What Information is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider when I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.

7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What Information Collection Activity or ICR Does this Apply to?

Docket ID No. EPA-HQ-SFUND-2006-0361.

Affected entities: Entities potentially affected by this action are manufacturers or non-manufacturers subject to reporting under Sections 303, 311/312 or 313 of the Emergency Planning and Community Right-to-Know Act (EPCRA).

Title: Trade Secret Claims for Emergency Planning and Community Right-to-Know Information.

ICR number: EPA ICR No. 1428.08, OMB Control No. 2050-0078.

ICR status: This ICR is currently scheduled to expire on August 31, 2009. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This information collection request pertains to trade secrecy claims submitted under Section 322 of the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA). EPCRA contains provisions requiring facilities to report to State and local authorities, and EPA, the presence of extremely hazardous substances (described in Section 302), inventory of hazardous chemicals (described in Sections 311 and 312) and manufacture, process and use of toxic chemicals (described in Section 313). Section 322 of EPCRA allows a facility to withhold the specific chemical identity from these EPCRA reports if the facility asserts a claim of trade secrecy for that chemical identity. The provision establishes the requirements and procedures that facilities must follow to request trade secrecy treatment of chemical identities, as well as the procedures for submitting public petitions to the Agency for review of the "sufficiency" of trade secrecy claims.

Trade secrecy protection is provided for specific chemical identities

contained in reports submitted under each of the following EPCRA sections: (1) 303(d)(2)—Facility notification of changes that have or are about to occur, (2) 303(d)(3)—Local Emergency Planning Committee (LEPC) requests for facility information to develop or implement emergency plans, (3) 311—Material Safety Data Sheets (MSDSs) submitted by facilities, or lists of those chemicals submitted in place of the MSDSs, (4) 312—Tier II emergency and hazardous chemical inventory forms, and (5) 313 Toxic chemical release inventory forms.

Burden Statement: The burden and costs stated below are from the current approved ICR. The annual public reporting and recordkeeping burden for this collection of information is estimated to average 9.8 hours per claim.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this action are manufacturers or non-manufacturers subject to reporting under sections 303, 311/312 or 313 of the Emergency Planning and Community Right-to-Know Act (EPCRA).

Estimated Number of Respondents: 481.

Frequency of Response: Trade secret claims are submitted by facilities either annually with reports submitted under sections 312 and 313 of EPCRA or during the time the LEPC request information under section 303 of EPCRA.

Estimated Total Annual Hour Burden: 4,658

Estimated Total Annual Cost: \$0, includes \$0 annualized capital or O&M costs.

What Is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
