

G. Executive Order 13045, Protection of Children From Environmental Health Risks and Safety Risks

EPA interprets Executive Order 13045 (62 FR 19885, April 23, 1997) as applying only to those regulatory actions that concern health or safety risks, such that the analysis required under section 5–501 of the Executive Order has the potential to influence the regulation. This rule is not subject to Executive Order 13045, because it approves a State rule implementing a Federal standard.

H. Executive Order 13211, Actions That Significantly Affect Energy Supply, Distribution, or Use

This rule is not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001) because it is not a significant regulatory action under Executive Order 12866.

I. National Technology Transfer and Advancement Act

Section 12 of the National Technology Transfer and Advancement Act (NTTAA) of 1995 requires Federal agencies to evaluate existing technical standards when developing a new regulation. To comply with NTTAA, EPA must consider and use “voluntary consensus standards” (VCS) if available and applicable when developing programs and policies unless doing so would be inconsistent with applicable law or otherwise impractical.

The EPA believes that VCS are inapplicable to this action. Today’s action does not require the public to perform activities conducive to the use of VCS.

J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Population

Executive Order 12898 (59 FR 7629 (Feb. 16, 1994)) establishes Federal executive policy on environmental justice. Its main provision directs Federal agencies, to the greatest extent practicable and permitted by law, to make environmental justice part of their mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of their programs, policies, and activities on minority populations and low-income populations in the United States.

EPA lacks the discretionary authority to address environmental justice in this rulemaking.

Data Requirements for Antimicrobial Pesticides; Notification to the Secretaries of Agriculture and Health and Human Services

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notification to the Secretaries of Agriculture and Health and Human Services.

SUMMARY: This document notifies the public that the Administrator of EPA has forwarded to the Secretary of Agriculture and the Secretary of Health and Human Services a draft final rule under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). EPA is codifying a separate listing of data requirements in the Code of Federal Regulations for the registration of antimicrobial pesticide products. These data requirements reflect current scientific knowledge and current Agency regulatory practices. Besides providing the regulated community with clearer and more transparent information, the updated data requirements further enhance EPA’s ability to make regulatory decisions about the human health and environmental fate and effects of antimicrobial pesticide products.

Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be interested in this action. If you have any questions regarding this action, consult one of the persons listed under **FOR FURTHER INFORMATION CONTACT**.

II. What action is EPA taking?

If the Secretary does not comment in writing within 15 days after receiving the draft final rule, the Administrator may sign the final rule for publication in the

Federal Register anytime after the 15-day period.

Fluopicolide; Pesticide Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes tolerances for residues of the fungicide, fluopicolide [2,6-dichloro-N-[[3-chloro-5-(trifluoromethyl)-2-pyridinyl]methyl]benzamide], including its metabolites and degradates. Compliance with the tolerance levels specified is to be determined by measuring only fluopicolide in or on the commodity. The fluopicolide metabolite, 2,6-dichlorobenzamide (BAM), is regulated with its own set of

tolerances. This regulation establishes tolerances for residues of fluopicolide and its metabolites in or on multiple commodities which are identified and discussed later in this document. Valent U.S.A. Corporation requested these tolerances under the Federal Food, Drug, and Cosmetic Act (FFDCA).

DATES: This regulation is effective April 20, 2011. Objections and requests for hearings must be received on or before June 20, 2011, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).
