

when corrosive gas or liquids are present.

* * * * *

(7)

(iii) Within six months after completing the baseline internal inspection required under paragraph (d)(9) of this section, integrate the results of the indirect assessment required under paragraph (d)(7)(i) of this section with the results of the baseline internal inspection and take any needed remedial actions.

(iv) * * *

* * * * *

(C) Integrate the results with those of the baseline and periodic assessments for integrity done under paragraphs (d)(9) and (d)(10) of this section.

(8) * * *

* * * * *

(ii) After remedial action to address a failed reading, confirm restoration of adequate corrosion control by a close interval survey on either side of the affected test station to the next test station unless the reason for the failed reading is determined to be a rectifier connection or power input problem that can be remediated and otherwise verified.

* * * * *

(9) * * *

(i) Except as provided in paragraph (d)(9)(iii) of this section, for a new pipeline segment operating at the new alternative maximum allowable operating pressure, perform a baseline internal inspection of the entire pipeline segment as follows:

* * * * *

(ii) Except as provided in paragraph (d)(9)(iii) of this section, for an existing pipeline segment, perform a baseline internal assessment using a geometry tool and a high resolution magnetic flux tool before, but within two years prior to, raising pressure to the alternative maximum allowable operating pressure as allowed under this section.

* * * * *

(10) * * *

* * * * *

(ii) Conduct periodic internal inspections using a high resolution magnetic flux tool on the frequency determined under paragraph (d)(10)(i) of this section, or

(iii) Use direct assessment (per § 192.925, § 192.927 and/or § 192.929) or pressure testing (per subpart J of this part) for periodic assessment of a portion of a segment to the extent permitted for a baseline assessment under paragraph (d)(9)(iii) of this section.

(11) * * *

* * * * *

(ii) * * *

(A) The defect is a dent discovered during the baseline assessment for integrity under paragraph (d)(9) of this section and the defect meets the criteria for immediate repair in § 192.309(b).

* * * * *

(iii) If paragraph (d)(11)(ii) of this section does not require immediate repair, repair a defect within one year if any of the following apply:

* * * * *

(iv) Evaluate any defect not required to be repaired under paragraph (d)(11)(ii) or (iii) of this section to determine its growth rate, set the maximum interval for repair or re-inspection, and repair or re-inspect within that interval.

PART 195—TRANSPORTATION OF HAZARDOUS LIQUIDS BY PIPELINE

■ 7. The authority citation for part 195 is amended to read as follows:

Authority: 49 U.S.C. 5103, 60102, 60104, 60108, 60109, 60116, 60118, and 60137; and 49 CFR 1.53.

§ 195.12 [Amended]

■ 8. In section 195.12, the second paragraph designated as paragraph (d), “Record Retention” is redesignated as paragraph (e).

PART 198—REGULATIONS FOR GRANTS TO AID STATE PIPELINE SAFETY PROGRAMS

■ 9. The authority citation for Part 198 continues to read as follows:

Authority: 49 U.S.C. 60105, 60106, 60107, 60114, and 49 CFR 1.53.

■ 10. Section 198.11 is revised to read as follows:

§ 198.11 Grant Authority.

The pipeline safety laws (49 U.S.C. 60101 *et seq.*) authorize the Administrator to pay out funds appropriated or otherwise make available up to 80 percent of the cost of the personnel, equipment, and activities reasonably required for each state agency to carry out a safety program for intrastate pipeline facilities under a certification or agreement with the Administrator or to act as an agent of the Administrator with respect to interstate pipeline facilities.

Issued in Washington, DC on November 20, 2009 under authority delegated in 49 CFR part 1.

Cynthia L. Quarterman,
Administrator.

50 CFR Part 679

[Docket No. 0911161406–91407–01]

RIN 0648–AY37

Groundfish Fisheries of the Exclusive Economic Zone Off Alaska; Individual Fishing Quota Program; Western Alaska Community Development Quota Program; Recordkeeping and Reporting; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule, correction.

SUMMARY: This action corrects column headings of a regulatory table; provides replacements for outdated text; reinstates a paragraph which describes the Chiniak Gully Research Area; corrects footnotes and other errors in two tables; and corrects two maps. These errors should be corrected immediately to eliminate potential confusion by the regulated public. This action is intended to promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act and other applicable law.

DATES: Effective November 30, 2009.

FOR FURTHER INFORMATION CONTACT: Patsy A. Bearden, 907–586–7228.

