Forest Service

Clearwater National Forest; Idaho; Upper Lochsa Land Exchange EIS

AGENCY: Forest Service, USDA.

ACTION: Notice of Intent to Prepare an Environmental Impact Statement.

SUMMARY: In April 2006 the Forest Service received a proposal from Western Pacific Timber LLC (WPT) in which a major exchange of land was proposed. The WPT proposal included approximately 40,000 acres of checkerboard land intermingled with the Clearwater National Forest near Powell, Idaho. These checkerboard lands are of interest to the Forest Service because they encompass the headwaters of the Lochsa River and hold outstanding values for many fish and wildlife species. The checkerboard lands also hold significant cultural resources including the Lewis and Clark National Historic Trail and Nez Perce Tribe treaty area.

In September 2008 the Clearwater National Forest completed a feasibility analysis of the proposed exchange as a first level screen to review forest management plans, identify public benefit, identify availability of resources to complete the proposed exchange, identify title and property descriptions and identify potential support and opposition. The outcome of the feasibility analysis was a recommendation to enter into an Agreement to Initiate a land exchange with WPT. The agreement, signed by both parties in September, specifies the roles and responsibilities of each party involved in the exchange.

In the proposed land exchange the Forest Service would acquire approximately 39,371 acres of land in the upper Lochsa River drainage in exchange for up to approximately 28,212 acres of National Forest System (NFS) land. It is anticipated that this is more than adequate federal acreage to complete an equal value land exchange. The NFS lands are located on the Clearwater, Nez Perce and Idaho Panhandle National Forests.

DATES: Comments concerning the scope of the analysis should be received by January 5, 2009. The draft environmental impact statement is expected Summer 2009, and the final environmental impact statement is expected Spring 2010.

ADDRESSES: Send written comments to: Tom Reilly, Forest Supervisor, Clearwater National Forest, c/o Teresa Trulock, Project Manager, 903 3rd Street, Kamiah, Idaho 83536. Electronic comments may be sent to comments-northern-clearwater@fs.fed.us with the subject line "Upper Lochsa Land Exchange". Acceptable formats are MS Word or RTF.

FOR FURTHER INFORMATION CONTACT: Teresa Trulock, Project Manager at the Clearwater National Forest (208) 935-4256.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

The purpose of this proposed land exchange is to consolidate land ownership in the upper Lochsa River drainage to provide more efficient and effective resource management. This purpose can be achieved by exchanging parcels of federal lands for WPT lands. The current ownership pattern has a considerable effect on how the Forest Service manages NFS lands in the upper Lochsa River drainage. Over the years, differing management practices on the private lands have influenced resource management decision on the NFS lands. The mixed ownership pattern also reduces the ability to apply ecosystem management principles across the landscape. More effective conservation and management of natural resources can be achieved by consolidating these lands and managing the ecosystem as a whole. For example, current ownership results in an inability to use fuel and topography to engage fires on a cost effective basis. Also more efficiency can be gained by reducing administrative costs associated with boundary maintenance and cost share roads.

In general the land exchange provides the opportunity for the Forest Service to acquire checkerboard lands which encompass the headwaters of the Lochsa
