As it relates to any qualifying facility filings, the notices of self-certification [or self-recertification] listed above, do not institute a proceeding regarding qualifying facility status. A notice of self-certification [or self-recertification] simply provides notification that the entity making the filing has determined the facility named in the notice meets the applicable criteria to be a qualifying facility. Intervention and/or protest do not lie in dockets that are qualifying facility self-certifications or self-recertifications. Any person seeking to challenge such qualifying facility status may do so by filing a motion pursuant to 18 CFR 292.207(d)(iii). Intervention and protests may be filed in response to notices of qualifying facility dockets other than self-certifications and self-recertifications.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Southeastern Power Administration

Cumberland System of Projects

AGENCY: Southeastern Power Administration, DOE.

ACTION: Notice of proposed rates, public forum, and opportunities for public review and comment.

SUMMARY: Southeastern Power Administration (Southeastern) proposes to revise existing schedules of rates and charges applicable to the sale of power from the Cumberland System of Projects effective for a 2-year period, October 1, 2011, through September 30, 2013.

Interested persons may review the rates and supporting studies and submit written comments. Southeastern will evaluate all comments received in this process.

DATES: Written comments are due on or before June 6, 2011. A public information and comment forum will be held at 10 a.m., May 3, 2011. Persons desiring to attend the forum should notify Southeastern at least seven (7) days before the forum is scheduled. Persons desiring to speak at the forum should notify Southeastern at least three (3) days before the forum is scheduled, so that a list of forum participants can be prepared. Others may speak if time permits. If Southeastern has not been notified by close of business on April 26, 2011, that at least one person intends to be present at the forum, the forum will be canceled with no further notice.

ADDRESSES: The forum will be held at the Embassy Suites Nashville—at Vanderbilt, 1811 Broadway, Nashville, Tennessee 37203 Phone (615) 320-8899. Written comments should be submitted to: Administrator, Southeastern Power Administration, Department of Energy, 1166 Athens Tech Road, Elberton, GA 30635-6711.

FOR FURTHER INFORMATION CONTACT: J. W. Smith, Southeastern Power Administration, Department of Energy, 1166 Athens Tech Road, Elberton, Georgia 30635-6711, (706) 213-3800.

SUPPLEMENTARY INFORMATION: On May 6, 2009, the Federal Energy Regulatory

Commission (FERC) confirmed and approved on a final basis, Wholesale Power Rate Schedules CBR-1-G, CSI-1-G, CEK-1-G, CM-1-G, CC-1-H, CK-1-G, and CTV-1-G applicable to Cumberland System of Projects power for a period ending September 30, 2013 (127 FERC 62,115). On May 17, 2010 Rate Schedule CTVI-1 was approved by the Administrator, Southeastern Power Administration, for a period ending September 30, 2013.

Discussion: The marketing policy for the Cumberland System of Projects provides peaking capacity, along with 1500 hours of energy annually with each kilowatt of capacity, to customers outside the Tennessee Valley Authority (TVA) transmission system. Due to restrictions on the operation of the Wolf Creek Project imposed by the U.S. Army Corps of Engineers as a precaution to prevent failure of the dam, Southeastern is not able to provide peaking capacity to these customers. Southeastern implemented an Interim Operating Plan for the Cumberland System to provide these customers with energy that did not include capacity.

The Corps of Engineers has provided Southeastern with a plan of replacements for the Cumberland System. With escalation, the total cost of these planned replacements is \$843,000,000.

Existing rate schedules are predicated upon a July 2008 repayment study and other supporting data contained in FERC docket number EF08-3022-000. The revenue requirement in this study is \$50,400,000. An updated repayment study, dated January 2011, shows that rates are not adequate to meet repayment criteria. Energy delivered in the Cumberland System in Fiscal Years 2008, 2009, and 2010 was 73 percent of forecast. As a result, total revenues were about 19 percent less than forecast. In addition, Corps' Operation & Maintenance Expense was about 33 percent higher than forecast.

A revised repayment study demonstrates that a revenue increase to \$64,600,000 per year will meet repayment criteria. The increase in the annual revenue requirement is \$14,200,000 per year, or about 28 percent.

Southeastern is proposing three rate scenarios per rate schedule. All of the rate alternatives have a revenue requirement of \$64,600,000.

The first rate scenario includes the rates necessary to recover costs under the Interim Operating Plan. These rates are based on energy. The rate would be 20.87 mills per kilowatt-hour for all Cumberland energy. The customers would pay a ratable share of the
