Attendees must register on-site each morning of the meeting. Seats are limited and public attendees will be taken on a first come, first serve basis. Under *Public Participation*, middle column, it was indicated that registration for public comments will begin at 9 a.m. on July 12 for those wishing to speak on July 12 and 9 a.m. on July 13 for those wishing to speak on July 13. Those times have been changed. Registration for public comments opens at 7 a.m. each day and is also on a first come, first serve basis. Title: NSPS for Magnetic Tape Coating Facilities (Renewal).

ICR Numbers: EPA ICR Number 1135.10, OMB Control Number 2060-0171.

ICR Status: This ICR is scheduled to expire on July 31, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The New Source Performance Standards (NSPS) for the Magnetic Tape Coating Facilities (40 CFR part 60, subpart SSS) were proposed on January 22, 1986, and promulgated on October 3, 1988. The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A and any changes, or additions to the Provisions specified at 40 CFR part 60, subpart SSS. Owners or operators of the affected facilities must make an initial notification, performance tests, periodic reports, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 88 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Magnetic tape coating facilities.

Estimated Number of Respondents: 6.

Frequency of Response: Initially, occasionally, quarterly, and semiannually.

Estimated Total Annual Hour Burden: 2,017.

Estimated Total Annual Cost: \$277,224, which includes \$190,824 in labor costs, \$33,600 in capital/startup costs, and \$52,800 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the labor hours to the respondents in this ICR compared to the previous ICR because the regulations have not changed over the past three years and are not anticipated to change over the next three years. Since this ICR renewal was approved to be processed under the "Expedited Approach" option, EPA has maintained the same estimate for the number of sources currently subject to this standard as indicated in the most recently approved ICR. Therefore, the labor hours figures in the previous ICR reflect the current burden to the respondents and are reiterated in this ICR. However, there is a decrease number of respondents currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: July 2, 2010.

John Moses,

Director, Collection Strategies Division.
