For further information, see Secretary's Memorandum 1066-001, "Establishment of the Office of the Chief Scientist." OCS is headed by a Director that reports to the Under Secretary for REE. The Under Secretary for REE, as the Chief Scientist, is also responsible for coordinating the agricultural research, education, and extension activities of the Department pursuant to sections 251(c)(2) and 251(d)(2) of the Reorganization Act (7

U.S.C. 6971(c)(2), (d)(2)). This rule also adds a new 7 CFR 2.69 to reflect the establishment of OCS and to delegate to the Director of OCS the authority to assist the Chief Scientist in carrying out its responsibilities.

BILLING CODE 3410-90-M

POSTAL SERVICE

39 CFR Parts 111 and 121

Combined Mailings of Standard Mail and Periodicals Flats

AGENCY: Postal Service™.

ACTION: Final rule.

SUMMARY: The Postal Service is revising *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) 705.14 and 708.1.1 to provide a new option for mailers to combine Standard Mail® flats and Periodicals flats within the same bundle, when placed on pallets, and to combine

bundles of Standard Mail flats and bundles of Periodicals flats on the same pallet. The Postal Service is also amending the *Code of Federal Regulations* to reflect that the Standard Mail service standards apply to all Periodicals flats pieces entered in such combined mailings.

DATES: *Effective Date:* June 6, 2011.

FOR FURTHER INFORMATION CONTACT: Jonathan Leon at 202-268-7443, or Kevin Gunther at 202-268-7208.

SUPPLEMENTARY INFORMATION: The Postal Service is providing a new option for mailers to combine Standard Mail flats and Periodicals flats, when bundled and placed on pallets. Mailers using this option may combine different-class mailpieces within the same bundle (comail), or combine separate same-class bundles (of different classes) on the same pallet (copalletize) to maximize presorting or to qualify for deeper destination entry discounts. All mailpieces prepared under this option are required to be bundled and placed on pallets. Combining mailings enhances operational efficiencies within postal processing by allowing mailers to place mailpieces in bundles on pallets that might have been placed in sacks if prepared separately.

This new option does not change current DMM content and eligibility standards applicable to Periodicals and Standard Mail. Mailers using this option must continue to be required to meet the minimum volume standards for Standard Mail of 200 pieces or 50 pounds. Periodicals publications must be authorized or have a pending authorization to mail at Periodicals prices. The current processes that identify and isolate Periodicals origin mixed area distribution center (OMX) mailpieces, for integration into the First-Class Mail® mailstream, will not be available when combining Standard Mail flats and Periodicals flats on pallets. All mailpieces included in a combined mailing of Standard Mail and Periodicals flats on pallets must be machinable in accordance with DMM 301.3.0.

Mailers wishing to combine Standard Mail and Periodicals flats under this option are required to submit a request for authorization, in writing, to the Manager, Business Mailer Support (see DMM 608.8.1 for contact information).

All mailpieces included in a combined mailing of Periodicals flats and Standard Mail flats are required to meet the standards for full-service automation mailings. Intelligent Mail® barcodes placed on mailpieces prepared under this program are required to include Service Type Identifiers

appropriate for the class of mail of the individual mailpiece.

Participating mailers are required to present standardized electronic mailing documentation for each combined mailing, and at the time of mailing, the following additional documentation:

- An edition or version summary for all pieces in the mailing.
- A consolidated postage statement register and postage statement for each Periodicals publication in the combined mailing.
- A consolidated postage statement register and postage statement for each Standard Mail mailing in the combined mailing. Mailers may provide a single consolidated postage statement and postage statement register of all Standard Mail mailings if they are itemized.
- A register of Forms 8125, *Plant Verified Drop Shipment (PVDS) Verification and Clearance*, (PS 8125C) that consolidates all of the mailings to the destinations where the mail is entered.

When using this option, postage on all Standard Mail pieces must be paid through a permit imprint using a special postage payment system at the Post Office™ serving the mailer.

Postage for Periodicals may be paid through an advance deposit account or through a Centralized Account Payment System (CAPS) account. Participating mailers will be required to apportion the Periodicals bundle charge based on the number of Periodicals copies in the bundles and container charge based on the weight of the Periodicals portion of the container.

Mailers combining Standard Mail flats and Periodicals flats will not have the option to form ADC pallets or to dropship to ADCs. As a result, Periodicals publications included in combined mailings will not have access to DADC prices. Other specific prices for Periodicals flats in a combined mailing will be assessed as follows:

- The bundle prices applicable to the ADC container level will be applied to the ASF/NDC container level.
- The container prices applicable to the ADC pallet level will apply to the ASF/NDC pallet level.
- The bundle price applicable to the ADC bundle placed on the ADC container level will apply to mixed ADC bundles placed on mixed NDC pallets.
- The container price applicable to the ADC pallet level will also apply to the mixed NDC pallet level.

Standard Mail flats and Periodicals flats combined on pallets will be processed as Standard Mail; and the Periodicals mailpieces included within these combined mailings may receive
