SUPPLEMENTARY INFORMATION: The Reciprocal Defense Procurement Memorandums of Understanding (RDP MOU)s that DoD has with 21 “qualifying” countries are signed at the level of the Secretary of Defense and his counterpart. The purpose of RDP MOUs is to promote rationalization, standardization, and interoperability of conventional defense equipment with allies and friendly governments. These MOUs provide a framework for ongoing communication regarding market access and procurement matters that affect effective defense cooperation.

RDP MOUs generally include language by which the parties agree that their defense procurements will be conducted in accordance with certain implementing procedures. *These procedures relate to—*

- Publication of notices of proposed purchases;
- The content and availability of solicitations for proposed purchases;
- Notification to each unsuccessful offeror;
- Feedback, upon request, to unsuccessful offerors concerning the reasons they were not allowed to participate in a procurement or were not awarded a contract; and
- Providing for the hearing and review of complaints arising in connection with any phase of the procurement process to ensure that, to the extent possible, complaints are equitably and expeditiously resolved.

Based on the MOU, each country affords the other certain benefits on a reciprocal basis consistent with national laws and regulations. The benefits that the United States accords to the products of qualifying countries include—

- Offers of qualifying country end products are evaluated without applying the price differentials otherwise required by the Buy American Act and the Balance of Payments Program;
- The chemical warfare protection clothing restrictions in 10 U.S.C. 2533a and the specialty metals restriction in 10 U.S.C. 2533b do not apply to products manufactured in a qualifying country; and
- Customs, taxes, and duties are waived for qualifying country end products and components.

If DoD signs an RDP MOU with the Czech Republic, the Czech Republic would be listed as one of the “qualifying countries” in the definition of “qualifying country” at DFARS 225.003 and offers of products of the Czech

Republic or that contain components from the Czech Republic would be afforded the benefits available to all qualifying countries. This also means that U.S. products would be exempt from any analogous “Buy Czech Republic” and “Buy European Union” laws or policies applicable to procurements by the Czech Republic Ministry of Defense or Armed Forces.

While DoD is evaluating the Czech Republic’s laws and regulations in this area, DoD would benefit from U.S. industry’s experience in participating in the Czech Republic’s public defense procurements. DoD is, therefore, asking U.S. firms that have participated or attempted to participate in procurements by or on behalf of the Czech Republic’s Ministry of Defense or Armed Forces to let us know if the procurements were conducted in accordance with published procedures with transparency, integrity, fairness, and due process, and if not, the nature of the problems encountered.

DoD is also interested in comments relating to the degree of reciprocity that exists between the U.S. and the Czech Republic when it comes to the openness of defense procurements to offers of products from the other country.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9104-4]

Clean Water Act Section 303(d): Call for Data for the Illinois River Watershed in Oklahoma and Arkansas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Request for data.

SUMMARY: EPA Region 6 is developing a watershed model for the Illinois River

watershed in Oklahoma and Arkansas to address nutrient water quality impairments. The results of this watershed model may be used to develop one or more total maximum daily loads (TMDLs) for the Illinois River Watershed. EPA requests that the public provide any water quality related data and information that may be relevant to the development of the Illinois River Watershed model and TMDL by March 3, 2010. In addition, EPA requests that all data submissions include the quality assurance and quality control documentation. All data submissions should be provided in an electronic format, if possible. EPA will review all data and information submitted and will consider them in the development of the model and TMDL, as appropriate.

DATES: Data and Information must be submitted in writing to EPA on or before March 3, 2010. If you anticipate that you will be providing data and information, but find it difficult to do so within the period of time allowed, you should advise the contact listed below as soon as possible.

ADDRESSES: You may submit data and Information to EPA Region 6 by e-mail or U.S. post mail. To submit your data and information by e-mail, send them to Smith.Diane@epa.gov. To submit your data and information by U.S. mail, mark them to the attention of Diane Smith, Environmental Protection Specialist, Water Quality Division, (6WQ), U.S. Environmental Protection Agency Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733.

FOR FURTHER INFORMATION CONTACT: Diane Smith, Environmental Protection Specialist, Water Quality Protection Division, U.S. EPA Region 6, 1445 Ross Avenue, Dallas, TX 75202-2733, (214) 665-2145.

SUPPLEMENTARY INFORMATION: The Illinois River is a tributary of the Arkansas River, approximately 100 mi (160 km) long, between the States of Arkansas and Oklahoma. The Illinois River rises in the Ozark Mountains in the northwest corner of Arkansas (Washington County) and flows west into northeast Oklahoma. The Oklahoma portion of the Illinois River is currently designated as a scenic river. In addition, several segments of the Illinois River are on the State of Oklahoma's 303(d) list (impaired waters list) for total phosphorus, while the main-stem Illinois River in Arkansas is not listed for total phosphorus. However, several tributaries (e.g., Osage Creek, Muddy Fork, and Spring Creek) to the Illinois River in Arkansas are currently on the Arkansas 303(d) list for total
