

data on positions in to-be-issued Treasury coupon securities, mainly the trading on a when-issued delivery basis.

Current Actions: On November 2, 2009, the Federal Reserve published a notice in the **Federal Register** (74 FR 56633) requesting public comment for 60 days on the extension, with revision, of the FR 2004. The comment period for this notice expired on January 4, 2010. The Federal Reserve did not receive any comments. The revisions will be implemented as proposed.

Final approval under OMB delegated authority of the implementation of the following survey:

Report title: Central Bank Survey of Foreign Exchange and Derivatives Market Activity.

Agency form number: FR 3036.

OMB control number: 7100-0285.

Frequency: One-time.

Reporters: Financial institutions that serve as intermediaries in the wholesale foreign exchange and derivatives market and dealers.

Estimated annual reporting hours: 2,165 hours.

Estimated average hours per response: Turnover survey, 55 hours; outstandings survey, 60 hours.

Number of respondents: Turnover survey, 35; outstandings survey, 4.

General description of report: This information collection is voluntary (12 U.S.C. 225a and 263) and is given confidential treatment (5 U.S.C. 552(b)(4)).

Abstract: The FR 3036 is the U.S. part of a global data collection that is conducted by central banks once every three years. More than 50 central banks plan to conduct the survey in 2010. The Bank for International Settlements compiles national data from each central bank to produce global market statistics.

The Federal Reserve System and other government agencies use the survey to monitor activity in the foreign exchange and derivatives markets. Respondents use the published data to gauge their market share.

Current Actions: On November 2, 2009, the Federal Reserve published a notice in the **Federal Register** (74 FR 56633) requesting public comment for 60 days on the implementation of the FR 3036. The comment period for this notice expired on January 4, 2010. The Federal Reserve did not receive any comments. The survey will be implemented as proposed.

Board of Governors of the Federal Reserve System, January 12, 2010.

Jennifer J. Johnson,
Secretary of the Board.

Agency Information Collection Activities; Submission for Office of Management and Budget Review; Comment Request; Records and Reports Concerning Experience With Approved New Animal Drugs; Adverse Event Reports on Forms FDA 1932, 1932a, and 2301

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a proposed collection of information has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995.

DATES: Fax written comments on the collection of information by February 18, 2010.

ADDRESSES: To ensure that comments on the information collection are received, OMB recommends that written comments be faxed to the Office of

FOR FURTHER INFORMATION CONTACT:

Denver Presley, Jr. Office of Information Management (HFA-710), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-796-3793.

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Records and Reports Concerning Experience With Approved New Animal Drugs; Adverse Event Reports on Forms FDA 1932, 1932a, and 2301 (OMB Control Number 0910-0284)—Extension

Section 512(l) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360b(l) and § 514.80 (21 CFR 514.80) of FDA regulations require applicants of approved new animal drug applications (NADAs) and abbreviated new animal drug applications (ANADAs) to report adverse drug experiences and product/manufacturing defects (see § 514.80(b)).

This continuous monitoring of approved NADAs and ANADAs affords the primary means by which FDA obtains information regarding potential problems with the safety and efficacy of marketed approved new animal drugs as well as potential product/manufacturing problems. Post-approval marketing surveillance is important because data previously submitted to FDA may not be adequate, as animal drug effects can change over time and less apparent effects may take years to manifest.

Under § 514.80(d), an applicant must report adverse drug experiences and product/manufacturing defects on Form FDA 1932, "Veterinary Adverse Drug Reaction, Lack of Effectiveness, Product Defect Report." Periodic drug experience reports and special drug experience reports must be accompanied by a completed Form FDA 2301, "Transmittal of Periodic Reports and Promotional Material for New Animal Drugs" (see § 514.80(d)). Form FDA 1932a, "Veterinary Adverse Drug Reaction, Lack of Effectiveness or Product Defect Report" allows for voluntary reporting of adverse drug experiences or product/manufacturing defects.

The electronic versions of Forms FDA 1932 and 1932a have been incorporated into the agency-wide information collection (MedWatch^{Plus} Portal and Rational Questionnaire) that was announced for public comment in the **Federal Register** on October 23, 2008 (73 FR 63153). MedWatch^{Plus} Portal and Rational Questionnaire is part of a new electronic system for collecting, submitting, and processing adverse event reports and other safety information for all FDA-regulated products. In the **Federal Register** of May 20, 2009 (74 FR 23721), FDA announced the submission for OMB review and clearance of the electronic data collection using MedWatch^{Plus} Portal and Rational Questionnaire.

Burden hours for the electronic versions of these forms were included as part of the MedWatch^{Plus} Portal and Rational Questionnaire information collection approved under OMB control number 0910-0645. It is estimated that, during the first 3 years that the MedWatch^{Plus} Portal is in use, half of the reports will be submitted in paper format and half will be submitted electronically. In order to avoid double counting, an estimated 50 percent of total annual responses for FDA Form 1932 (404) and FDA Form 1932a (81.5) are counted here as part of OMB Control No. 0910-0284 for the paper versions of Forms FDA 1932 and 1932a, and an estimated 50 percent of the total annual responses (404) and (81.5) for Form FDA 1932 and FDA Form 1932a respectively, are counted as part of OMB Control No. 0910-0645 for the electronic reporting of these adverse reports using the MedWatch^{Plus} Portal.

In the **Federal Register** of October 15, 2009 (74 FR 52967), FDA published a 60-day notice requesting public comment on the proposed collection of information. No comments were received.

In a separate 30-day notice, FDA requested public comment on data elements associated with revisions to Forms FDA 1932 and 1932a (both paper and electronic) under revised OMB Control No. 0910-0645 (November 20, 2009, 74 FR 60265). The agency plans to give companies time to accommodate the revisions since the proposed revisions may require changes to validated databases. The agency plans to provide a transition period for respondents until September 30, 2010, during which the current FDA Form 1932 (version dated 01/2007— approved under this OMB Control No. 0910-0284) will be accepted as well as the revised FDA Form 1932 approved under revised OMB Control No. 0910-0645. After the transition period, Form FDA 2301 will
