

Care Act. Due to the complexity of the issue, the Committee requested an additional meeting for a final review of the key decisions and draft report prior to its submission to the Secretary by October 31, 2011. The logistical challenges of scheduling an additional meeting after it was requested in August 2011 hindered an earlier publication of this meeting notice.

Dated: September 27, 2011.

SUPPLEMENTARY INFORMATION:

I. Background

This proposed rule implements a recommendation of a bilateral integrated product team on cost or pricing data, including representatives from the U.S. Government and Canada.

With some exceptions, as provided at DFARS 225.870-1(c), the Canadian Commercial Corporation awards and administers DoD contracts with contractors located in Canada.

DoD has waived the requirement for the Canadian Commercial Corporation and its subcontractors to submit certified cost or pricing data (see DFARS 215.403-1(c)(4)(C)). However, the requirement to submit data other than certified cost or pricing data has not been waived for the Canadian Commercial Corporation and its subcontractors. The purpose of this rule is to clarify the requirement to submit data other than certified cost or pricing data.

II. Discussion and Analysis

Effective on October 1, 2010, the definitions in the Federal Acquisition

Regulation (FAR) relating to cost or pricing data were revised (76 FR 53135, published August 30, 2010). The final rule under FAR Case 2005-036, FAC 2005-45, redefined “cost or pricing data” to mean all cost or pricing data and added a new term for “certified cost or pricing data.” Previously, the term “cost or pricing data” had been defined to mean only what is now defined as “certified cost or pricing data.” Throughout the FAR, the term “cost or pricing data” was generally replaced with the new term “certified cost or pricing data.” The same final rule also replaced the term “information other than cost or pricing data” with the new term “data other than certified cost or pricing data.” The new definition of these terms in the FAR is significant because the conforming changes to the DFARS, currently being processed under DFARS Case 2011-D040, Definition of Cost or Pricing Data, are not yet implemented. Therefore, this rule includes conforming changes to DFARS 215.4, in order to ensure that it is clear that only submission of certified cost or pricing data has been waived for the Canadian Commercial Corporation and its subcontractors.

FAR 15.402 and FAR 15.403-3 address requiring data other than certified cost or pricing data. FAR 15.402 emphasizes obtaining no more data than is necessary to establish a fair and reasonable price. Generally, no additional data is required from the offeror if the price is based on adequate price competition. FAR 15.402(a)(2)(ii)(A) and FAR 15.403-3(a)(1)(iv) both address the exceptions to obtaining data related to prices, i.e., FAR 15.403-1(b)(1) (prices based on adequate price competition) or FAR 15.403-1(b)(2) (prices set by law or regulation). None of these exceptions provides a general exception to the requirement to obtain data other than certified cost or pricing data based on a waiver of the requirement to provide certified cost or pricing data. In fact, FAR 15.403-3(a)(1)(ii) clearly states that in those acquisition that do not require certified cost or pricing data (e.g., when a waiver has been granted), the contracting officer shall obtain data other than certified cost or pricing data from the offeror to the extent necessary to determine a fair and reasonable price if the contracting officer determines that adequate data from sources other than the offeror are not available. FAR 15.403-3(a)(1)(v) recommends consideration of the guidance in section 3.3, chapter 3, volume I, of the Contract Pricing Reference Guide, available at <http://www.acq.osd.mil/dpap/cpf/>
