequent audit and adjustment.

Indian Oil

The regulations apply to all oil production from Indian oil and gas leases, except leases on the Osage Indian Reservation. The regulations provide that lessees determine the value of oil based on the higher of: (1) The gross proceeds under an arm's-length contract, or (2) major portion analysis. These oil valuation methods are eligible for applicable transportation allowances. From information collected

on Form MMS-4110, Oil Transportation Allowance Report, MMS verifies transportation allowances during the product valuation verification to determine if the lessee reported and paid the proper royalty amount. The MMS and tribal personnel evaluate whether the transportation allowances reported and claimed by lessees are within regulatory allowance limitations.

Indian Gas

The regulations apply to all gas production from Indian oil and gas leases, except leases on the Osage Indian Reservation. Most Indian leases contain the requirement to perform accounting for comparison (dual accounting) for gas produced from the lease. Lessees must elect to perform actual dual accounting as defined in 30 CFR 206.176 or alternative dual accounting as defined in 30 CFR 206.173. Lessees use Form MMS-4410, Accounting for Comparison [Dual Accounting], to certify that dual accounting is not required on an Indian lease or to make an election for actual or alternative dual accounting for Indian leases.

The regulations require lessees to submit Form MMS-4411, Safety Net Report, when gas production from an Indian oil or gas lease is sold beyond the first index pricing point. The safety net calculation establishes the minimum value, for royalty purposes, of natural gas production from Indian oil and gas

leases. This reporting requirement ensures that Indian lessors receive all royalties due and aids MMS compliance efforts.

The MMS and tribal personnel use the information collected on Form MMS-4295, Gas Transportation Allowance Report, to evaluate whether transportation allowances reported under a non-arm's-length contract or no contract are reasonable, and actual costs are within regulatory allowance limitations.

The MMS and tribal personnel use the information collected on Form MMS-4109, Gas Processing Allowance Summary Report, to evaluate whether processing allowances reported under a non-arm's-length contract or no contract are reasonable, and actual costs are within regulatory allowance limitations.

Indian Oil and Gas

Form MMS-4393, Request to Exceed Regulatory Allowance Limitation, is used for both Federal and Indian leases. Most of the burden hours are incurred on Federal leases; therefore, the form is approved under ICR 1010-0136, pertaining to Federal oil and gas leases. However, we include a discussion of the form in this ICR, as well as the burden hours for Indian leases. To request permission to exceed a regulatory allowance limit, lessees must submit a letter to MMS explaining why a higher allowance limit is necessary and provide supporting documentation, including a completed Form MMS-

4393. This form provides MMS with the data necessary to make a decision whether to approve or deny the request and track deductions on royalty reports.

Summary

The MMS is requesting OMB's approval to continue to collect this information. Not collecting this information would limit the Secretary's ability to discharge his/her duties and may also result in loss of royalty payments to Indian tribes and individual Indian mineral owners. Proprietary information submitted to MMS under this collection is protected, and no items of a sensitive nature are collected. The requirement to respond is mandatory for Form MMS-4411, Safety Net Report, when certain circumstances exist. For all other forms in this collection, the requirement to respond is voluntary; i.e., a response is required to obtain a benefit.

Frequency of Response: Annually and on occasion.

Estimated Number and Description of Respondents: 302 Indian lessees.

Estimated Annual Reporting and Recordkeeping "Hour" Burden: 1,074 hours.

We have not included in our estimates certain requirements performed in the normal course of business and considered usual and customary. The following chart shows the estimated burden hours by CFR section and paragraph:

Estimated Annual Reporting and Recordkeeping “Non-hour” Cost Burden: We have identified no “non-hour” cost burdens.

Public Disclosure Statement: The PRA (44 U.S.C. 3501 *et seq.*) provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Comments: Before submitting an ICR to OMB, PRA Section 3506(c)(2)(A) requires each agency “* * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed

collection of information * * *.”

Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

The PRA also requires agencies to estimate the total annual reporting “non-hour cost” burden to respondents or recordkeepers resulting from the collection of information. If you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs.

Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information; monitoring, sampling, and testing equipment; and record storage facilities. Generally, your estimates should not include equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our ICR submission for OMB approval, including appropriate adjustments to the estimated burden. We will provide a copy of the ICR to you without charge upon request. The ICR also will be posted at http://www.mrm.mms.gov/Laws_R_D/FRNotices/FRInfColl.htm.

