SUPPLEMENTARY INFORMATION: The Interior Uniform Relocation Assistance Program Records system will contain

information from individuals and businesses displaced as a result of Federal real estate acquisition for the purpose of determining the amount of their relocation benefit. The system will contain information about the individual claimant, residential moving costs, replacement housing payments, down payments and incidental expenses for residential relocations; and information about business claimants, nonresidential moving costs, nonresidential direct loss of personal property; and relocation and reestablishment expenses for nonresidential relocations. For residential relocations, the information collected will include the name, social security number, address, and phone number of the claimant, occupancy status, dwelling type, number of rooms, names, gender, relationship and age of all household members, relocated address and date of relocation, replacement housing or rental payments including moving cost, storage costs,

and advance payments received, average household monthly income, incidental expenses including legal and closing costs, title search fee, notary fee, recording and surveying fees, transfer taxes, home inspection fee, and computation of relocation benefit. For nonresidential relocations, the information collected will include the name, social security number or tax identification number, address and phone number of the claimant, the type of business, type of ownership, citizenship status, dates of business operation, replacement business address, moving, storage and search expenses, direct loss of personal property as a result of the move or discontinuing the business, reestablishment expenses, and computation of relocation benefit. Collection of data will be by claim for relocation payment application forms submitted by a displaced person or business. This new system of records notice will be effective as proposed at the end of the comment period unless comments are received which would require a contrary determination. The Department will publish a revised notice if changes are made based upon a review of comments received.

(1) *Physical Security:* Paper records are maintained in locked file cabinets and/or in secured rooms in Federal government offices with appropriate security measures meeting Departmental guidelines. Electronic ancillary records are on secure servers with appropriate firewalls, passwords, and IT security complying with Departmental policies and procedures.

(2) *Technical Security:* Ancillary electronic records are maintained in conformity with Office of Management and Budget and Departmental guidelines reflecting the implementation of the Federal Information Security Management Act. Electronic data is protected through user identification, passwords, database permissions and software controls. These security measures establish different degrees of access for different types of users. An audit trail is maintained and reviewed periodically to identify unauthorized access.

(3) *Administrative Security:* All DOI and contractor employees with access to Interior Uniform Relocation Assistance Program Records are required to complete Privacy Act, Federal Records Act, and Security Awareness training prior to being given access to the system, and on an annual basis, thereafter.
