BILLING CODE 3410-90-M

POSTAL SERVICE

39 CFR Parts 111 and 121

Combined Mailings of Standard Mail and Periodicals Flats

AGENCY: Postal Service™.

ACTION: Final rule.

SUMMARY: The Postal Service is revising *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) 705.14 and 708.1.1 to provide a new option for mailers to combine Standard Mail® flats and Periodicals flats within the same bundle, when placed on pallets, and to combine

bundles of Standard Mail flats and bundles of Periodicals flats on the same pallet. The Postal Service is also amending the *Code of Federal Regulations* to reflect that the Standard Mail service standards apply to all Periodicals flats pieces entered in such combined mailings.

DATES: *Effective Date:* June 6, 2011.

FOR FURTHER INFORMATION CONTACT: Jonathan Leon at 202-268-7443, or Kevin Gunther at 202-268-7208.

SUPPLEMENTARY INFORMATION: The Postal Service is providing a new option for mailers to combine Standard Mail flats and Periodicals flats, when bundled and placed on pallets. Mailers using this option may combine different-class mailpieces within the same bundle (comail), or combine separate same-class bundles (of different classes) on the same pallet (copalletize) to maximize presorting or to qualify for deeper destination entry discounts. All mailpieces prepared under this option are required to be bundled and placed on pallets. Combining mailings enhances operational efficiencies within postal processing by allowing mailers to place mailpieces in bundles on pallets that might have been placed in sacks if prepared separately.

This new option does not change current DMM content and eligibility standards applicable to Periodicals and Standard Mail. Mailers using this option must continue to be required to meet the minimum volume standards for Standard Mail of 200 pieces or 50 pounds. Periodicals publications must be authorized or have a pending authorization to mail at Periodicals prices. The current processes that identify and isolate Periodicals origin mixed area distribution center (OMX) mailpieces, for integration into the First-Class Mail® mailstream, will not be available when combining Standard Mail flats and Periodicals flats on pallets. All mailpieces included in a combined mailing of Standard Mail and Periodicals flats on pallets must be machinable in accordance with DMM 301.3.0.

Mailers wishing to combine Standard Mail and Periodicals flats under this option are required to submit a request for authorization, in writing, to the Manager, Business Mailer Support (see DMM 608.8.1 for contact information).

All mailpieces included in a combined mailing of Periodicals flats and Standard Mail flats are required to meet the standards for full-service automation mailings. Intelligent Mail® barcodes placed on mailpieces prepared under this program are required to include Service Type Identifiers

appropriate for the class of mail of the individual mailpiece.

Participating mailers are required to present standardized electronic mailing documentation for each combined mailing, and at the time of mailing, the following additional documentation:

- An edition or version summary for all pieces in the mailing.
- A consolidated postage statement register and postage statement for each Periodicals publication in the combined mailing.
- A consolidated postage statement register and postage statement for each Standard Mail mailing in the combined mailing. Mailers may provide a single consolidated postage statement and postage statement register of all Standard Mail mailings if they are itemized.
- A register of Forms 8125, *Plant Verified Drop Shipment (PVDS) Verification and Clearance*, (PS 8125C) that consolidates all of the mailings to the destinations where the mail is entered.

When using this option, postage on all Standard Mail pieces must be paid through a permit imprint using a special postage payment system at the Post Office™ serving the mailer.

Postage for Periodicals may be paid through an advance deposit account or through a Centralized Account Payment System (CAPS) account. Participating mailers will be required to apportion the Periodicals bundle charge based on the number of Periodicals copies in the bundles and container charge based on the weight of the Periodicals portion of the container.

Mailers combining Standard Mail flats and Periodicals flats will not have the option to form ADC pallets or to dropship to ADCs. As a result, Periodicals publications included in combined mailings will not have access to DADC prices. Other specific prices for Periodicals flats in a combined mailing will be assessed as follows:

- The bundle prices applicable to the ADC container level will be applied to the ASF/NDC container level.
- The container prices applicable to the ADC pallet level will apply to the ASF/NDC pallet level.
- The bundle price applicable to the ADC bundle placed on the ADC container level will apply to mixed ADC bundles placed on mixed NDC pallets.
- The container price applicable to the ADC pallet level will also apply to the mixed NDC pallet level.

Standard Mail flats and Periodicals flats combined on pallets will be processed as Standard Mail; and the Periodicals mailpieces included within these combined mailings may receive

deferred handling. Periodicals mailpieces included within mailings of combined Standard Mail flats and Periodicals flats will be subject to the USPS service standards applicable to Standard Mail. These mailings must also be identified as Standard Mail when scheduling dropship appointments in the Facility Access and Shipment (FAST®) system.

