

the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: South American Cactus Moth; Quarantine and Regulations.

OMB Control Number: 0579-0337.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701—*et seq.*), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant pests to prevent the introduction of plant pests into the United States or their dissemination within the United States. The Animal and Plant Health Inspection Service (APHIS) amended the domestic quarantined regulations to establish regulations to restrict the interstate movement of South American cactus moth host material including nursery stock and plant pests for consumption, from infested areas of the United States. This action helps to prevent the artificial spread of South American cactus moth into non-infested areas of the United States.

Need and Use of the Information: APHIS will collect information using Certificate (PPQ 540) and Compliance Agreement (PPQ 519). The certificate is used for domestic movement of treated articles relating to quarantines. Certificates are issued for regulated articles when an inspector or other person authorized to issue certificates finds that the articles have met the conditions of the regulations and may be safely moved interstate without further restrictions. The Compliance agreements are provided for the convenience of persons who are involved in the growing, handling, or moving of regulated articles from quarantined areas. Without this information, APHIS could not provide an effective domestic quarantine program to prevent the artificial spread of the South American cactus moth within the United States.

Description of Respondents: Business or other for-profit; State, Local or Tribal Government.

Number of Respondents: 6.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 10.

Ruth Brown,

Departmental Information Collection Clearance Officer.

[Docket No. APHIS-2011-0033]

Notice of Request for Extension of Approval of an Information Collection

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with regulations to protect endangered species of terrestrial plants and with regulations concerning procedures related to the forfeiture of plants or other property.

DATES: We will consider all comments that we receive on or before July 25, 2011.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/fdmspublic/component/main?main=DocketDetail&d=APHIS-2011-0033> to submit or view comments and to view supporting and related materials available electronically.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS-2011-0033, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

Available supporting documents and any comments we receive on this docket may be viewed on the Regulations.gov Web site (follow the link above and click "View Docket Folder") or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: For information on regulations to protect endangered species of terrestrial plants and concerning forfeiture procedures, contact Dr. John Veremis, National CITES Coordinator, Plant Safeguarding

and Pest Identification, PPQ, APHIS, 4700 River Road Unit 52, Riverdale, MD 20737; (301) 734-8891. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION:

Title: Endangered Species Regulations and Forfeiture Procedures.

OMB Number: 0579-0076.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), the United States Department of Agriculture (USDA) is responsible for enforcing provisions of the Act and the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) that pertain to the importation, exportation, or reexportation of plants.

As part of this mission, the Animal and Plant Health Inspection Service (APHIS), USDA, administers regulations at 7 CFR part 355, "Endangered Species Regulations Concerning Terrestrial Plants." In accordance with these regulations, any individual, nursery, or other entity wishing to engage in the business of importing, exporting, or reexporting terrestrial plants listed in the CITES regulations at 50 CFR 17.12 or 23.23 must obtain a protected plant permit from APHIS. Such entities include importers, exporters, or reexporters who sell, barter, collect, or otherwise exchange or acquire terrestrial plants as a livelihood or enterprise engaged in for gain or profit. The requirement does not apply to persons engaged in business merely as carriers or customhouse brokers.

To obtain a protected plant permit, entities must complete an application (PPQ Form 621) and submit it to APHIS for approval. When a permit has been issued, the plants covered by the permit may be imported into the United States, exported, or reexported, provided they are accompanied by documentation required by the regulations and provided all other conditions of the regulations are met.

Effectively regulating entities who are engaged in the business of importing, exporting, or reexporting endangered species of terrestrial plants requires the use of this application process, as well as the use of other information collection activities, such as notifying APHIS of the impending importation, exportation, or reexportation of the plants, marking containers used for the importation, exportation, and reexportation of the plants, and creating

and maintaining records of importation, exportation, and reexportation.

APHIS also administers regulations at 7 CFR part 356, "Forfeiture Procedures," which sets out procedures for the forfeiture of plants or other property by entities in violation of the Endangered Species Act or the Lacey Act Amendments of 1981 (16 U.S.C. 3371 *et seq.*). Entities whose property is subject to forfeiture may file with APHIS a waiver of forfeiture procedures, a claim of ownership or interest in the seized property and a bond, a request for bonded release of property, a petition for remission or mitigation of forfeiture, or a request for release of property.

The information provided by these information collection activities is critical to APHIS' ability to carry out its responsibilities under the Endangered Species Act and the Lacey Act. These responsibilities include monitoring importation, exportation, and reexportation activities involving endangered species of plants, as well as the investigation of possible violations and the forfeiture of plants or other property.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.0929305 hours per response.

Respondents: U.S. importers and exporters of endangered species.

Estimated annual number of respondents: 16,579.

Estimated annual number of responses per respondent: 4.9016828.

Estimated annual number of responses: 81,265.

Estimated total annual burden on respondents: 7,552 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 18th day of May 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

Animal and Plant Health Inspection Service

[Docket No. APHIS-2011-0026]

Notice of Request for Extension of Approval of an Information Collection; Accreditation of Nongovernment Facilities

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with accrediting nongovernment facilities to perform services related to the export of plants or plant products.

DATES: We will consider all comments that we receive on or before July 25, 2011.

ADDRESSES: *You may submit comments by either of the following methods:*

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/fdmspublic/component/main?main=DocketDetail&d=APHIS-2011-0026> to submit or view comments and to view supporting and related materials available electronically.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS-2011-0026, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

Available supporting documents and any comments we receive on this docket may be viewed on the *Regulations.gov*

Web site (follow the link above and click "View Docket Folder") or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: For information on the accreditation program, contact Mr. Michael Ward, Senior Accreditation Program Manager, Phytosanitary Issues Management, PPQ, APHIS, 4700 River Road Unit 140, Riverdale, MD 20737; (301) 734-5227. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION:

Title: Accreditation of Nongovernment Facilities.

OMB Number: 0579-0130.

Type of Request: Extension of approval of an information collection.

Abstract: The Animal and Plant Health Inspection Service (APHIS), among other things, provides export certification services to assure other countries that the plants and plant products they are receiving from the United States are free of plant pests specified by the receiving country. This activity is authorized by the Plant Protection Act (7 U.S.C. 7701 *et seq.*).

The export certification regulations, which are contained in 7 CFR part 353, describe the procedures for obtaining certification for plants and plant products offered for export or reexport. Our regulations do not require that we engage in export certification activities; we perform this work as a service to exporters who are shipping plants or plant products to countries that require phytosanitary certification as a condition of entry.

After assessing the condition of the plants or plant products intended for export (*i.e.*, after conducting a phytosanitary inspection), an inspector will issue an internationally recognized phytosanitary certificate, a phytosanitary certificate for reexport, or an export certificate for processed plant products. Laboratory testing of plant or plant product samples is an important component of the certification process.

The regulations allow nongovernment facilities (such as commercial
