Child-Specific Exposure Factors Handbook

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: EPA is announcing the availability of a final report titled, "Child-Specific Exposure Factors Handbook" (EPA/600/R-06/096F), which was prepared by the National Center for Environmental Assessment (NCEA) within EPA's Office of Research and Development (ORD). This report updates a 2002 interim final version of the handbook. It provides updated information on various physiological and behavioral factors used in assessing children's exposure to environmental contaminants. These factors include: Water ingestion; soil ingestion and non-dietary factors; inhalation rates; dermal factors including skin surface area and soil adherence factors; consumption of retail and home-grown foods; breast milk intake; body weight; activity pattern data; and consumer product use. This updated version also provides analysis of exposure factors data using the age groups for children as recommended in the 2005 EPA Risk Assessment Forum report document titled, "Guidance on Selecting Age Groups for Monitoring and Assessing Childhood Exposures to Environmental Contaminants" (71 FR 6775, February 9, 2006).

Clean Air Act Operating Permit Program; Decision on Reconsideration of Petition to Object to Title V Permit for Reliant Portland Generating Station, Upper Mount Bethel Township, Northampton County, PA

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of action denying reconsideration of final order on petition to object to state operating permit.

SUMMARY: Pursuant to the Clean Air Act (CAA), the EPA Administrator signed an order, dated June 20, 2007, denying a petition to object to a state operating permit proposed to be issued by the Pennsylvania Department of Environmental Protection (PADEP) to Reliant Energy Mid-Atlantic Power Holdings, LLC, for its Portland Generating Station in Northampton County, Pennsylvania. On September 24, 2008, the Administrator signed a letter denying the request of the petitioner, the New Jersey Department of Environmental Protection (NJDEP), that EPA reconsider the June 20, 2007 Order.

(3AP11), telephone (215) 814-2173; e-mail anderson.kathleen@epa.gov.

SUPPLEMENTARY INFORMATION:

I. How Can I Get Copies of This Document and Other Related Information?

Copies of the final order, the petition, the NJDEP letter seeking reconsideration, the Administrator's letter denying the reconsideration, and all pertinent information relating thereto are on file at the following location: Environmental Protection Agency, Region III, Air Protection Division (APD), 1650 Arch St., Philadelphia, Pennsylvania 19103. The Administrator's letter is also available electronically at the following Web site: <http://www.epa.gov/region07/programs/artd/air/title5/petitiondb/petitiondb.htm>.

II. Background

The Clean Air Act affords EPA a 45-day period to review and object to, as appropriate, operating permits proposed by state permitting authorities. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator within 60 days after the expiration of this review period to object to a state operating permit if EPA has not done so. EPA received a petition from the NJDEP, dated July 21, 2006, requesting that EPA object to the issuance of the proposed title V permit for the Reliant Portland Generating Station. By Order dated June 20, 2007, the Administrator responded by denying NJDEP's petition. On September 14, 2007, the Attorney General of New Jersey, on behalf of NJDEP, simultaneously filed an appeal of the Administrator's Order in the United States Court of Appeals for the Third Circuit and sent a letter to EPA seeking reconsideration of the Administrator's Order. The Court of Appeals stayed the appeal until September 26, 2008, to allow EPA an opportunity to respond to the motion for reconsideration of the Order. By letter dated September 24, 2008, the Administrator responded by denying reconsideration. The letter explains the reasons for denying NJDEP's request for reconsideration.

III. Judicial Review

Section 307(b)(1) of the Clean Air Act indicates which Federal Courts of Appeals have venue for petitions for review of final actions by EPA. For final actions which are not nationally applicable, Section 307(b)(1) provides that appeals shall be filed in the United States Court of Appeals for the appropriate circuit. The denial of New
