

statutorily reauthorized several times since then. However, the Board's statutory authorization expired January 1, 2009. The advice and recommendations provided by the Board and its subcommittees fulfill an important need within the Department of the Interior and the National Park Service, and it therefore is necessary to administratively reestablish the Board to ensure that its work is not disrupted. The Board's 12 members will be balanced to represent a cross-section of disciplines and expertise relevant to the National Park Service mission. The administrative reestablishment of the Board comports with the requirements of the Federal Advisory Committee Act, as amended (5 U.S.C., Appendix), and follows consultation with the General Services Administration. The reestablishment will be effective on the date the charter is filed pursuant to section 9(c) of the Act and 41 CFR 102-3.70.

Certification: I hereby certify that the administrative reestablishment of the National Park System Advisory Board is necessary and in the public interest in connection with the performance of duties imposed on the Department of the Interior by the Act of August 25, 1916, 16 U.S.C. 1 *et seq.*, and other statutes relating to the administration of the National Park System.

Dated: January 12, 2009.

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we initiate our process for developing a CCP for White River NWR in Desha, Monroe, Arkansas, and Phillips Counties, Arkansas.

This notice complies with our CCP policy to (1) advise other federal and state agencies, tribes, and the public of our intention to conduct detailed planning on this refuge; and (2) obtain suggestions and information on the scope of issues to consider in the environmental document and during development of the CCP.

The CCP Process

The National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd-668ee) (Improvement Act), which amended the National Wildlife Refuge System Administration Act of 1966, requires us to develop a CCP for each national wildlife refuge. The purpose in developing a CCP is to provide refuge managers with a 15-year strategy for achieving refuge purposes and contributing to the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities
