Cyprus Energy Futures, LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

January 14, 2009.

This is a supplemental notice in the above-referenced proceeding of Cyprus Energy Futures, LLC's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR Part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR Part 34, of future issuances of securities and assumptions of liability, is February 3, 2009.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission,

888 First St. NE., Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). Henry Gas Storage, LLC; Notice of Intent To Prepare an Environmental Assessment for the Proposed Henry Gas Storage Project Request for Comments on Environmental Issues and Notice of Public Meeting

January 14, 2009.

The Federal Energy Regulatory Commission (FERC or Commission) is in the process of preparing an environmental assessment (EA) on the environmental impacts of the Henry Gas Storage Project (HGS Project) involving the construction and operation of a new natural gas storage facility and new natural gas pipeline proposed by Henry Gas Storage, LLC (HGS).

This notice announces the opening of the scoping process that will be used to gather input from the public and interested agencies on the Project. Your input will help determine which issues will be evaluated in the EA. Please note that the scoping period for this Project will close on February 13, 2009.

Comments on the Project may be submitted in written form or verbally. In lieu of, or in addition, to sending written comments, we also invite you to attend the public scoping meeting that has been scheduled in the Project area on January 27, 2009. Details on how to submit comments and additional details of the public scoping meeting are provided in the Public Participation section of this notice.

This notice is being sent to affected landowners; federal, state, and local government representatives and agencies; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. We¹ encourage government representatives to notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the proposed pipeline facilities. The pipeline company would seek to negotiate a mutually acceptable agreement. However, if the Project is approved by the Commission, that approval conveys with it the right of federal eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" was attached to the project notice HGS provided to landowners. This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is available for viewing on the FERC Internet Web site (<http://www.ferc.gov>).

Summary of the Proposed Project

HGS proposes to construct and operate an 11.5 billion cubic-foot capacity natural gas salt-dome storage facility on Cote Blanche Island in St. Mary Parish, Louisiana as well as a 12-mile, 24-inch-diameter pipeline lateral. The HGS Project would have a withdrawal capacity of 2.6 billion cubic feet (bcf) of natural gas per day and an injection capacity of up to 1 bcf per day.

Location maps depicting the proposed facilities are attached to this NOI as Appendix 1.² HGS anticipates filing its application in March 2009 with a request that the Commission issue a certificate by September 2009. HGS
