

a permitting authority but is not a respondent).

Estimated Total Annual Burden: For part 70, the total annual burden for sources and state and local permitting authorities is 5,311,884 hours and the total annual cost is \$226,736,622. For part 71, the total annual burden for sources and the one delegate agency (tribal) is 38,731 hours and the total annual cost is \$1,865,183.

Are there changes in the estimates from the last approval?

Since the last renewal of the part 70 ICR (in 2007), there is a decrease of 214 thousand hours (or about a 4 percent decrease) of annual respondent burden. This change is primarily due to an updated estimate of the number of permits expected compared to the last ICR renewal. To a lesser extent, this decrease is due to reduced permit renewal activity related to implementation of the Flexible Permits rule. Although the GHG Tailoring rule increased the number of source respondents by 552, the increase in burden was more than offset by the decrease in burden from the updated estimate of the number of permits and the decreased burden from the implementation of the Flexible Air Permits rule. Also, the annual per respondent burden has changed very little since the last part 70 ICR renewal (248 hours previously compared to the new estimate of 250 hours or about a 1 percent increase).

Since the last renewal of the part 71 ICR (in 2007), there is an increase of 10 thousand hours of total annual respondent burden (about a 36 percent increase). This is primarily due to an updated estimate of the number of permits expected (123 permits in the prior renewal versus 174 permits in this renewal or a 42 percent increase), which is due to increased energy development (oil and gas exploration and alternative energy development) in offshore areas under the EPA jurisdiction. In the current part 71 renewal, the Flexible Air Permits rule and the GHG Tailoring rule result in nearly offsetting decreases and increases in burden. Also, even though the total annual burden has increased compared to the prior ICR renewal, the annual per source burden has decreased by about 3 percent.

What is the next step in the process for this ICR?

The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, the EPA will issue

another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICRs to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: December 8, 2011.

Mary E. Henigin,

Acting Office Director, Office of Air Quality Planning and Standards.

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NSPS for Metallic Mineral Processing Plants (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before January 13, 2012.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2011-0218, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 2822IT, 1200 Pennsylvania Avenue NW., Washington, DC 20460; and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Learia Williams, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue

NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; email address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 9, 2011 (76 FR 26900), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to both EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2011-0218, which is available for public viewing online at <http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to either submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: NSPS for Metallic Mineral Processing Plants (Renewal).

ICR Numbers: EPA ICR Number 0982.10, OMB Control Number 2060-0016.

ICR Status: This ICR is scheduled to expire on December 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The New Source Performance Standards (NSPS) for

Metallic Mineral Processing Plants (40 CFR part 60, subpart LL) were promulgated on February 21, 1984, and amended on October 17, 2000. This NSPS affects both owners and operators of metallic mineral processing plants.

Owners and operators must conduct initial performance tests, maintain records of startups, shutdowns, malfunctions, and continuous monitoring system parameters, and submit semiannual reports. These notifications, reports, and records are essential in determining compliance; and, in general, are required of all sources subject to NSPS.

Notifications are to inform the Agency or delegated authority when a source becomes subject to the standard. The reviewing authority may then inspect the source to check if the pollution control devices are properly installed and operating, and that the standards are being met. Performance test reports are required as these are the Agency's records of a source's initial capability to comply with the emission standards and to serve as a record of the operating conditions under which compliance are to be achieved. The information generated by monitoring, recordkeeping, and reporting requirements described in this ICR are used by the Agency to ensure that facilities affected by the standard continue to operate the control equipment and achieve continuous compliance with the regulation.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 63, subpart LL, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for the EPA regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 52 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize

technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Metallic mineral processing plants.

Estimated Number of Respondents: 20.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 2,306.

Estimated Total Annual Cost: \$233,712, which includes \$220,712 in labor costs, no capital/startup costs, and \$13,000 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the labor hours to the respondents in this ICR compared to the previous ICR. After consulting the Office of Air Quality Planning and Standards (OAQPS) and trade associations, our data indicates that there are approximately 20 sources subject to the rule, with no additional new sources over the next three years.

However, there is an increase in the estimated burden cost as currently identified in the OMB Inventory of approved Burdens. The increase is not due to any program changes, but the change in burden is due to the use of the most updated labor rates.

John Moses,

Director, Collection Strategies Division.

Dicofol; Cancellation Order for Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations, voluntarily requested by the registrants and accepted by the Agency, of products containing dicofol, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act

(FIFRA), as amended. This cancellation order follows a June 22, 2011 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 3 of Unit II to voluntarily cancel these product registrations. These are the last products containing this pesticide registered for use in the United States. In the June 22, 2011 notice, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 30 day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency did not receive any comments on the notice. Further, the registrants did not withdraw their requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order. 11P-1531

DATES: The cancellation of the technical dicofol product is effective December 14, 2011. The cancellations of the end use registrations are effective October 31, 2013.

FOR FURTHER INFORMATION CONTACT:

Susan M. Bartow, Pesticide Re-evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (703) 603-0065; email address: bartow.susan@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How can I get copies of this document and other related information?

EPA has established a docket for this action under docket identification (ID) number EPA-HQ-OPP-2005-0220. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only
