Federal Register

Vol. 73, No. 156

Tuesday, August 12, 2008

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Natural Resources Conservation Service

Environmental Assessment; Rehabilitation of Grade Stabilization Structure W-3, Papillion Creek Watershed, Washington County, NE

AGENCY: Natural Resources Conservation Service, USDA.

ACTION: Notice of Availability, Finding of No Significant Impact.

SUMMARY: The Natural Resources Conservation Service (NRCS) has prepared an Environmental Assessment in compliance with the National Environmental Policy Act (NEPA), as amended. Pursuant to the implementing regulations for NEPA (40 CFR parts 1500-1508); the USDA Departmental Policy for the NEPA (7 CFR part 1b); the Natural Resources Conservation Service Regulations (7 CFR part 650); and the Natural Resources Conservation Service policy (General Manual Title 190, Part 410); the Natural Resources Conservation Service gives notice that an environmental impact statement is not being prepared for the rehabilitation of grade stabilization Structure W3 in Papillion Creek Watershed, Washington County, Nebraska. The Environmental Assessment was developed in coordination with the sponsoring local organization (Papio-Missouri River Natural Resources District) for a federally assisted action to address grade stabilization and incidental flood control prevention in the Papillion Creek Watershed and the status of grade stabilization Structure W-3. Upon consideration of the affected environment, alternatives, environmental consequences, and comments and coordination with concerned public and agencies, the State Conservationist for NRCS, Nebraska found that based on the significance and context and intensity

that the proposed action is not a major federal action significantly affecting the quality of the human environment. Thus, a Finding of No Significant Impact (FONSI) was made.

FOR FURTHER INFORMATION CONTACT: Stephen K. Chick, State Conservationist, U.S. Department of Agriculture, Natural Resources Conservation Service, Federal Building, Room 152, 100 Centennial Mall North, Lincoln, Nebraska 68508-3866; telephone (402) 437-5300.

SUPPLEMENTARY INFORMATION: The sponsoring local organization concurs with this determination and agrees with carrying forward the proposed project. Structure W-3 does not meet NRCS safety and performance standards for a High Hazard Class structure. The proposed action is to rehabilitate Structure W-3 to current NRCS High Hazard Class requirements and extend its life for 90 years. The following actions are proposed: The existing principal spillway would be removed and replaced, the auxiliary spillway would be raised and an additional auxiliary spillway would be constructed, and the top of dam would be raised to increase storage capacity.

Information regarding this finding may be obtained at the contact information listed above. No administrative action on implementation of the proposed funding action will be taken until 30 days after the date of this publication in the **Federal Register**.

Signed in Lincoln, Nebraska on July 17, 2008.

Stephen K. Chick,

State Conservationist.

BILLING CODE 3410-16-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Marine Mammal Health and Stranding Response Program Survey for Stranding Network Participants.

OMB Control Number: None.

Form Number(s): None.

Type of Request: Regular submission.

Burden Hours: 294.

Number of Respondents: 294.

Average Hours per Response: 1.

Needs and Uses: The National Marine Fisheries Service's (NMFS) Marine Mammal Health and Stranding Response Program will conduct program evaluations of the six NMFS regional stranding networks: Northeast, Southeast, Southwest, Northwest, Alaska, and Pacific Islands Regions. A survey will be used to gather data from a cross-section of stranding network participants in each region. The data will be collected regarding performance, organizational structure, objectives, and needs of the program. The information will be used to prioritize and discuss issues of concern and assist with future program management and planning.

Affected Public: Not-for-profit institutions.

Frequency: One-time only.

Respondent's Obligation: Voluntary.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, FAX number (202) 395-7285, or David_Rostker@omb.eop.gov.

Dated: August 7, 2008.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.
