

Due to the fact that this exemption application is specific to the Independence Day celebrations, FMCSA must obtain, and complete its review of, comments in time to issue a final determination before the 4th of July holiday. This is not to say that the Agency has prejudged the outcome of this process, but approval of the application is one possible result. Granting the exemption after the long holiday weekend would reduce its value considerably. FMCSA is therefore adopting a comment period of 21 days instead of the 30 days normally provided. We do not believe this

imposes any particular hardship on potential commenters, since this application involves the same issues as those raised by similar exemption applications submitted by the pyrotechnic industry in previous years. Commenters who have an interest in such matters are likely to be familiar with the issues and arguments surrounding a fireworks exemption, and will be able to formulate their responses within a 21-day comment period.

Therefore FMCSA, in accordance with 49 U.S.C. 31315(b)(4) and 31136(e), requests public comments on APA's recent request for exemption from the

14-hour rule for the 9 motor carriers listed in the appendix to this notice. FMCSA will consider all comments received by close of business on June 14, 2011. All comments will be available for examination in the docket listed under the **ADDRESSES** section of this notice. The Agency will consider to the extent practicable comments received in the public docket after the closing date of the comment period.

Issued on: May 19, 2011.

Director, Office of Policy Plan and Regulations.
