TENNESSEE VALLEY AUTHORITY

Environmental Impact Statement; Integrated Resource Plan

AGENCY: Tennessee Valley Authority.

ACTION: Notice of intent.

SUMMARY: The Tennessee Valley Authority (TVA) is conducting a comprehensive study of its energy, resource and sustainability choices called TVA's Environmental and Energy Future. The purpose of this study is to evaluate TVA's portfolio of resource options for achieving a sustainable future and meeting the future electrical energy and resource stewardship needs of the Tennessee Valley. As part of the study, TVA will prepare a programmatic environmental impact statement (EIS). TVA will use the EIS process to elicit and prioritize the values and concerns of stakeholders; identify issues, trends, events, and tradeoffs affecting TVA's policies; formulate, evaluate and compare alternative portfolios of resource options; provide opportunities for public review and comment; and ensure that TVA's evaluation of future resource portfolios reflects a full range of stakeholder input. Public comment is invited concerning both the scope of the EIS and environmental issues that should be addressed as a part of this EIS.

DATES: Comments on the scope of the EIS must be received on or before August 14, 2009. Public meetings will be held to obtain comments on the scope of the EIS and to provide information about TVA's planning processes. The locations and times for these meetings will be announced later on the project Web site and in local and regional newspapers.
