

process. Formal scoping for public comments began with the publication of the Notice of Intent, a legal document notifying the public and any affected agencies of the intent to revise the 1989 RMP and prepare an EIS. The notice includes draft planning criteria for review and was published in the **Federal Register** on January 15, 2008 (73 FR 2520). Public scoping meetings and comment solicitation began on June 25, 2008, and ended on August 31, 2008.

Scoping events included open houses in nine communities, attendance at local government meetings in six communities, a mailing of 1,188 letters soliciting written comments, a Web site, plus meetings and conversations with various Federal and State government agencies. All Tribes with lands or with interest in lands within the BLM Baker Field Office Planning Area were invited to participate in the planning process. Three Tribes responded to the BLM's offer, and scoping presentations were made to those Tribes. Consultation with these Tribal governments will be ongoing.

The information obtained from the scoping process was used to define the relevant issues that are addressed in a range of alternative management actions, the environmental impacts of which are analyzed in the Draft EIS. Based on the scoping comments received and their subsequent analysis and evaluation, four major planning issues were identified as being within the scope of the BLM Baker Field Office Draft RMP/EIS.

- *Issue 1: Landscape Health/Land Use*—How should the diverse landscapes and resources within the Planning Area be managed?
- *Issue 2: Renewable Energy Development*—How should the BLM Baker Field Office manage renewable energy development?
- *Issue 3: Transportation and Access*—How should the BLM Baker Field Office manage transportation and access?
- *Issue 4: Livestock Grazing*—How will livestock grazing on public lands be addressed?

All four issues center on the larger question of just how much resource use and human activity is acceptable, while still providing the mandated level of resource protection.

In addition to the existing no-action alternative, five action alternatives and one sub-alternative were developed to respond to these key issues. The alternatives also address the following: Vegetation and soils, fire management, water quality/aquatic resources/fisheries, wildlife, recreation, visual

resources, minerals, lands and realty, special management areas, climate change, lands with wilderness characteristics, and Tribal-government and community interests.

Special management areas considered in the Draft RMP/EIS include wild and scenic rivers, wilderness study areas, areas of critical environmental concern (ACEC), research natural areas (RNA), national historic trails, backcountry byways, and lands with wilderness characteristics. The BLM Baker Field Office intends to apply appropriate management to these areas to protect the values and resources for which they were designated. The BLM Baker Field Office considered carrying forward or dropping current administrative designations (i.e., ACECs and RNAs), depending on whether or not they still meet the criteria for which they were originally designated. Additional areas were nominated for designation as ACECs and those that met relevance and importance criteria and merit special management are proposed for designation in the Draft RMP/EIS. The BLM Baker Field Office conducted an inventory of rivers and streams to determine eligibility and suitability for inclusion into the National Wild and Scenic Rivers System for designation by Congress and drafted interim management prescriptions for the waterway segment determined "suitable" in the planning process. Wilderness-character inventory maintenance was completed for the Decision Area. This inventory identified lands with wilderness characteristics on 3,380 acres contiguous with BLM Wilderness Study Areas and 9,843 acres adjacent to U.S. Forest Service potential Wilderness Areas. The Draft EIS considers a range of management alternatives for these lands with wilderness characteristics.

Following the close of the public review and comment period, public comments will be used to revise the BLM Baker Field Office Draft RMP/EIS in preparation for its release to the public as the BLM Baker Field Office Proposed RMP and Final EIS. The BLM will respond to each substantive comment by making appropriate revisions to the document or by explaining why a comment did not warrant a change. Notice of the availability of the Proposed RMP and Final EIS will be posted in the **Federal Register**.

Please note that public comments and information submitted including names, street addresses, and email addresses of persons who submit comments will be available for public review and disclosure at the above address during

regular business hours (8 a.m. to 4 p.m.), Monday through Friday, except holidays.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

SUPPLEMENTARY INFORMATION:

Background.—The final phase of these investigations is being scheduled as a result of affirmative preliminary determinations by the Department of Commerce that imports of CSOBAs from China and Taiwan are being sold in the United States at less than fair value within the meaning of section 733 of the Act (19 U.S.C. 1673b). These investigations were requested in a petition filed on March 31, 2011 by Clariant Corp., Charlotte, NC.

rules, no later than 21 days prior to the hearing date specified in this notice. A party that filed a notice of appearance during the preliminary phase of the investigations need not file an additional notice of appearance during this final phase. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and BPI service list.—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI gathered in the final phase of these investigations available to authorized applicants under the APO issued in the investigations, provided that the application is made no later than 21 days prior to the hearing date specified in this notice. Authorized applicants must represent interested parties, as defined by 19 U.S.C. 1677(9), who are parties to the investigations. A party granted access to BPI in the preliminary phase of the investigations need not reapply for such access. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Staff report.—The prehearing staff report in the final phase of these investigations will be placed in the nonpublic record on March 1, 2012, and a public version will be issued thereafter, pursuant to section 207.22 of the Commission's rules.
