**CBC Latrobe Acquisition, LLC, a Subsidiary of City Brewery Company, LLC, Latrobe, PA; Notice of Negative Determination Regarding Application for Reconsideration**

By application dated November 19, 2008, a petitioner requested administrative reconsideration of the Department's negative determination regarding eligibility to apply for Trade Adjustment Assistance (TAA) and Alternative Trade Adjustment Assistance (ATAA), applicable to

workers and former workers of the subject firm. The denial notice was signed on October 21, 2008 and published in the **Federal Register** on November 10, 2008 (73 FR 66677).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) If it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or

(3) If in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The initial investigation resulted in a negative determination was based on the finding that imports of beer did not contribute importantly to worker

separations at the subject facility and there was no shift of production to a foreign country. The subject firm did not import beer during the relevant period. The "contributed importantly" test is generally demonstrated through a survey of the workers' firm's declining domestic customers. A survey conducted by the Department of Labor revealed that a major customer did not purchase imported beer in 2006, 2007 and during January through August 2008.

The petitioner provided a citation from the 2007 shareholder report that "competitiveness with foreign product on the shelves of distributors has increased" and stated that the workers of the subject firm should be eligible for TAA because domestic production has been "disrupted" by foreign products.

The investigation revealed no imports of beer during the relevant period and
