

Parties can find a complete discussion of all issues raised in these reviews and the corresponding recommendations in this public memorandum, which is a public document and is on file electronically via Import Administration's Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS). Access to IA ACCESS is available in the Central Records Unit in room 7046 of

the main Department building. In addition, a complete version of the Decision Memorandum can be accessed directly on the Web at <http://www.trade.gov/ia/>. The signed Decision Memorandum and the electronic versions of the Decision Memorandum are identical in content.

Final Results of Sunset Reviews

We determine that revocation of the antidumping duty orders on certain circular welded non-alloy steel pipes from Brazil, Mexico, the Republic of Korea, and Taiwan; and certain circular welded carbon steel pipes and tubes from Taiwan would be likely to lead to continuation or recurrence of dumping at the following weighted-average percentage margins:

Manufacturers/Exporters	Weighted-average margin (percent)
Certain Circular Welded Non-Alloy Steel Pipe	
Brazil:	
Persico Pizzamiglio S.A.	103.38
All Others	103.38
Mexico:

Notification to Interested Parties

This notice also serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective orders is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Certain Hot-Rolled Carbon Steel Flat Products From the People's Republic of China: Final Rescission of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On August 8, 2011, the Department of Commerce ("Department") published the *Preliminary Results* of the administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products ("hot-rolled") from the People's Republic of China ("PRC").¹ This administrative review covers Baosteel Group Corporation, Shanghai Baosteel International Economic & Trading Co., Ltd., and Baoshan Iron and Steel Co., Ltd. (collectively "Baosteel") for the November 1, 2009, through October 31, 2010, period of review ("POR"). In the *Preliminary Results*, the Department indicated its preliminary intent to rescind this review and gave interested parties an opportunity to comment. We did not receive comments on the *Preliminary Results*.

¹ See *Certain Hot-Rolled Carbon Steel Flat Products From the People's Republic of China: Preliminary Intent To Rescind the Review*, 76 FR 48143 (August 8, 2011) ("*Preliminary Results*").

DATES: *Effective Date:* October 28, 2011.

SUPPLEMENTARY INFORMATION:

Background

As noted above, on August 8, 2011, the Department published in the **Federal Register** the *Preliminary Results* of the administrative review of the antidumping duty order on hot-rolled from the PRC. The Department did not receive comments from interested parties on our *Preliminary Results*.

Scope of the Order

The products covered by the order are certain hot-rolled carbon steel flat products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness.

Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4.0 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of the order. Specifically included within the scope of the order are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (“IF”)) steels, high strength low alloy (“HSLA”) steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as columbium), or both, added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products included in the scope of the order, regardless of definitions in the Harmonized Tariff Schedule of the United States (“HTSUS”), are products in which: (i) Iron predominates, by

weight, over each of the other contained elements; (ii) the carbon content is 2 percent or less, by weight; and, (iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

1.80 percent of manganese, or
2.25 percent of silicon, or
1.00 percent of copper, or
0.50 percent of aluminum, or
1.25 percent of chromium, or
0.30 percent of cobalt, or
0.40 percent of lead, or
1.25 percent of nickel, or
0.30 percent of tungsten, or
0.10 percent of molybdenum, or
0.10 percent of niobium, or
0.15 percent of vanadium, or
0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of the order unless otherwise excluded. The following products, for example, are outside or specifically excluded from the scope of the order:

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including, e.g., American Society for Testing and Materials (“ASTM”) specifications A543, A387, A514, A517, A506).
- Society of Automotive Engineers (“SAE”)/American Iron & Steel Institute (“AISI”) grades of series 2300 and higher.
- Ball bearing steels, as defined in the HTSUS.
- Tool steels, as defined in the HTSUS.
- Silico-manganese (as defined in the HTSUS) or silicon electrical steel with a silicon level exceeding 2.25 percent.
- ASTM specifications A710 and A736.
- USS abrasion-resistant steels (USS AR 400, USS AR 500). All products (proprietary or otherwise) based on an alloy ASTM specification (sample specifications: ASTM A506, A507).
- Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping and which have assumed the character of articles or products classified outside chapter 72 of the HTSUS.

The merchandise subject to the order is classified in the HTSUS at subheadings: 7208.10.15.00, 7208.10.30.00, 7208.10.60.00, 7208.25.30.00, 7208.25.60.00, 7208.26.00.30, 7208.26.00.60, 7208.27.00.30, 7208.27.00.60, 7208.36.00.30, 7208.36.00.60, 7208.37.00.30, 7208.37.00.60, 7208.38.00.15, 7208.38.00.30, 7208.38.00.90, 7208.39.00.15,

