Background

Title V of the Trade and Development Act of 2000 (the Act) created two tariff rate quotas (TRQs), providing for temporary reductions in the import duties on limited quantities of two categories of worsted wool fabrics suitable for use in making suits, suit-type jackets, or trousers: (1) For worsted wool fabric with average fiber diameters greater than 18.5 microns (Harmonized Tariff Schedule of the United States (HTS) heading 9902.51.11); and (2) for worsted wool fabric with average fiber diameters of 18.5 microns or less (HTS heading 9902.51.12). On August 6, 2002, President Bush signed into law the Trade Act of 2002, which includes several amendments to Title V of the Act. On December 3, 2004, the Act was further amended pursuant to the Miscellaneous Trade Act of 2004, Public Law 108-429, by increasing the TRQ for worsted wool fabric with average fiber diameters greater than 18.5 microns, HTS 9902.51.11, to an annual total level of 5.5 million square meters, and extending it through 2007, and increasing the TRQ for average fiber diameters of 18.5 microns or less, HTS 9902.51.12 (previously 9902.51.12), to an annual total level of 5 million square meters and extending it through 2006. On August 17, 2006 the Act was further

amended pursuant to the Pension Protection Act of 2006, Public Law 109–280, which extended both TRQs, 9902.51.11 and 9902.51.15, through 2009. The Emergency Economic Stabilization Act of 2008 extended the TRQ for both HTS through 2014.

The Act requires that the TRQs be allocated to persons who cut and sew men's and boys' worsted wool suits, suit-type jackets and trousers in the United States. On October 24, 2005, the Department adopted final regulations establishing procedures for allocating the TRQ. See 70 FR 61363; 19 CFR part 335. In order to be eligible for an allocation, an applicant must submit an application on the form provided at <http://web.ita.doc.gov/tacgi/wooltrq.nsf/TRQApp> to the address listed above by 5 p.m. on October 8, 2010 in compliance with the requirements of 15 CFR 335.
