

with otter trawls that are fully compliant with applicable regulations and adhere to the following conditions: Possess 150 or fewer dogfish per trip; all live dogfish bycatch would be returned to the ocean as quickly as possible; no dogfish may be landed for sale; dogfish would not be targeted during the fishing trips.

Participating vessels would be exempt from the spiny dogfish fishery closure regulations at 50 CFR 648.231 and required to comply with all other applicable requirements and restrictions specified at 50 CFR part 648.

The applicant may make requests to NMFS for minor modifications and extensions to the EFP throughout the year. EFP modifications and extensions may be granted by NMFS without further notice if they are deemed essential to facilitate completion of the proposed research and result in only a minimal change in the scope or impact of the initially approved EFP request. In accordance with NOAA Administrative Order 216-6, a Categorical Exclusion or other appropriate NEPA document would be completed prior to the issuance of the EFP. Further review and consultation may be necessary before a final determination is made to issue the EFP. After publication of this document in the **Federal Register**, the EFP, if approved, may become effective following a 15-day public comment period.
