Based on its review of the proposed action relative to the requirements set forth in 10 CFR part 51, the NRC staff has determined that renewal of License SNM-124, for a period of 40 years would not significantly affect the quality of the human environment. In its license renewal request, NFS is proposing no changes in how it processes enriched uranium, and no significant changes in NFS' authorized operations are planned during the proposed license renewal period. The impacts of ongoing and planned construction actions—including those related to the physical protection and safeguarding of licensed materials—are not expected to significantly affect the quality of the human environment. Gaseous emissions and liquid effluents generated by the NFS facility are presently controlled and monitored by permit, and would continue to be required to meet regulatory limits for non-radiological and radiological components. Public and occupational radiological dose exposures that would be generated by continued NFS facility operations would continue to be required to meet 10 CFR part 20 regulatory limits. Pursuant to 10 CFR 51.31 and 51.32, the NRC staff concludes that a FONSI is appropriate, and that preparation of an EIS is not warranted for the proposed action.

Dated at Rockville, Maryland, this 20th day of October, 2011.

For the Nuclear Regulatory Commission,
Christopher McKenney,
Acting Deputy Director, Environmental Protection and Performance Assessment Directorate, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, pursuant to 39 U.S.C. 404(d), on October 13, 2011, the

Commission received a petition for review of the Postal Service's determination to close the Ardenvoir post office in Ardenvoir, Washington. The petition for review was filed by Christine Mallon (Petitioner) and is postmarked September 30, 2011. The Commission hereby institutes a proceeding under 39 U.S.C. 404(d)(5) and establishes Docket No. A2012-11 to consider Petitioner's appeal. If Petitioner would like to further explain her position with supplemental information or facts, Petitioner may either file a Participant Statement on PRC Form 61 or file a brief with the Commission no later than November 17, 2011.

Issues apparently raised. Petitioner contends that: (1) The Postal Service failed to consider the effect of the closing on the community (see 39 U.S.C. 404(d)(2)(A)(i)); and (2) the Postal Service failed to consider whether or not it will continue to provide a maximum degree of effective and regular postal services to the community (see 39 U.S.C. 404(d)(2)(A)(iii)).

After the Postal Service files the administrative record and the Commission reviews it, the Commission may find that there are more legal issues than those set forth above, or that the Postal Service's determination disposes of one or more of those issues. The deadline for the Postal Service to file the applicable administrative record with the Commission is October 28, 2011. See 39 CFR 3001.113. In addition, the due date for any responsive pleading by the Postal Service to this Notice is October 28, 2011.
