Notice of Inventory Completion: Utah Museum of Natural History, Salt Lake City, UT

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects in the possession and control of the Utah Museum of Natural History, Salt Lake City, UT. The human remains and associated funerary objects were removed from Millard and Washington Counties, UT.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by the Utah Museum of Natural History professional staff and a report sent to representatives of the Confederated Tribes of the Goshute Reservation, Nevada and Utah; Northwestern Band of Shoshoni Nation of Utah (Washakie); Paiute Indian Tribe of Utah (Cedar Band of Paiutes, Kanosh Band of Paiutes, Koosharem Band of

Paiutes, Indian Peaks Band of Paiutes, and Shivwits Band of Paiutes); Skull Valley Band of Goshute Indians of Utah; and the Ute Indian Tribe of the Uintah & Ouray Reservation, Utah, on January 15, 2010, and consultation with the Confederated Tribes of the Goshute Reservation, Nevada and Utah, and Paiute Indian Tribe of Utah, followed.

Before 1931, human remains representing a minimum of six individuals were removed from a cave in Millard County, UT, by a private collector. In 1931, the human remains and associated funerary objects were donated to the University of Utah. On November 10, 1972, transfer of the University anthropology collections to the Utah Museum of Natural History occurred. It is unknown if the individuals were found together or in separate areas of the cave. No known individuals were identified. Originally, leather fragments were collected, but are currently missing. The remaining three associated funerary objects are one steel knife and two fragments of unworked faunal bone.

The associated funerary objects found with the interments indicate that the human remains are from the contact period. The result of an osteological analysis indicates that the individuals are Native American and likely of Numic descent. Based on the geographical location of the burials, it has been determined descendants of these individuals are members of the Kanosh Band of the Paiute Indian Tribe of Utah, who inhabited this area during the protohistoric and contact periods.

Between 1990 and 1995, human remains representing a minimum of one individual were discovered on private property in Panguitch, Washington County, UT. The human remains were taken to the Panguitch Sheriff's department, and then to the Anasazi State Park. In 1997, the human remains were transferred to the Utah Museum of Natural History and accessioned into the collections. No known individual was identified. No associated funerary objects are present.

The result of an osteological analysis indicates that the individual is Native American and likely of Numic descent. Based on the geographical location of the burial, it has been determined that the individual was likely a member of the Paiute Indian Tribe of Utah, who inhabited this area during the protohistoric and contact periods. The Kanosh Band of the Paiute Indian Tribe of Utah is taking responsibility for the repatriation of this individual.

In 1932, human remains representing a minimum of one individual were removed from Black Rock Butte, Millard

County, UT, by a private collector. In 1932, the human remains were loaned to the University of Utah. On November 10, 1972, transfer of the University anthropology collections to the Utah Museum of Natural History occurred. In 1992, the loan was converted to ownership by the museum under Utah law. No known individual was identified. The burial goods claimed to have been found with the remains were not located in 2009. It is unknown if the objects were ever in the possession of the University of Utah. Therefore, no associated funerary objects are present.

The result of an osteological analysis indicates that the individual is Native American and likely of Numic descent. Based on the geographical location of the burial, it has been determined that the individual was likely a member of the Kanosh Band of the Paiute Indian Tribe of Utah, who inhabited this area during the protohistoric and contact periods.

Officials of the Utah Museum of Natural History have determined that, pursuant to 25 U.S.C. 3001(9), the human remains described above represent the physical remains of eight individuals of Native American ancestry. Officials of the Utah Museum of Natural History also have determined that, pursuant to 25 U.S.C. 3001(3)(A), the three objects described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the Utah Museum of Natural History have determined that, pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Kanosh Band of the Paiute Indian Tribe of Utah.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains and associated funerary objects should contact Duncan Metcalfe, Utah Museum of Natural History, 1390 E. Presidents Circle, Salt Lake City, UT 84112, telephone (801) 581-3876, before October 20, 2010. Repatriation of the human remains and associated funerary objects to the Kanosh Band of the Paiute Indian Tribe of Utah may proceed after that date if no additional claimants come forward.

The Utah Museum of Natural History is responsible for notifying the Confederated Tribes of the Goshute Reservation, Nevada and Utah; Northwestern Band of Shoshoni Nation of Utah (Washakie); Paiute Indian Tribe of Utah; Skull Valley Band of Goshute

Indians of Utah; and the Ute Indian Tribe of the Uintah & Ouray Reservation, Utah, that this notice has been published.

AGENCY: National Park Service, Interior.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains in the control of the Pioneer Historical Society of Bent County, Las Animas, CO. The human remains were removed from unknown locations.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

Jackson later donated them to the Pioneer Historical Society of Bent County (catalog number O 1298). No known individuals were identified. No associated funerary objects are present.

The human remains are more likely than not Native American based on biological information obtained through a non-destructive osteological study.

Officials of the Pioneer Historical Society of Bent County have determined that, pursuant to 25 U.S.C. 3001(9), the human remains described above represent the physical remains of two individuals of Native American ancestry. Lastly, officials of the Pioneer Historical Society of Bent County have determined that, pursuant to 25 U.S.C. 3001(2), a relationship of shared group identity cannot reasonably be traced between the Native American human remains and any present-day Indian tribe.

The Native American Graves Protection and Repatriation Review Committee (Review Committee) is responsible for recommending specific actions for the disposition of culturally

unidentifiable human remains. In October 2009, the Pioneer Historical Society of Bent County requested that the Review Committee recommend disposition of four culturally unidentifiable human remains and associated funerary objects to the Cheyenne and Arapaho Tribes, Oklahoma. The Arapahoe Tribe of the Wind River Reservation, Wyoming; Comanche Nation, Oklahoma; Forest County Potawatomi Community, Wisconsin; Hopi Tribe of Arizona; Iowa Tribe of Kansas and Nebraska; Iowa Tribe of Oklahoma; Jicarilla Apache Nation, New Mexico; Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana; Pawnee Nation of Oklahoma; Pueblo of Acoma, New Mexico; Pueblo of Jemez, New Mexico; Pueblo of Santa Ana, New Mexico; Pueblo of Tesuque, New Mexico; Pueblo of Laguna, New Mexico; Pueblo of Santa Clara, New Mexico; and Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado, wrote letters in support of the disposition to the Cheyenne and Arapaho Tribes, Oklahoma. The Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah, testified in support of the disposition to the Cheyenne and Arapaho Tribes, Oklahoma, before the Review Committee during the May 15-16, 2008, meeting. Furthermore, none of the Indian tribes consulted objected to the determination of the "culturally unidentifiable" status by the Pioneer Historical Society of Bent County and the disposition to the Cheyenne and Arapaho Tribes, Oklahoma.

The Review Committee considered the proposal at its October 30-31, 2009, meeting and recommended the disposition of the human remains and associated funerary objects to the Cheyenne and Arapaho Tribes, Oklahoma. The Secretary of the Interior independently reviewed the recommendation. A June 3, 2010, letter from the Designated Federal Officer, writing on behalf of the Secretary of the Interior, transmitted the authorization for the Pioneer Historical Society of Bent County to effect disposition of the physical remains of two of the culturally unidentifiable individuals to the Cheyenne and Arapaho Tribes, Oklahoma, contingent on the publication of a Notice of Inventory Completion in the **Federal Register**. This notice fulfills that requirement.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains should contact Kathryn Finau, Project Coordinator, Pioneer Historical Society of Bent County, PO Box 68, Las Animas,
