#### **SUPPLEMENTARY INFORMATION:**

#### **Introduction**

With this notice, we finalize the CCP  
process for Nomans Land Island NWR,

which we started with the notice of  
intent we published in the **Federal  
Register** (69 FR 72210) on December 13,  
2008. We prepared the EA/draft CCP in  
compliance with the National  
Environmental Policy Act of 1969  
(NEPA) (42 U.S.C. 4321 et seq.) and the  
National Wildlife Refuge System  
Administration Act of 1966  
(Administration Act) (16 U.S.C. 668dd-  
668ee), as amended by the National  
Wildlife Refuge System Improvement  
Act of 1997 (Improvement Act). We  
released the EA/draft CCP to the public,  
announcing and requesting comments  
in a notice of availability in the **Federal  
Register** (75 FR 30052) on May 28, 2010.

Nomans Land Island is a 628-acre  
roadless island located approximately 3  
miles south of Martha's Vineyard,  
Massachusetts. The refuge was  
established in 1998 for the conservation  
and management of migratory birds. We  
first began managing a portion of the  
eastern side of the island in 1970 as an  
“overlay” refuge under a joint  
management agreement between the  
U.S. Department of the Interior and the  
U.S. Department of the Navy (Navy),  
while it was still under Navy  
management. In 1998, management of  
the island was transferred to the  
Service, and all 628 acres became  
Nomans Land Island NWR.

This island has a unique history, from  
its use by Native Americans as a  
summer camp, to sheep grazing when  
the island was privately owned in the  
1800s, to use as a bombing range by the  
Navy during World War II. Because  
Nomans Land Island provides diverse  
habitats including intertidal, freshwater  
wetland, grassland, and shrubland  
habitats, it serves an important role for  
nesting landbirds and colonial  
waterbirds, and is a stopover for  
migratory birds and raptors, including  
the peregrine falcon.

We announce our decision and the  
availability of the FONSI for the final  
CCP for Nomans Land Island NWR in  
accordance with NEPA requirements.  
The FONSI is included as Appendix K  
in the final CCP. We completed a  
thorough analysis of impacts on the  
human environment, which we  
included in the EA/draft CCP.

Alternative C, as we described in the  
EA/draft CCP, is the foundation for the  
final CCP.

#### **Background**

The Administration Act, as amended  
by the Improvement Act, requires us to  
develop a CCP for each national wildlife  
refuge. The purpose for developing a  
CCP is to provide refuge managers with  
a 15-year plan for achieving refuge  
purposes and contributing toward the