SUPPLEMENTARY INFORMATION:

Background

NMFS manages the U.S. groundfish fisheries of the exclusive economic zone off Alaska under the Fishery Management Plan for Groundfish of the Gulf of Alaska and the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area. With Federal oversight, the State of Alaska (State) manages the commercial king crab and Tanner crab fisheries under the Fishery Management Plan for Bering Sea/Aleutian Islands King and Tanner Crabs (collectively, FMPs). The FMPs were prepared by the North Pacific Fishery Management Council and approved by the Secretary of Commerce under authority of the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.* The FMPs are implemented by regulations at 50 CFR parts 679 and 680. General provisions governing fishing by U.S. vessels in accordance with the FMPs appear at subpart H of 50 CFR part 600.

Management of the Pacific halibut fisheries in and off Alaska is governed by an international agreement, the "Convention Between the United States of America and Canada for the Preservation of the Halibut Fishery of the Northern Pacific Ocean and Bering Sea," which was signed at Ottawa, Canada, on March 2, 1953, and was amended by the "Protocol Amending the Convention," signed at Washington, DC, March 29, 1979. The Convention is implemented in the United States by the Northern Pacific Halibut Act of 1982 (Halibut Act). General provisions governing fishing by U.S. vessels in accordance with the FMPs appear at subpart H of 50 CFR part 600.

Need for Corrections

This action corrects regulations recently promulgated in two final rules: a rule published on May 19, 2008 (73 FR 28733) and a rule published on December 15, 2008 (73 FR 76136). The revisions are needed to correct inadvertent errors.

Table 13 to part 679 summarizes the use of forms for shipping, transporting, or transferring fish or fish product. In the final rule published in the **Federal Register** on May 19, 2008 (73 FR 28733), the outdated term "IFQ card" was replaced with "IFQ hired master permit," because the IFQ card no longer exists. NMFS intended to change every occurrence of this phrase but missed the occurrence in Table 13 to part 679; this rule makes this correction. NMFS makes four additional revisions to Table 13. First, the cross-references to sections within the 679 regulations are moved from the column headings, indicated with a footnote number, and listed at the bottom of the table to make the table easier to read. Second, some of the cross-references are corrected as follows: the cross-reference in the Dockside Sales Receipt column heading of Table 13 is corrected to read "\$ 679.5(g)(2)(iv)", as the paragraph cited no longer exists. The cross-reference in the Landing Receipt column heading is corrected to read "\$ 679.5(e)(8)(vii)" because the December 15, 2008, final rule (73 FR 76136) reorganized the paragraphs describing retention of landing receipts. Third, a column is added to list the buying station report, which is a form used by a buying station or tender vessel and described at § 679.5(d). The addition of this form completes the list of the different types of product transfer forms in the part 679 regulations. Finally, Table 13 is not cross-referenced in § 679.5. Accordingly, to establish references to Table 13, this rule adds introductory paragraph (d); a sentence

to the end of introductory paragraph (g)(1); introductory paragraph (k); introductory paragraph (l)(3); and introductory paragraph (l)(4). None of the revisions to Table 13 and associated regulatory text add new requirements or change existing requirements.

Section 679.5(c)(1)(vi)(B) is a regulatory table that describes the distribution of logsheets from groundfish logbooks. This rule revises column headings describing logbooks used by catcher vessels and catcher/processors that use longline or pot gear. Operators of catcher vessels and catcher/processors using longline gear use the same logbook as operators of catcher vessels and catcher/processors using pot gear. The column headings incorrectly do not include "pot gear;" this rule will replace "CV lgl" and "CP lgl" with "CV lgl/pot" and "CP lgl/pot," respectively.

The December 15, 2008, final rule added a definition for "non-individual entity" to standardize the terms used to describe an entity other than an individual. NMFS's intention was to replace the term "other entity" with the new term "other non-individual entity" in all places in part 679 where the term "other entity" does not refer to an individual. Further, the intention was to add "other non-individual entity" in paragraphs that referred to entities of a similar nature, e.g., corporations, associations, and partnerships. Section 679.42(j)(7) is corrected by revising the one remaining reference to "corporation or a partnership" to read "corporation, partnership, association, or other non-individual entity." This correction makes consistent use of the term "non-individual entity" throughout the regulatory text.

The final rule also removed and reserved § 679.22(b)(6), which describes the Chiniak Gully Research Area; an area periodically closed to fishing. NMFS believed the closure had expired and so removed the paragraph. However, NMFS overlooked that it had published a June 1, 2006 (71 FR 31105) final rule that revised the same paragraph and instituted another closure effective through 2010. This final rule re-establishes this paragraph and the effective period of the closure through December 31, 2010.

The December 15, 2008, final rule removed the term, "weekly production report" or "WPR" from 50 CFR part 679 and replaced it with the term "production report" in eLandings. It was NMFS's intention to replace all references to the WPR in the final rule; however, some references were missed and not replaced. This final rule corrects the omissions.

