#### SUPPLEMENTARY INFORMATION:

##### I. Background

One of the recommendations in the Department of Commerce reports for the Presidential Spectrum Policy Initiative directed NTIA, in coordination with the Federal Communications Commission (FCC) and other Federal agencies, to establish a Spectrum Sharing Innovation Test-Bed (Test-Bed) pilot program to examine the feasibility of increased sharing between Federal and non-Federal users. This pilot program is one of the key elements of the President's 21st Century Spectrum Policy Initiative and is an opportunity for Federal agencies to work cooperatively with industry, researchers, and academia to objectively evaluate new technologies that can improve management of the nation's airwaves.

On February 5, 2008, NTIA published a Notice in the **Federal Register** describing the Test-Bed pilot program.<sup>1</sup> Concurrently, the FCC released a Public

<sup>1</sup> Spectrum Sharing Test-Bed, 73 Fed. Reg. 6,710 (NTIA February 5, 2008) (notice of solicitation of participation).
