

Comments: On January 21, 2010, we published in the **Federal Register** (75 FR 3483) a notice of our intent to request that OMB renew this ICR. In that notice, we solicited comments for 60 days, ending on March 22, 2010. We received 155 comments during the comment period, all of which supported this information collection. Of these comments, 153 were submitted as part of an electronic letterwriting campaign and two were individual responses.

Comments: The comments submitted as part of the letterwriting campaign suggested that sanctuaries should make appropriate records available to the Service and the public. Other comments suggested that: (1) appropriate records should be made available to the Service on an annual basis; (2) we establish an electronic recordkeeping system for wildlife sanctuaries that other Federal, State or, local agencies could access; and (3) wildlife sanctuaries be accredited by an independent organization.

Response: During development of the regulations to implement the CWSA, we considered options for some type of formal accreditation mechanism for wildlife sanctuaries, but concluded that it was not practical for a number of reasons. We believe that the requirement that wildlife sanctuaries provide records on an as-needed basis is adequate to substantiate whether or not a particular wildlife sanctuary qualifies as accredited under the CWSA. In addition, the Privacy Act and the Freedom of Information Act have certain requirements pertaining to the release of information that may prohibit us from making these records openly available to the public. Since the Service is responsible for determining if a wildlife sanctuary qualifies as accredited under the CWSA, giving this responsibility to an outside organization would not be appropriate.

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, e-mail address, or other personal identifying

information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.
