CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2011-0070]

Alternative Testing Requirements for Small Batch Manufacturers

AGENCY: U.S. Consumer Product Safety Commission.

ACTION: Notice of public hearing.

SUMMARY: Section 14(i)(4)(A)(i) of the Consumer Product Safety Act, 15 U.S.C. 2063(i)(4)(A)(i), provides that the Commission, in implementing third party testing requirements, under

certain circumstances, may allow small batch manufacturers to use alternative testing requirements in lieu of testing prescribed in an applicable consumer product safety rule, ban, standard, or regulation. If, however, the Commission determines that no alternative testing requirement is available or economically practicable, it shall exempt eligible small batch manufacturers from third party testing requirements. Through this notice, the Commission is announcing that it will conduct a public hearing to receive views from all interested parties about whether such alternative testing requirements are available or economically practicable or, in the absence of economically practicable alternatives, whether an exemption from third party testing is appropriate.

DATES: The public hearing will begin at 10 a.m. EST on October 26, 2011.

ADDRESSES: The public hearing will be held in the Hearing Room, 4th Floor of the Bethesda Towers Building, 4330 East West Highway, Bethesda, MD 20814.

SUPPLEMENTARY INFORMATION: Section 14(a)(2)(A) of the Consumer Product Safety Act, 15 U.S.C. 2063(a)(2)(A), provides that every manufacturer of a children's product that is subject to a children's product safety rule shall submit sufficient samples of the children's product, or samples that are identical in all material respects to the product, to a CPSC-approved third party conformity assessment body to be tested for compliance with such children's product safety rule. Further, section 14(i)(2) requires continued testing of children's products, directing the Commission to, by regulation, establish protocols and standards—

(i) For ensuring that a children's product tested for compliance with an applicable children's product safety rule is subject to testing periodically and when there has been a material change in the product design or manufacturing process, including the sourcing of component parts;

(ii) For the testing of representative samples to ensure continued compliance;

(iii) For verifying that a children's product tested by a conformity assessment body complies with applicable children's product safety rules; and

(iv) For safeguarding against the undue influence on a third party conformity assessment body by a manufacturer or private labeler. The Commission has been working to adopt a testing and certification rule that sets forth the continued testing requirements mandated by section 14(i). In this context, we have explored possible alternatives for small batch manufacturers to reduce the burden and cost of third party testing on such