Table 10 to part 679 lists percentages used for calculating maximum retainable amounts of species closed to directed fishing relative to basis species in the Gulf of Alaska. A spelling error is corrected in footnote 4 of Table 10 by removing *S. polyspinous* and replacing it with *S. polyspinis*.

The Nearshore Bristol Bay Trawl Closure Area shown in Figure 12 to part 679 has coordinates that actually occur on land; the Legend provides the correct coordinates. The closure area is redrawn to correct the previous map which showed the closure area parallel to the coastline. The closure area is redrawn to exclude Alaska State territorial waters and waters of the protection zone around Round Island. An additional note is added to the Legend to explain these exclusions.

The map in Figure 19 to part 679 is corrected to match the base map of the Gulf of Alaska reporting areas in Figure 3, which was revised in the December 15, 2008, final rule. The map is redrawn to correct the graphic western boundary of reporting area 610 which ends at 170 degrees, not 171 degrees as shown on the illustration. Figure 19 has this same base map, but was not changed in the final rule. This final rule corrects the boundary in Figure 19.

This rule also corrects other cross-reference errors as indicated in the Locate and Remove table.

Classification

Pursuant to 5 U.S.C. 553(b)(B), the Assistant Administrator of Fisheries (AA) finds good cause to waive prior notice and opportunity for public comment otherwise required by the section. The corrections made by this rule do not make any substantive changes in the rights or obligations of fishermen managed under the groundfish regulations implemented in the May 10, 2008, final rule and the December 15, 2008, final rule.

No aspect of this action is controversial, and no change in operating practices in the fishery is required. It was not NMFS's intent to impose incorrect regulations or to remove regulations that should have been retained. These errors should be corrected immediately to eliminate potential confusion by the regulated public. If left unrevised, these measures create ambiguous guidance, thus are likely to mislead fisheries participants and may weaken regulatory enforcement efforts.

For the same reasons, the AA finds good cause under 5 U.S.C. 553(d)(3) to waive the 30-day delay in effective date.

Because prior notice and opportunity for public comment are not required for

this rule by 5 U.S.C. 553, or any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, do not apply.

This final rule has been determined to be not significant for purposes of Executive Order 12866.

Corrections

Accordingly, the final rule published on December 15, 2008, at 73 FR 76136, and effective January 14, 2009; and the final rule published May 19, 2008, at 73 FR 28733 and effective June 18, 2008, are corrected as follows:

List of Subjects in 50 CFR Part 679

Alaska, Fisheries, Reporting and recordkeeping requirements.

Dated: November 23, 2009.

Samuel D. Rauch III,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

■ Accordingly, 50 CFR part 679 is corrected by making the following correcting amendments:

PART 679—FISHERIES OF THE EXCLUSIVE ECONOMIC ZONE OFF ALASKA

■ 1. The authority citation for part 679 continues to read as follows:

Authority: 16 U.S.C. 773 *et seq.*; 1540(f); 1801 *et seq.*; 1851 note; 3631 *et seq.*

■ 2. In § 679.5,

■ a. Revise the table heading in paragraph (c)(1)(vi)(B);

■ b. Add introductory paragraph (d); a sentence to the end of introductory paragraph (g)(1); introductory paragraph (k); introductory paragraph (l)(3); and introductory paragraph (l)(4). The revisions and additions read as follows:

§ 679.5 Recordkeeping and reporting (R&R).

* * * * *

(c) * * *

(1) * * *

(3) *Transshipment authorization*. For a comparison of forms used for shipping, transporting, or transferring fish or fish product, see Table 13 to this part.

* * * * *

(4) *IFQ Departure report*. For a comparison of forms used for shipping,

transporting, or transferring fish or fish product, see Table 13 to this part.

* * * * *

■ 3. In § 679.22, add paragraph (b)(6) to read as follows:

§ 679.22 Closures.

* * * * *

(b) * * *

(6) *Chiniak Gully Research Area (Applicable through December 31, 2010)*—(i) *Description of Chiniak Gully Research Area*. The Chiniak Gully Research Area, as shown in Figure 22 to this part, is defined as the waters bounded by straight lines connecting the coordinates in the order listed: 57°48.60 N lat., 152°22.20 W long.; 57°48.60 N lat., 151°51.00 W long.; 57°13.20 N lat., 150°38.40 W long.; 56°58.80 N lat., 151°16.20 W long.; 57°37.20 N lat., 152°09.60 W long.; and hence counterclockwise along the shoreline of Kodiak Island to 57°48.60 N lat., 152°22.20 W long.

(ii) *Closure*. (A) No vessel named on a Federal fisheries permit issued pursuant to § 679.4(b) shall deploy trawl

gear for purposes of either fishing, or of testing gear under § 679.24(d)(2), within the Chiniak Gully Research Area at any time from August 1 through September 20.

