SUPPLEMENTARY INFORMATION:

On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as Part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Under Subpart D of CROMERR, state, tribe or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D also provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, in § 3.1000(b) through (e) of 40 CFR Part 3, Subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the Subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable Subpart D requirements.

On December 9, 2010, the Ohio Environmental Protection Agency (EPA) submitted a consolidated application for its eBusiness Center electronic document receiving system for revision/modification of its EPA-authorized programs under title 40 CFR. EPA reviewed Ohio EPA's request to revise its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program

revisions/modifications set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve Ohio's request for revision to its Part 403-General Pretreatment Regulations for Existing and New Sources of Pollution EPA-authorized programs for electronic reporting of Industrial and Publicly Owned Treatment Works reports under 40 CFR part 403 is being published in the **Federal Register**.

Ohio EPA was notified of EPA's determination to approve its application with respect to the authorized program listed above.

Dated: May 20, 2011.