Mailers combining Standard Mail flats and Periodicals flats on pallets must populate field 10, "Product or Publication Title or Names," of PS Form 8125 and/or field 11b, "Product Name/ID," of PS Form 8125C with "MIX COMAIL" when preparing dropship documentation for these mailings.

Any mixed NDC pallets prepared under this program are required to be entered at the NDC servicing the 3-digit ZIP® Code of the entry Post Office for the mailer's plant. Mailers combining Standard Mail flats and Periodicals flats on pallets may reallocate bundles under DMM 705.8.11 and 705.8.13.

Each Standard Mail and Periodicals mailpiece prepared under a combined mailing of Standard Mail flats and Periodicals flats are required to be identified as containing mixed classes through the use of an optional endorsement line (OEL) in accordance with these standards.

Mailers preparing combined mailings of Standard Mail flats and Periodicals flats are required to provide a written notification to each participating Periodicals publisher that describes the combined mailing process and the potential for pieces to receive deferred USPS handling. These notifications, signed and dated by the Periodicals publisher, are required to be retained by the mailer and must be available for review by the USPS upon request.

The Postal Service also revises 39 CFR Part 121.2 by adding a new item c to describe the USPS processing of Periodicals mailpieces included in combined mailings of Standard Mail flats and Periodicals flats, and specifying that Periodicals mailpieces included in these mailings will be assigned the service standards applicable to Standard Mail pieces.

15.0 Combining Standard Mail Flats and Periodicals Flats

15.1 Basic Standards

Authorized mailers may combine Standard Mail flats and Periodicals flats in a single mailing as follows:

a. Each mailpiece must meet the standards in 340 for Standard Mail and 707 for Periodicals. Periodicals publications must be authorized or pending original or additional entry at the office of mailing.

b. Mailers must prepare pieces in bundles on pallets.

c. Except for residual volume placed on a mixed NDC pallet under 15.4.1j, all pallets meeting minimum volume requirements must be dropshipped to the appropriate DNDC or DSCF.

d. Unless authorized by the local processing and distribution manager, any mixed NDC pallets prepared under this program must be entered at the NDC servicing the 3-digit ZIP Code of the entry Post Office for the mailer's plant.

e. All pieces included in a combined mailing of Standard Mail and Periodicals must meet the requirements

for full-service automation, as described in 23.0.

f. Mailers must pay all annual mailing fees at the office of mailing.

g. Each mailing must include at least 200 pieces or 50 pounds of Standard Mail.

h. All mailpieces combined within bundles, in accordance with 14.0, must be similar in size so as to create stable bundles. Bundles placed on pallets under this provision must be prepared to create stable pallets.

i. When residual pieces are included in a combined mailing of Standard Mail flats and Periodicals flats on pallets, these pieces must be placed on mixed NDC pallets and entered at the NDC serving the mailer's plant.

j. All mailpieces included in a combined mailing of Standard Mail flats and Periodicals flats on pallets must be machinable in accordance with 301.3.0.

15.1.1 Service Objectives

The Postal Service handles combined mailings of Standard Mail flats and Periodicals flats as Standard Mail. Periodicals flats included within mailings of combined Standard Mail flats and Periodicals flats are subject to the USPS service standards applicable to Standard Mail.

15.1.2 Postage Payment

Postage for all Standard Mail pieces must be paid with permit imprint using a special postage payment system in 2.0 through 4.0 at the Post Office serving the mailer's plant. Postage for Periodicals may be paid through an advance deposit account or through a Centralized Account Payment System (CAPS) account.

15.1.3 Documentation

Mailers must present standardized electronic documentation according to 708.1.0. This documentation must accurately reflect the final piece count in the combined mailing. In addition, mailers must provide:

a. An edition or version summary for all pieces in the mailing. The summary may be part of the USPS qualification report and must include version ID, product or edition code, class of mail, piece weight of each version, and number of pieces by version; and for Periodicals, USPS or permit number (or pending permit number), issue date, and advertising percentage.

b. A consolidated postage statement register and postage statement for each Periodicals publication in the combined mailing.

c. A consolidated postage statement register and postage statement for each Standard Mail mailing in the combined

mailing. Mailers may provide a single consolidated postage statement and a consolidated postage statement register of all Standard Mail mailings if they are itemized.

d. A register of Forms 8125 (or PS 8125C) that consolidates all of the mailings into the destinations where the mail is dropshipped.

e. Documentation to support zones and bundle totals, if requested.

f. When requested, a copy of a notification document signed and dated by the Periodicals publisher, acknowledging their participation in a combined mailing of Standard Mail and Periodicals and the potential for their mailpieces to receive deferred USPS handling.

g. Any additional documentation to support postage payment system records, if requested.