(B) If the Regional Administrator makes a determination that the relevant research activities have been completed for a particular year or will not be conducted that year, the Regional Administrator shall publish notification in the **Federal Register** rescinding the Chiniak Gully Research Area trawl closure, described in paragraph (b)(6)(i) of this section, for that year.

* * * * *

§§ 679.5, 679.20, 679.27, 679.30, and 679.42 [Amended]

■ 4. At each of the locations shown in the Location column, remove the phrase indicated in the “Remove” column and replace it with the phrase indicated in the “Add” column for the number of times indicated in the “Frequency” column.

Location	Remove	Add	Frequency
§ 679.5(h)(2)(ii)(C)	paragraph (h)(2)(i)	paragraph (h)(2)(ii)	1
§ 679.5(s)(4) heading	Weekly production report (WPR)	Production report	1
§ 679.5(s)(4)	WPR	production report	1
§ 679.5(s)(4)	paragraph (i)	paragraph (e)(10)	1
§ 679.20(g)(2)(iii)	products in the DCPL required under § 679.5(a)(7)(v)(C).	products in eLandings required under § 679.5(e)(9)(i)(D) and § 679.5(e)(10)(iii)(H) (see also Table 1c to this part).	1

Location	Remove	Add	Frequency
§ 679.27(j)(3)	weekly production report	production report	1
§ 679.27(j)(3)	§ 679.5(i)	§ 679.5(e)	1
§ 679.27(j)(5)(ii)	§ 679.5(a)(7)(iv)(C)	§ 679.5	1

Notes to Table 10 to Part 679

1	Shortraker/rougheye rockfish	Shortraker rockfish (152)	
	SR/RE	Rougheye rockfish (151)	
	SR/RE ERA	Shortraker/rougheye rockfish in the Eastern Regulatory Area (ERA).	
		Where numerical percentage is not indicated, the retainable percentage of SR/RE is included under Aggregated Rockfish	
2	Deep-water flatfish	Dover sole, Greenland turbot, and deep-sea sole	
3	Shallow-water flatfish	Flatfish not including deep-water flatfish, flathead sole, rex sole, or arrowtooth flounder	
4	Other rockfish	Western Regulatory Area	
		Central Regulatory Area	
		West Yakutat District	
		means slope rockfish and demersal shelf rockfish	
		Southeast Outside District	
		means slope rockfish	
		Slope rockfish	
		<i>S. aurora</i> (aurora)	<i>S. variegates</i> (harlequin)
		<i>S. melanostomus</i> (blackgill)	<i>S. wilsoni</i> (pygmy)
		<i>S. paucispinis</i> (bocaccio)	<i>S. babcocki</i> (redbanded)
		<i>S. goodei</i> (chilipepper)	<i>S. proriger</i> (redstripe)
		<i>S. crameri</i> (darkblotch)	<i>S. zacentrus</i> (sharpchin)
		<i>S. elongatus</i> (greenstriped)	<i>S. jordani</i> (shortbelly)
		In the Eastern GOA only, Slope rockfish also includes <i>S. polyspinis</i> , (northern)	
5	Pelagic shelf rockfish	<i>S. variabilis</i> (dusky)	<i>S. entomelas</i> (widow)
6	Demersal shelf rockfish (DSR)	<i>S. pinniger</i> (canary)	<i>S. maliger</i> (quillback)
		<i>S. nebulosus</i> (china)	<i>S. helvomaculatus</i> (rosethorn)
		<i>S. caurinus</i> (copper)	<i>S. nigrocinctus</i> (tiger)
		DSR-SEO = Demersal shelf rockfish in the Southeast Outside District (SEO)	
		The operator of a catcher vessel that is required to have a Federal fisheries permit, or that harvests IFQ halibut with hook and line or jig gear, must retain and land all DSR that is caught while fishing for groundfish or IFQ halibut in the SEO. Limits on sale and requirements for disposal of DSR are set out at § 679.20 (j).	
7	Other species	Sculpins	octopus
			sharks
			Squid
8	Aggregated rockfish	Means rockfish as defined at § 679.2 except in:	
		Southeast Outside District (SEO)	where DSR is a separate category for those species marked with a numerical percentage
		Eastern Regulatory Area	where SR/RE is a separate category for those species marked with a numerical percentage

Notes to Table 10 to Part 679		
9	N/A	not applicable
10	Aggregated forage fish (all species of the following taxa)	
	Bristlemouths, lightfishes, and anglemouths (family <i>Gonostomatidae</i>)	209
	Capelin smelt (family <i>Osmeridae</i>)	516
	Deep-sea smelts (family <i>Bathylagidae</i>)	773
