

comments on the proposed scope of the EIS. The EIS process is ongoing.

On August 13, 2010, the Court vacated the deregulation determination, remanding the issue back to APHIS. RRSB is therefore once again a regulated article under 7 CFR part 340, and Monsanto and KWS have submitted a supplemental request for "partial deregulation" or similar administrative action for RRSB, along with an accompanying "Environmental Report," to allow the future planting, harvesting, and interstate movement of RRSB crops (both seed and root) under conditions designed to ensure any risks posed by the introduction of these sugar beets into the environment are thoroughly mitigated.

APHIS is evaluating this supplemental request and developing appropriate environmental analyses to inform its decisionmaking in reference to any APHIS decision or decisions to authorize future seed and root crop plantings under a combination of permits, administrative orders, or other regulatory options and measures. APHIS is considering regulatory options and measures that would include mitigating measures consistent with those it had proposed to the Court as interim measures while APHIS completes the EIS for the petition for determination of non-regulated status for RRSB. APHIS anticipates making a decision on the supplemental petition for "partial deregulation" and on other appropriate interim regulatory actions related to RRSB by the end of the year. There will be an opportunity for public comment on any environmental analyses developed for such decision or decisions. APHIS is notifying the public that its receipt of this supplemental request for "partial deregulation" and this notice to the public regarding it in no way indicates that the Agency agrees with the petitioners' description, application, or implementation of a "partial deregulation." Such matters and related issues are solely determined by APHIS pursuant to its PPA statutory authority and its biotechnology regulations in 7 CFR part 340.

Done in Washington, DC, this 4th day of October 2010.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

Title: USAID Visa Compliance System (VCS).

Type of Review: New Information Collection.

Purpose: The U.S. Agency for International Development, under the Foreign Assistance Act of 1961, as amended, engages in a broad range of sustainable economic assistance activities that provide technical and academic training in the United States and abroad for foreign nationals. These foreign nationals have been selected for

training by USAID in order to advance U.S. foreign policy objectives by supporting: Economic growth, agriculture and trade; global health; and democracy, conflict prevention, and humanitarian assistance. Training can consist of long-term academic degree programs, short-term technical courses, seminars, workshops, or other learning activities intended to impart certain knowledge and information.

USAID must track training data for all foreign nationals who receive training funded by USAID. In cases where foreign nationals must travel to the U.S. to participate in training or invitational travel, the approvals for the eligibility to obtain the J visa are captured in the Visa Compliance System (VCS). The Visa Compliance system has two purposes: first, to secure a J-1 visa for these foreign nationals traveling to the U.S.; second, to enable USAID to be in compliance with external requirements of the Department of Homeland Security. With certain exceptions, the foreign nationals that USAID sponsors for travel to the U.S. are considered exchange visitors. The VCS provides an audit trail regarding each exchange visitor, his or her training program or circumstances, as well as other relevant documentation.
