

available, the application that is being expressly abandoned; (iii) provide a statement certifying that applicant has not filed petitions in more than fourteen other applications requesting special status under this program; and (iv) provide a statement that applicant agrees to make an election without traverse in a telephonic interview if the Office determines that the claims of the application to be made special are directed to two or more independent and distinct inventions (*see* 35 U.S.C. 121, 37 CFR 1.141–142). If the examiner cannot reach the applicant after a reasonable effort or applicant refuses to make an election in a telephonic interview, the examiner will treat the first claimed invention as constructively elected without traverse for examination. In addition, the USPTO will accord special status for examination under the Patent Application Backlog Reduction Stimulus Plan to only the first 10,000 applications that meet the requirements of the Patent Application Backlog Reduction Stimulus Plan.

For the purpose of the certification that applicant has not filed petitions in more than fourteen other applications requesting special status under this program, any application that is assigned to or subject to an obligation to assign to an entity or is owned by that entity for which a petition under this program has been filed is considered to be a petition filed by applicant. Thus, the certification that applicant has not filed petitions in more than fourteen other applications requesting special status under this program is based upon ownership.

The procedure specified in the *Backlog Reduction Notice* and this notice is applicable to applicants having multiple applications currently pending before the USPTO and who are willing to expressly abandon one application to have another application accorded special status for examination. The USPTO appreciates that there are applicants who are willing to expressly abandon an application, but who have only a single application pending before the USPTO or no application for which special status for examination is desired. Applicants are reminded that 37 CFR 1.138(d) provides a procedure by which an applicant may obtain a refund of the search fee and excess claims fee paid in an application by submitting a petition (requires no fee) and letter of express abandonment. *See* MPEP § 711.01. The procedure set forth in 37 CFR 1.138(d), however, is applicable only to applications filed under 35 U.S.C. 111(a) on or after December 8, 2004.

Applicants are cautioned to exercise care in filing a letter of express abandonment in an application. The USPTO cannot revive an application once the letter of express abandonment is recognized by the USPTO because the application was expressly and intentionally abandoned by the applicant. *See* MPEP §§ 711.01 and 711.03(c).

The procedure for petition under 37 CFR 1.102 to make an application special specified in the *Backlog Reduction Notice* and this notice is being adopted on a temporary basis until December 31, 2010. For a petition under 37 CFR 1.102 to be granted under the procedure specified in this notice, the petition under 37 CFR 1.102 and the letter of express abandonment and its accompanying statement must be filed on or before December 31, 2010, and must be among the first 10,000 applications accorded special status for examination under the Patent Application Backlog Reduction Stimulus Plan.

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Acting Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before August 23, 2010.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested

Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: June 21, 2010.
