

SUPPLEMENTARY INFORMATION: The items of discussion in the workshop's agenda are as follows:

The Groundfish Oversight Committee, in conjunction with the Groundfish Advisory Panel, Plan Development Team, and socio-economic experts of the Council's Scientific and Statistical Committee, will hold a meeting on the subject of accumulation limits for the Northeast Multispecies Fishery Management Plan (FMP). This meeting will be in a facilitated format and will not follow the Committee's standard decision-making process. The purpose of the workshop is to explore issues associated with accumulation limits and relevant fleet diversity measures. This group will not revisit the allocation structure for Potential Sector Contributions determined in Amendment 16 to the Northeast Multispecies FMP. Recommendations on a potential action to manage excessive shares in the fishery will be developed for the Council to consider at its June 2011 meeting.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard (see **ADDRESSES**) at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

DEPARTMENT OF ENERGY

Notice of Intent To Prepare an Environmental Impact Statement and Notice of Potential Floodplain and Wetlands Involvement for the FutureGen 2.0 Program

AGENCY: Department of Energy.

ACTION: Notice of Intent and Notice of Potential Floodplain and Wetlands Involvement.

SUMMARY: The U.S. Department of Energy (DOE or the Department) announces its intent to prepare an Environmental Impact Statement (EIS) pursuant to the National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*), the Council on

Environmental Quality's (CEQ) NEPA regulations (40 CFR Parts 1500-1508), and DOE's NEPA implementing procedures (10 CFR Part 1021) to assess the potential environmental impacts of DOE's proposed action: providing approximately \$1 billion in Federal funding (most of it appropriated by the American Recovery and Reinvestment Act, or "ARRA") for the FutureGen 2.0 program. DOE has prepared this Notice of Intent (NOI) to inform interested parties of the pending EIS and to invite public comments on the proposed action, including: (1) The range of environmental issues, (2) the alternatives to be analyzed, and (3) the impacts to be considered in the EIS. The NOI also provides notice in accordance with 10 CFR Part 1022 (DOE's regulations for compliance with floodplain and wetland review requirements) that the proposed project may involve potential impacts to floodplains and wetlands.

The FutureGen 2.0 program would provide financial assistance for the repowering of an existing electricity generator with clean coal technologies integrated with a pipeline that would transport carbon dioxide (CO₂) to a sequestration site where it would be injected and stored in a deep geologic formation. DOE entered into separate cooperative agreements with Ameren Energy Resources (Ameren) and with the FutureGen Alliance (the Alliance) that define DOE's proposed action. This program consists of an Oxy-Combustion Large Scale Test undertaken by Ameren at its Meredosia Power Station in west central Illinois and a Pipeline and CO₂ Storage Reservoir undertaken by the Alliance. In addition, the Alliance would construct and operate facilities for research, training, and visitors in the vicinity of the sequestration site. The Alliance has identified its preferred sequestration site in Morgan County, Illinois, and two alternative sites, one in Christian County, Illinois and one in Douglas County, Illinois. The program would provide performance and emissions data as well as establish operating and maintenance experience that would facilitate future large-scale commercial deployment of these technologies. DOE would provide technical and programmatic guidance to Ameren and the Alliance and oversee activities for compliance with the terms of the cooperative agreements. DOE is responsible for NEPA compliance activities.

DOE encourages government agencies, private-sector organizations, and the general public to participate in the FutureGen 2.0 program through the NEPA process. DOE will consult with

interested Native American Tribes and Federal, state, regional and local agencies during preparation of the EIS. Further, DOE invites agencies with jurisdiction by law or special expertise to participate as cooperating agencies in the preparation of this EIS.

DATES: DOE invites comments on the proposed scope and content of the EIS from all interested parties. To ensure consideration in the preparation of the EIS, comments must be received by June 22, 2011. DOE will consider late comments to the extent practicable. In addition to receiving comments in writing and by e-mail [See **ADDRESSES** below], DOE will conduct public scoping meetings during which government agencies, private-sector organizations, and the general public are invited to present oral and written comments with regard to DOE's proposed action, alternatives, and potential impacts of the proposed FutureGen 2.0 program. DOE will consider these comments in developing the EIS. Public scoping meetings will be held on June 7, 8, and 9, 2011 [See "Public Scoping Process" under **SUPPLEMENTARY INFORMATION** below].

ADDRESSES: Written comments on the scope of the EIS and requests to participate in the public scoping meetings should be addressed to: Mr. Cliff Whyte, U.S. Department of Energy, National Energy Technology Laboratory, P.O. Box 880, Morgantown, West Virginia 26507-0880. Individuals and organizations who would like to provide oral or written comments should contact Mr. Whyte by mail at the above address; telephone (toll-free) 1-877-338-5689; fax 304-285-4403; or electronic mail (FG2.EIS@netl.doe.gov).

Oral comments will be heard during the formal portion of the scoping meetings [See "Public Scoping Process" under **SUPPLEMENTARY INFORMATION** below]. Various displays and other information about DOE's NEPA process and the FutureGen 2.0 program will be available, and representatives from DOE and the project partners will be present at an informal session to discuss the FutureGen 2.0 program and the EIS process.

FOR FURTHER INFORMATION CONTACT: For further information about this project, contact Mr. Whyte as described above. For general information about the DOE NEPA process, please contact Ms. Carol M. Borgstrom, Director, Office of NEPA Policy and Compliance (GC-54), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585; telephone (202-586-4600); fax (202-586-7031); or leave a toll-free message (1-800-472-2756).