Public Comment Policy: We will post all comments in response to this notice at http://www.mrm.mms.gov/Laws_R_D/FRNotices/FRInfColl.htm. We also will make copies of the comments available for public view, including names and addresses of respondents, during regular business hours at our offices in Lakewood, Colorado. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold from public view your personal identifying information, we cannot guarantee that we will be able to do so.

DEPARTMENT OF THE INTERIOR

Minerals Management Service

Request for Comments on the Preparation of a 5-Year Outer Continental Shelf (OCS) Oil and Gas Leasing Program

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Request for Comments.

SUMMARY: Section 18 of the OCS Lands Act (43 U.S.C. 1344) requires the Department of the Interior to solicit information from interested and affected parties during the preparation of a 5-year OCS oil and gas leasing program. The current 5-year program covers the period July 2007 to June 30, 2012. The Department's MMS is soliciting information on whether to begin a new Program for mid-2010 to mid-2015 (approximate dates) to succeed the current one.

Section 18 requires completion of a multi-step process of public consultation and analysis before the Secretary of the Interior may approve a new 5-Year Program. The section 18 process includes the following required steps: This initial solicitation of comments; development of a draft proposed program, a proposed program, a proposed final program; and Secretarial approval. If the decision is made to prepare a new 5-Year Program, the MMS will also prepare appropriate NEPA analysis documents. The public will have opportunities to comment on the draft proposed program, the draft EIS or other NEPA documents, and the proposed program. This Notice in particular requests comments on areas that are restricted from leasing by Congressional Moratoria but were removed from Presidential Withdrawal on July 14, 2008.

DATES: The MMS must receive all comments and information by September 15, 2008.

Public Comment Procedure

The MMS will accept comments in one of two formats: By mail or our Internet commenting system. Please submit your comments using only one of these formats, and include full names and addresses. Comments submitted by other means may not be considered. We will not consider anonymous comments, and we will make available for inspection in their entirety all comments submitted by organizations and businesses, or by individuals identifying themselves as representatives of organizations and businesses.

Our practice is to make comments, including the names and home addresses of respondents, available for public review. An individual commenter may ask that we withhold from the public record, his or her name, home address, or both, and we will honor such a request to the extent allowable by law. If you submit comments and desire that we withhold such information, you must so state prominently at the beginning of your submission.

ADDRESSES: Mail comments and information on the program to: Ms. Renee Orr, 5-Year Program Manager, Minerals Management Service (MS-4010), 381 Elden Street, Herndon, Virginia 20170. Environmental comments and information relevant to oil and gas development on the OCS should be sent to: Mr. James F. Bennett, Chief, Branch of Environmental Assessment, Minerals Management Service (MS-4042), 381 Elden Street, Herndon, Virginia 20170. If you submit any privileged or proprietary information to be treated as confidential, please mark the envelope, "Contains Confidential Information".

Internet: The MMS will accept comments submitted to our electronic public comment system. (Public Connect). This system can be accessed at <http://www.mms.gov>. We also will provide access to information concerning the 5-Year Program at the MMS Internet Web site (<http://www.mms.gov>) and copies or summaries of comments we receive in response to this notice will be available in the MMS Public Connect database.

FOR FURTHER INFORMATION CONTACT: Ms. Renee Orr, 5-Year Program Manager, at (703) 787-1215.

SUPPLEMENTARY INFORMATION: The MMS requests comments from states; local and tribal governments; American Indian and Native Alaskan organizations; Federal agencies; environmental and fish and wildlife organizations; the oil and gas industry; other interested organizations; and other parties on whether to begin the preparation of a new 5-Year Program. MMS is seeking a wide range of information, including marine productivity, environmental sensitivity and resource assessment. The 5-Year Program enables the Federal Government, states, industry, and other interested parties to plan for steps proposed to lead to OCS oil and gas lease sales. The Department will make a decision on whether to proceed with a specific lease sale on the schedule, only after meeting all of the applicable requirements of the OCS Lands Act, the National Environmental Policy Act (NEPA), and other statutes.

The OCS is a significant source of oil and gas for the Nation's energy supply. On a per day basis, the OCS currently produces about 1.35 million barrels of oil and almost 8 billion cubic feet of natural gas. This represents approximately 27 percent of domestic oil production and 15 percent of natural gas production.

The MMS's oversight and regulatory frameworks ensure production and