7208.39.00.30, 7208.39.00.90, 7208.40.60.30, 7208.40.60.60, 7208.53.00.00, 7208.54.00.00, 7208.90.00.00, 7211.14.00.90, 7211.19.15.00, 7211.19.20.00, 7211.19.30.00, 7211.19.45.00, 7211.19.60.00, 7211.19.75.30, 7211.19.75.60, and 7211.19.75.90. Certain hot-rolled carbon steel flat products covered by the order, including: vacuum degassed fully stabilized; high strength low alloy; and the substrate for motor lamination steel may also enter under the following tariff numbers: 7225.11.00.00, 7225.19.00.00, 7225.30.30.50, 7225.30.70.00, 7225.40.70.00, 7225.99.00.90, 7226.11.10.00, 7226.11.90.30, 7226.11.90.60, 7226.19.10.00, 7226.19.90.00, 7226.91.50.00, 7226.91.70.00, 7226.91.80.00, and 7226.99.00.00. Subject merchandise may also enter under 7210.70.30.00, 7210.90.90.00, 7211.14.00.30, 7212.40.10.00, 7212.40.50.00, and 7212.50.00.00. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise subject to the order is dispositive.

Rescission of the Review

Based on its analysis of the record information, the Department preliminarily determined that the merchandise in the Customs and Border Protection (“CBP”) data and the entry documentation on the record was not subject to the scope of the antidumping duty order on hot-rolled carbon steel flat products from the PRC.² Accordingly, in the *Preliminary Results*, the Department indicated that it intended to rescind this administrative review because there was no information on the record which indicated that Baosteel made sales, shipments, or entries to the United States of subject merchandise during the POR. We did not receive comments concerning the *Preliminary Results*. Therefore, the Department continues to find that the merchandise reflected in the CBP data and entry documentation on the record is not subject to the scope of the antidumping duty order on hot-rolled from the PRC. Furthermore, because Baosteel is the only company subject to this administrative review, in accordance with 19 CFR 351.213(d)(3), and consistent with our practice³, we are rescinding this review of the antidumping duty order on hot-rolled from the PRC for the period of

² *Id.* at 48145.

³ See *Pure Magnesium from the People's Republic of China: Rescission of Antidumping Duty Administrative Review*, 76 FR 53408 (August 26, 2011).

November 1, 2009, through October 31, 2010. The Department intends to instruct CBP fifteen days after the publication of this notice to liquidate such entries with respect to the PRC-wide entity. With respect other entries, as indicated in the *Preliminary Results*, the Department will refer this matter to CBP to determine the appropriate Customs classification for the merchandise in question.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i) of the Tariff Act of 1930, as amended and 19 CFR 351.213(d)(4).

Dated: October 21, 2011.

Ronald K. Lorentzen,

Deputy Assistant Secretary for Import Administration.

Steel Wire Garment Hangers From the People's Republic of China: Preliminary Results and Preliminary Rescission, in Part, of the Second Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("Department") is conducting the second administrative review of steel wire garment hangers from the People's Republic of China ("PRC") for the period October 1, 2009, through September 30, 2010. The Department has preliminarily determined that sales have been made below normal value ("NV") by the respondent. If these preliminary results are adopted in our final results of this review, the Department will instruct U.S. Customs and Border Protection ("CBP") to assess antidumping duties on all appropriate entries of subject merchandise during the period of review ("POR"). Interested parties are invited to comment on these preliminary results.

DATES: *Effective Date:* October 28, 2011.

FOR FURTHER INFORMATION CONTACT: Bob Palmer, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; *telephone:* (202) 482-9068.

SUPPLEMENTARY INFORMATION:

Background

The Department received a timely request from Petitioner¹ in accordance with 19 CFR 351.213(b), during the anniversary month of October, to conduct a review of steel wire garment hanger exporters from the PRC. On November 29, 2010, the Department initiated this review with respect to 102 producers/exporters of subject merchandise from the PRC.²

On December 23, 2010, Petitioner withdrew its request for an administrative review of 87 companies out of the 102 companies under review. On March 18, 2011, the Department published a notice of rescission in the *Federal Register* for those 87 companies for which the request for review was

withdrawn.³ Fifteen companies remain subject to this review.⁴ Between January 28, 2011, and May 26, 2011, the Department received no-shipment certifications from eight of these companies. For a detailed discussion of the companies that certified they had no shipments during the POR, see the "Preliminary Partial Rescission of Administrative Review" section below. For a detailed discussion of the remaining seven companies subject to this review, see the "Respondent Selection" and "Separate Rates" sections below.

On May 19, 2011, the Department published a notice in the *Federal Register* extending the deadline for issuing the preliminary results by 120 days to October 31, 2011.⁵

Respondent Selection

Section 777A(c)(1) of the Tariff Act of 1930, as amended ("the Act"), directs the Department to calculate individual dumping margins for each known exporter or producer of the subject merchandise.⁶ However, section 777A(c)(2) of the Act gives the Department the discretion to limit its examination to a reasonable number of exporters or producers if it is not practicable to examine all exporters or producers involved in an administrative review.

On December 6, 2010, the Department released CBP data for entries of subject merchandise during the POR under administrative protective order ("APO") to all interested parties having an APO as of five days after publication of the *Initiation Notice*, and invited comments regarding the CBP data and respondent selection. On December 20, 2010, the Department received comments from Petitioner regarding respondent selection for this review. No other
