Analysis of Comments Received

On March 21, 2011, FMC submitted comments stating that it fully supports our *Preliminary Results*. Because no other party commented on the *Preliminary Results*, we have adopted the *Preliminary Results* as the final results, including the margin determined therein.⁴

Final Results of Review

We find that the following weighted-average dumping margin exists for the July 1, 2009, through June 30, 2010, POR:

Manufacturer/Exporter	Margin (percent)
PRC-Wide Entity *	119.02

*The PRC-wide entity includes United Initiators.

Assessment Rates

The Department has determined, and U.S. Customs and Border Protection (“CBP”) shall assess, antidumping duties on all appropriate entries covered by this review. The Department intends to issue assessment instructions to CBP 15 days after the publication date of the final results of this review.

Cash Deposit Requirements

The following deposit requirements will be effective upon publication of this notice of final results of administrative review for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication, as provided by section 751(a)(2)(C) of the Act: (1) For the PRC-wide entity (which includes United Initiators), the cash deposit rate will be the PRC-wide rate established in these final results of review; (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the PRC-wide rate;

and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporters that supplied that non-PRC exporter. These deposit requirements shall remain in effect until further notice.

Notification of Interested Parties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary’s presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties. This notice also serves as a reminder to parties subject to administrative protective order (“APO”) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation that is subject to sanction.

This notice of the final results of this administrative review is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: May 10, 2011.

Ronald K. Lorentzen,
Deputy Assistant Secretary for Import Administration.

Certain Polyester Staple Fiber From the People’s Republic of China: Full Extension of Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (“Department”) is extending the time limit for the preliminary results of the

administrative review of certain polyester staple fiber from the People’s Republic of China (“PRC”). This review covers the period June 1, 2009, through May 31, 2010.

DATES: *Effective Date:* May 17, 2011.

FOR FURTHER INFORMATION CONTACT: Jerry Huang or Steven Hampton, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-4047 or (202) 482-0116, respectively.

Background

On July 28, 2010, the Department published in the **Federal Register** a notice of initiation of the administrative review of the antidumping duty order on certain polyester staple fiber from the PRC. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocations in Part*, 75 FR 44224 (July 28, 2010). The preliminary results of this review are currently due no later than May 31, 2011.

Statutory Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (“the Act”), requires the Department to issue the preliminary results within 245 days after the last day of the anniversary month of an order for which a review is requested and the final results within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary determination to a maximum of 365 days after the last day of the anniversary month. Although we previously extended the 245-day period by 90 days for completion of the review, we have determined that completion of the preliminary results of this review within the extended 335-day period is not practicable because the Department needs additional time to complete verification reports.

Because it is not practicable to complete this review within the extended 335-day time period, we are fully extending the time limit for completion of the preliminary results of this administrative review by 30 days. The preliminary results will now be due no later than June 30, 2011. The final results continue to be due 120 days after the publication of the preliminary results.

⁴ See *id.*

We are issuing and publishing this notice in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: May 10, 2011.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a revision of a current information collection.

Marine recreational anglers are surveyed for catch and effort data, fish biology data, and angler socioeconomic characteristics. These data are required to carry out provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), as amended, regarding conservation and management of fishery resources.

Marine recreational fishing catch and effort data are currently collected

through a combination of telephone surveys and on-site intercept surveys with recreational anglers. Recent amendments to the Magnuson-Stevens Fishery Conservation and Management Act (MSA) require the development of an improved data collection program for recreational fisheries. To meet the requirements of MSA, NOAA Fisheries is developing pilot studies to test alternative approaches for surveying recreational anglers. Studies will test the effectiveness of alternative sample frames and data collection methods for contacting anglers and collecting recreational fishing data. The goal of these studies is to develop more efficient and accurate methods for estimating marine recreational fishing catch and effort.

II. Method of Collection

Information will be collected through telephone and mail interviews.
