

383.23 to Volvo drivers Magnus Ericsson and Conny Harlin for the period from April 16, 2010 through April 16, 2012.

Terms and Conditions for the Exemption

FMCSA granted Volvo an exemption from the Federal CDL requirement in 49 CFR 383.23 to allow Ericsson and Harlin to drive CMVs in the U.S., subject to the following terms and conditions:

(1) That the drivers are subject to drug and alcohol regulations, including testing, as provided in 49 CFR part 382, (2) that the drivers are subject to the same driver disqualification rules under 49 CFR parts 383 and 391 that apply to other CMV drivers in the U.S., (3) that the drivers keep a copy of the exemption on the vehicle at all times, (4) that Volvo notify FMCSA in writing of any accident, as defined in 49 CFR 390.5, involving one or both of these drivers, and (5) that Volvo notify FMCSA in writing if either driver is convicted of a disqualifying offense under section 383.51 or section 391.15 of the FMCSRs.

In accordance with 49 U.S.C. 31315 and 31136(e), the exemption will be valid for 2 years unless revoked earlier by the FMCSA. The exemption will be revoked if: (1) An exempted driver fails to comply with the terms and conditions of the exemption; (2) the exemption results in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would be inconsistent with the goals and objectives of 49 U.S.C. 31315 and 31136.

[FMCSA Docket No. FMCSA-2006-25756]

Commercial Driver's License (CDL) Standards; Volvo Trucks North America, Renewal of Exemption

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of renewal of exemption; request for comments.

SUMMARY: FMCSA renews Volvo Trucks North America's (Volvo) exemption from the Agency's requirement for certain drivers of commercial motor

vehicles (CMVs) to hold a commercial driver's license (CDL). Volvo requested that its exemption for five Swedish engineers and technicians be renewed to enable these individuals to continue test-driving CMVs in the United States for Volvo. Each of these individuals holds a valid Swedish CDL. FMCSA believes the training program and knowledge and skills testing that drivers must undergo to obtain a Swedish CDL ensure a level of safety equivalent to, or greater than, the level of safety that would be obtained by complying with the U.S. requirement for a CDL.

DATES: Comments must be received on or before July 14, 2010.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31315 and 31136(e), FMCSA may renew an exemption from the CDL requirements of 49 CFR 383.23 for a maximum 2-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." The procedures for requesting an exemption (including renewals) are prescribed in 49 CFR part 381.

Volvo Application for Exemption Renewal

Volvo applied for the renewal of an exemption from 49 CFR 383.23, the commercial driver licensing requirement for drivers operating commercial motor vehicles (CMVs). A copy of the request for renewal is in the docket identified at the beginning of this notice. Volvo asked for the renewal of exemption for five drivers for an additional period of 2 years. The five drivers are Jonas Gustafsson, Christer Milding, Jonas Nilsson, Bjorn Nyman, and Sten-Ake Sandberg.

FMCSA initially granted this exemption to Volvo for 11 Swedish

engineers and technicians on May 12, 2006 (71 FR 27780). Detailed information about the qualifications and experience of each of the 11 drivers, including the 5 drivers who are the subject of this notice, was provided by Volvo in its original application, a copy of which is in the docket referenced above. On February 4, 2008, Volvo's request for renewal of the exemption for 8 of the original 11 exempt individuals was approved for an additional period of 2 years (73 FR 6552). FMCSA has evaluated Volvo's current application for renewal of 5 of the 8 individuals on its merits and decided to grant renewal of this Volvo exemption for an additional 2-year period, i.e. from February 4, 2010, through February 4, 2012.

Volvo is seeking a renewal of this exemption because the drivers it employs are citizens and residents of Sweden, and cannot easily obtain non-resident CDLs, given the small number of States willing to issue such license. Renewal of the exemption will enable the five drivers to operate CMVs in the U.S. and continue to support Volvo's field tests to meet future clean air standards, to test drive prototype vehicles at their test site, and to deliver the vehicles, if necessary. It is estimated that each driver will drive approximately 2,500 miles per year on U.S. roads. Each of the 5 drivers is an experienced CMV operator holding a valid Swedish-issued CDL. Each driver has received extensive CMV training, and has satisfied strict regulations in Sweden in order to obtain a CDL. Volvo explained in detail in earlier exemption requests in this docket the rigorous training program, and knowledge and skills tests, that applicants for a Swedish CDL must undergo. Volvo also stated in prior exemption requests that it believes that the knowledge and skills tests and training program ensure the exemption provides a level of safety that is equivalent to, or greater than, the level of safety obtained by complying with the U.S. requirement for a CDL.

Method To Ensure an Equivalent or Greater Level of Safety

FMCSA has previously determined the process for obtaining a Swedish CDL is comparable to, or as effective as, the Federal requirements of Part 383, and adequately assesses the driver's ability to operate CMVs in the U.S. In the past 2 years, FMCSA has published several notices of similar Volvo exemption requests; the most recent Agency notice of final disposition was published on May 5, 2009, granting an exemption to seven Volvo drivers for two years (74 FR 20778).

Request for Comments

In accordance with 49 U.S.C. 31315(b)(4) and 31136(e), FMCSA requests public comment on the renewal of Volvo's exemption from the requirements of 49 CFR 383.23 for these five individuals. The Agency requests that interested parties with specific data concerning the safety records of the five drivers listed in this notice submit comments by July 14, 2010. FMCSA will review all comments received by this date and determine whether renewal of the exemption is consistent with the requirements of 49 U.S.C. 31315 and 31136(e).

FMCSA believes the requirements for renewal of an exemption under 49 U.S.C. 31315 and 31136(e) can be satisfied by initially granting the renewal and then requesting and subsequently evaluating comments submitted by interested parties. As indicated above, on two prior occasions, the Agency has determined that providing exemption for these five Volvo drivers from the CDL requirements of 49 CFR 383.23 does not compromise the level of safety that would exist if the exemption were not granted. Each of the prior FMCSA decisions was based on careful consideration of the comments received, and on the merits of each driver's demonstrated knowledge and skills about the safe operation of CMVs.

Interested parties or organizations possessing information that would show that any or all of these drivers are not currently achieving the requisite statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse information submitted and, if safety is being compromised or if the continuation of the exemption is not consistent with 49 U.S.C. 31315(b)(4) and 31136(e), FMCSA will take immediate steps to revoke the exemption of the driver(s) in question.

[Docket No. FMCSA-2010-0027]

Hours of Service of Drivers: RockTenn, Application for Exemption

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: FMCSA announces that it has received an application from RockTenn requesting an exemption from the driver hours-of-service (HOS) provisions in Part 395 of the Federal Motor Carrier Safety Regulations. The exemption request is for RockTenn's shipping department employees and occasional substitute commercial driver's license (CDL) holders who transport paper mill products between their shipping and receiving locations on a public road. RockTenn requests this exemption to allow these individuals to work up to 16 hours per day and be allowed to return to work with less than the mandatory 10 consecutive hours off-duty. FMCSA requests public comment on the RockTenn application for exemption.
