Office of Innovation and Improvement

Type of Review: Emergency.

Title: Open Innovation Web Portal.

Abstract: The U.S. Department of Education's (ED) Office of Innovation and Improvement (OII) has developed a web-based platform, the Open Innovation Web Portal (Portal), to support communication and collaboration among a wide range of key education stakeholders, including practitioners, funders, and the general public. Once this platform goes on-line, it will allow geographically dispersed but like-minded entities to discover each other and work together to address some of the most intractable challenges in education.

OII plans to promote this platform as a tool for use with the Investing in Innovation grant program (i3), which was established as the "Innovation Fund" in the "American Recovery and Reinvestment Act of 2009" (ARRA), signed into law by the President on February 17, 2009. Since passage of ARRA, the Department has worked with all possible speed to develop the i3 program, which will conduct three separate competitions. This new program will provide \$650,000,000 in competitive grants to Local Education Agencies (LEAs), non-profit organizations working in collaboration with LEAs, or non-profit organizations working in collaboration with a consortium of schools. The Department must obligate funds to i3 grantees before the end of fiscal year 2010, September 30, 2010. The Department requests emergency approval under the Paperwork Reduction Act of 1995 (PRA) of the information collection request (ICR) for the Portal so that prospective applicants to the i3 competitions may use the Portal to identify partners, find matching funding, and improve the quality of their applications.

Additional Information: Part of our intent in implementing the i3 program is to identify innovative new approaches proposed by individuals and organizations that have previously had limited experience in obtaining grants in the education sector yet have promising evidence-based ideas for improving American education. These applicants in particular face challenges in identifying schools or LEAs with which to partner given their limited experience in the field. Further, organizations without existing relationships in education may find it difficult to secure the private sector matching funds required of all grantees under ARRA. Receiving OMB's approval on an emergency basis is thus essential to launching the Portal and supporting improved student achievement through school improvement and reform, one of the primary objectives of ARRA. Failure to approve this emergency request