15.1.4 Authorization

A mailer must submit a written request to the manager, Business Mailer Support (see 608.8.1 for address) to combine mailings of Standard Mail flats and Periodicals flats. The request must show the mailer's name and address, the mailing office, evidence of authorization to mail using a special postage payment system under 2.0 through 4.0, procedures for combining the mailing, the expected date of first mailing, quality control procedures, and a sample of all supporting mailing documentation, including postage statements and the USPS Qualification Report. Business Mailer Support will review the documentation and provide written authorization. A mailer may terminate an authorization at any time by written notice to the postmaster of the office serving the mailer's location. Business Mailer Support may terminate an authorization by written notice if the mailer does not meet the standards.

15.1.5 Price Eligibility

Apply prices based on the standards in 340 for Standard Mail. Prices are based on the standards in 707 for Periodicals and as modified under the standards for this program.

15.1.6 Piece Prices

Apply piece prices based on the bundle level. Pieces contained within mixed class bundles may claim prices based on the presort level of the bundle.

15.1.7 Applying the Periodicals Bundle Charge

Apply bundle charges as follows:

- Calculate the percentage of Periodicals copies in a bundle.
- Convert the percentage to four decimal places, rounding off if

necessary (for example, convert 20.221% to 0.2022, or 20.226% to 0.2023). Multiply by the applicable bundle charge.

c. Allocate the resulting charge across the Periodicals titles and editions based on the number of copies of each in the bundle.

15.1.8 Applying the Periodicals Container Charge

Apply container charges to pallets as follows:

a. Calculate the percentage of the weight of Periodicals copies on each pallet.

b. Convert the percentage to four decimal places, rounding off if necessary (for example, convert 20.221% to 0.2022, or 20.226% to 0.2023). Multiply by the applicable container charge.

c. Allocate the resulting charge across the Periodicals titles and editions based on the number of copies of each on the pallet.

15.1.9 Other Periodicals Pricing

Other prices for Periodicals flats in a combined mailing of Standard Mail and Periodicals flats on pallets will be assessed as follows:

a. The bundle prices applicable to the ADC container level will be applied to the ASF/NDC container levels.

b. The container prices applicable to the ADC pallet level will apply to the ASF/NDC pallet levels.

15.1.10 Bundle Reallocation To Protect the SCF or NDC Pallet

Mailers may reallocate bundles under 8.11 or 8.13 to protect the SCF or NDC pallet.

15.2 Combining Standard Mail Flats and Periodicals Flats in the Same Bundle

SUPPLEMENTARY INFORMATION: The supplementary information is organized in the following order:

- What does this action do?
- What is the authority for delegation?
- What does delegation accomplish?
- What has been delegated?
- What has not been delegated?
- List of Delegation Tables
 - Table I—NSPS, 40 CFR part 60
 - Table II—NESHAP, 40 CFR part 61
 - Table III—NESHAP, 40 CFR part 63

What does this action do?

The EPA is providing notice of an update to its delegable authority for implementation and enforcement of the Federal standards shown in the tables below to the States of Iowa, Kansas,

Missouri, and Nebraska. This action updates the delegation tables previously published at 72 FR 60561 (October 25, 2007). The EPA has established procedures by which these agencies are automatically delegated the authority to implement the standards when they adopt regulations which are identical to the Federal standards. We then periodically provide notice of the new and revised standards for which delegation has been given. This notice does not affect or alter the status of the listed standards under State or Federal law.

What is the authority for delegation?

1. Section 111(c)(1) of the Clean Air Act (CAA) authorizes EPA to delegate authority to any State agency which submits adequate regulatory procedures for implementation and enforcement of the NSPS program. The NSPS are codified at 40 CFR part 60.

2. Section 112(l) of the CAA and 40 CFR part 63, subpart E, authorizes the EPA to delegate authority to any State or local agency which submits adequate regulatory procedures for implementation and enforcement of emission standards for hazardous air pollutants. The hazardous air pollutant standards are codified at 40 CFR parts 61 and 63, respectively.

What does delegation accomplish?

Delegation confers primary responsibility for implementation and enforcement of the listed standards to the respective State and local air agencies. However, EPA also retains the concurrent authority to enforce the standards.

What has been delegated?

Tables I, II, and III below list the delegated standards. Each item listed in the Subpart column has two relevant dates listed in each column for each State. The first date in each block is the reference date to the CFR contained in the State rule. In general, the State or local agency has adopted the applicable standard through the date as noted in the table. The second date is the most recent effective date of the State agency rule for which the EPA has granted the delegation. This notice specifically addresses revisions to the columns for Iowa, Kansas, Missouri, and Nebraska and the local agencies of Lincoln-Lancaster County, Nebraska, and the city of Omaha, Nebraska.

What has not been delegated?

1. The EPA regulations effective after the first date specified in each block have not been delegated, and authority
